- 1 PEACH BLOW.
- 2 GEN. DE COURTIGIS.
- 3 CARMINATUS PERFECTUS.
- 4 AURIANTICA.
- 5 RUBRA.

For Description and Price
See Page 3.

SPRING, 1902.

THE INNISFALLEN GREENHOUSES are now entering upon the 25TH YEAR of their existence, each succeeding year of the whole quarter century has witnessed an increasing business, until today we have one of the largest and most complete establishments in the world devoted to the production of flowering and foliage plants; while our Seed and Fruit Departments are replete with full stocks of the best varieties in best quality of everything in their line.

We invite special attention to our *Schedule of Club Rates*, which will enable you to obtain the best of plants at very low prices, and by a little effort in soliciting orders from your friends and neighbors, to obtain your own plants FREE. It is our constant endeavor to give perfect satisfaction to all customers by giving critical attention to their wants in every detail, and our constantly increasing business proves beyond a doubt we have been successful in so doing. We believe all our former patrons will find it to their best interest to send their orders to us again this year, and we hope to add thousands of new names to our list.

SCHEDULE OF CLUB RATES

LIBERAL TERMS FOR CLUB ORDERS.

Although our prices will be found as low as offered in other catalogues, we make the following additional inducements for the sending of LARGER ORDERS—get your friends to order with you, for the larger the order, the more you get for your money.

DO NOT UNDERSTAND, however, that it is NECESSARY to form a club, as an individual order is entitled to the same rates. Anyone who has time and does not wish to spare the money can secure their own plants, without cost by soliciting their neighbors to unite with them in ordering.

EXCEPTIONS: *These Club Rates are not allowed on FRUITS, pages 74-79; GIANT AND IMPERIAL COLLECTIONS, page 18; LIBERAL 50c COLLECTIONS, page 55; EIGHT LARGE ROSES, page 21; ALL OFFERS ON CIRCULARS, and a few other articles where it is expressly stated must not be included in Club Rates. Nor can we allow any of these to be selected as Premiums.*

Please remember this when ordering, and, if possible, keep the above named exceptions separate from that part of your order entitled to Club Rates.

MAIL CLUB RATES—Plants, etc., by Mail or prepaid Express—CHARGES PAID BY US.

Anyone sending us \$1.00,	may select Plants, Bulbs and Seeds from catalogue to value of	25cts extra
Anyone sending us \$2.00,	may select Plants, Bulbs and Seeds from catalogue to value of	60cts extra
Any sending us \$3.00,	may select Plants, Bulbs and Seeds from catalogue to value of	\$1.00 extra
Anyone sending us \$4.00,	may select Plants, Bulbs and Seeds from catalogue to value of	\$1.50 extra
Anyone sending us \$5.00,	may select Plants, Bulbs and Seeds from catalogue to value of	\$2.00 extra
Anyone sending us \$6.00,	may select Plants, Bulbs and Seeds from catalogue to value of	\$2.50 extra
Anyone sending us \$8.00,	may select Plants, Bulbs and Seeds from catalogue to value of	\$4.00 extra
Anyone sending us \$10.00,	may select Plants, Bulbs and Seeds from catalogue to value of	\$5.00 extra

PLEASE NOTE EXCEPTIONS ABOVE STATED.

EXPRESS CLUB RATES—Plants, etc., sent by Express, PURCHASERS TO PAY CHARGES WHEN GOODS ARE RECEIVED. The liberal rates here offered, together with the extras we always add, will far more than pay for the amount of express charges.

Anyone sending us \$2.00,	may select Plants, Bulbs and Seeds from catalogue to value of	\$1.00 extra
Anyone sending us \$3.00,	may select Plants, Bulbs and Seeds from catalogue to value of	\$1.75 extra
Anyone sending us \$4.00,	may select Plants, Bulbs and Seeds from catalogue to value of	\$2.50 extra
Anyone sending us \$5.00,	may select Plants, Bulbs and Seeds from catalogue to value of	\$3.00 extra
Anyone sending us \$6.00,	may select Plants, Bulbs and Seeds from catalogue to value of	\$4.00 extra
Anyone sending us \$8.00,	may select Plants, Bulbs and Seeds from catalogue to value of	\$5.00 extra
Anyone sending us \$10.00,	may select Plants, Bulbs and Seeds from catalogue to value of	\$8.00 extra

PLEASE NOTE EXCEPTIONS ABOVE STATED.

INDIVIDUAL ORDERS ARE ALLOWED THE SAME RATES AS CLUB ORDERS.

HOW TO SEND CLUB ORDERS—Keep each person's order separate, giving his or her full name, with the amount of the order. Then make your selection of the amount due you, naming plants desired as your discount.

HOW WE PACK OUR CLUB ORDERS—Each person's plants will be packed separately with his or her name attached, so you will have nothing to do but deliver the bundle. If the plants are to be sent by mail and you desire them to be sent direct to the person, we will do so when their order amounts to \$1.00 or more.

If Plants are to be sent by Express, always mention by which Express Company you wish them sent.

SUGGESTIONS AND INFORMATION

OF IMPORTANCE AND INTEREST TO ALL.

SUGGESTIONS TO CUSTOMERS.

When Best to Order.

ORDER EARLY—We strive to fill all orders within a day or two after they reach us, but this is frequently made impossible by a great rush of business about planting time. Do not wait until you need your seeds and bulbs before ordering. Anticipate planting time by getting your orders in early. If you do not wish your seeds or plants until some later date, we will get them ready and ship whenever desired.

How Best to Order.

By writing out your order on the Order Sheets which accompany this Catalogue, you will greatly facilitate our work. Please write only one variety on a line. Additional Order Sheets will be sent free on application.

Be Sure to Sign Name and Give Your Address.

Many orders reach us lacking either or both. Customers when writing about unsigned orders will aid us in identification by mentioning some of the articles ordered. We have a number of unidentified orders on hand now.

Remittances

Should be made either in the form of P. O. Money Order, Bank Draft, Express Money Order, or Registered Letter. Remittances in any other way are entirely at the sender's risk. When money is sent as above indicated we will send a plant or seeds of your selection, to amount of cost of money order, etc., if amount sent us is \$1.00 or more. UNITED STATES POSTAGE STAMPS will be received if currency cannot be obtained.

Our Plant, Seed and Fruit Departments

Are entirely separate. Often the seeds or plants on a combined order may be sent before balance of order is filled. If only one part of order is received, please wait two or three days for the balance before writing us.

We Pack All Plants Carefully

In strong boxes, which insure their safe transit through the mails to the remotest parts of the country.

We Guarantee

That every package we send out shall reach its destination in good condition. If a package is lost, or any of its contents injured on the way, we will send again. Examine carefully on receipt and report within ten days should there be any cause for complaint.

Free by Mail.

We send Seeds, Bulbs and Plants **FREE BY MAIL** at the prices named in this Catalogue. This brings them to the very doors of our customers without trouble or expense.

Plants by Express.

We always recommend having plants sent by express, where there are many ordered, and where there is an express office near, as we can usually send much larger plants, and do not have to wash the soil off the roots, as is the case when sent by mail. When the weather is sufficiently warm we pack all express orders in light, strong baskets (which we furnish free), having the tops exposed. Plants packed in this manner will carry nicely for a great distance and keep for a week or ten days in a fresh condition. Purchaser pays express charges, but our **LIBERAL EXPRESS CLUB RATES** far more than compensate for express charges.

Lost Orders.

It occasionally happens that an order is lost in coming to us, or the goods in going to the customer; therefore, if any who order do not hear from us within a reasonable length of time, they should send a duplicate order, naming the date on which the former one was sent, and the amount of money enclosed and in what form. This will enable us to investigate the matter and fill the duplicate order with dispatch.

All Orders

Whether large or small receive from us the same uniform, prompt and careful attention. We fill all in the order of their reception, and unless greatly rushed, send off the plants the day after we receive the order. We wish our customers to remember that it is our determination to please all who deal with us, and we would like to hear from every package we send out. If the purchaser is dissatisfied, it is pleasant to know it; if not, we intend that he or she becomes so.

Our Terms Are Cash With Order.

No order sent C. O. D. unless a remittance of one-fourth of the amount of the order be made to guarantee the acceptance.

Canada Postage.

As postage to Canada is double the United States domestic rate we must ask our Canadian friends to send 10 cents extra for each \$1.00 worth ordered. Do not send Canada postage stamps or silver, as we cannot use or dispose of them.

ITEMS OF INTEREST.

Distance Plants Will Carry Safely.

Judging from past experience, we really think some species would carry around the world. We forward live plants without any trouble to the different States of the Union. We have shipped plants even to China, by mail, that were five weeks on the way, and still opened up fresh.

All Plants Plainly Labeled.

All plants are plainly labeled with a printed label.

Our Plants Are All On Their Own Roots

And as long as any part of the plant remains it will produce uniformly the same beautiful flower. We grow them slowly to avoid forcing, our particular aim being to have a plant small enough to transport through the mail readily without injury, but with the vigor and thrift of much older plants. Consequently on being planted out a thousand miles away, the purchaser is surprised to see plants suddenly spring forth in luxuriant growth and blossom.

Index.

On page 80 will be found an alphabetically arranged table of contents. This will greatly assist you in finding any particular plant that you may wish.

Outdoor Planting.

We are often asked the best time to plant. Always choose the most favorable time in your locality, and order accordingly. We can send most plants safely when desired. As there are so many degrees of latitude, and such varieties of temperature from various causes, it is impossible to dictate as to the precise time to plant out of doors. Customers must judge of this for themselves, always remembering that it is not safe to plant out until all danger of freezing is passed, and the ground is in warm, mellow condition.

You Can Have the Choicest Roses,

Geraniums and other plants in our collection as easily and cheaply as though they were grown at your own door, if you remit as above directed. We will take all the risk, and promise to deliver any plants you may select from our Catalogue in good growing condition.

We Employ

A large force of careful and experienced men, who have been thoroughly educated in the business, and take fully as much pride as we do in growing the plants to their greatest possible perfection, and having as near as possible no mistake occur in getting out and packing.

OUR FALL CATALOGUE.

ON THE FIRST OF SEPTEMBER we issue a Catalogue of Bulbs and Plants for Fall planting and Winter blooming, such as Hyacinths, Tulips, Narcissus, Crocus, Ixias, Freesias, etc. We mail this Catalogue to all of our customers of this and last year, and we also send it free to others who wish to order. : : : : :

INNISFALLEN GREENHOUSES.
ESTABLISHED, 1877.

THE GEO. H. MELLEN CO., Springfield, Ohio.

OUR COLOR ILLUSTRATIONS **ON PAGES OF COVER.**

THREE OF OUR FINEST ROSES.

Illustrated on 1st page of cover.

Price, 20c each; set of 3 for 50c.

AMI. STECHER. (Tea.)

A strong, vigorous grower with beautiful foliage, produces a perfect bud and a full, fragrant flower of bright, cerise-red.

MME. E. DURANTHON.

This is one of the most unique colored Roses in existence. Large flowers, surmounting a long, stiff stem; creamy-white outside, center pink and copper-yellow. Extremely free. This is indeed a beauty. Received first-class certificate at Lyons, France.

QUEEN OLGA OF GREECE.

A very strong grower, with large flowers of magnificent satin-rose color. Extremely beautiful. When fully open, four and a half inches across.

FIVE

HANDSOME HIBISCUS

Shown on 2nd page of cover.

These are large growing tropical shrubs with very glossy foliage. The plants, under the hottest sun, produce enormous flowers in great numbers and make noble specimens. They can be grown in tubs and kept for years. The blooms average five or six inches in diameter and are gorgeously colored. The plants can be wintered over in a warm, dry cellar.

Price, 10c each, except where noted. Set of 5 for 50c.

NEW PINK HIBISCUS

PEACHBLOW.

This is one of the finest plant novelties offered in recent years. It is a "sport" from the double red Hibiscus Rosea-Sinensis; the flowers are double and from four to five inches in diameter; of a charming, rich, clear pink color, with a small deep crimson center; an entirely new and most beautiful shade; it blooms abundantly and continuously even on small plants during the entire Summer and Fall months; may be easily wintered in greenhouse or dwelling. It will give entire satisfaction to all who grow it, either in pots, or planted out in the garden. **Price, 15c each.**

GEN. DE COURTIGIS.

A very grand, large-sized flower; single light scarlet; very showy.

CARMINATUS PERFECTUS.

Full, round flower of perfect shape, and of a rich, soft carmine-rose, with a deep crimson eye. A beautiful free-blooming variety.

AURIANTICA.

Large, double, orange-colored flowers. Very novel and attractive. Our illustration gives a true representation of this beautiful flower.

RUBRA.

A magnificent double variety, large red flowers.

THE BLUE MOONFLOWER.

(Ipomœa Learli.)

Shown on back page of cover.

From Ceylon. Handsome, quick-growing perennial climber. Often flowers in bunches of half a dozen; the individual flowers are trumpet-shaped, about four inches across, of a rich, violet-blue, with five purple rays. Grows about twenty-five feet in one season, and is a most attractive climber. Our colored illustration is a true representation of it. **Price, 10c each; three for 25c.**

THE WHITE MOONFLOWER.

(Ipomœa Grandiflora.)

This plant has become very popular, and it certainly is a wonderful annual climber. It grows rapidly and blooms profusely. Flowers five inches in diameter and quite fragrant. A very rapid Summer climber, blooming the first season. No insects attack the leaf, and even if it did not bloom it would be very desirable because of the beauty of its foliage. But when is added to this the wonderful effect of its flowers, which are borne in great profusion, it cannot fail to please. The flowers are immense, pure white, sweet-scented, five inches in diameter, borne very profusely, and, as they open at night, are very striking. Being a free bloomer, the effect on a moonlight night is charming. It is a splendid plant for verandas. Makes a fine companion for the Blue Moonflower. **Price, 10c each; three for 25c.**

"AMERICA," **SET OF SIX CARNATIONS.**

Shown on 3rd page of cover.

AMERICA.

A soft shade of scarlet. Habit, medium height with a compact growth. A fine sized flower, well formed, nicely filled, and not crowded with petals. Good calyx and long, stiff stem. It is one of the early bloomers. Very free and of easy culture.

ETHEL CROCKER.

Peach pink, beautiful color; decided favorite with a great many growers. A good bloomer all through the season; extremely free.

BOBOLINK.

One of the most showy of the whole collection of fancy Carnations. Flowers very large and full, with center petals standing erect, giving the bloom a beautiful well-rounded form. Habit of plant strong and vigorous. An even and constant bloomer from early till late. Pinkish-cream color, striped with crimson. A lovely variegated Carnation, admired by all who have seen it.

ELDORADO.

A yellow, of free-blooming habit; strong, vigorous plant, erect stems, finely formed flower of fair size, very free. Petals edged with a narrow band of light pink; almost a Picotte in marking. The flower retains its yellow color under artificial light, unlike most yellow varieties.

FLORA HILL.

"The Queen of the Whites." It is the grandest white and the most prolific bloomer of the Carnation family that has been raised up to this time. The flower is of enormous size, full and double; has a good calyx; not subject to rust; under the most ordinary culture, produces good flowers throughout the entire season.

GENERAL GOMEZ.

Brilliant cardinal-maroon. Strong, vigorous, very healthy habit. Flower is full and well fringed and of a very pleasing form, good fragrance. The color is magnificent and as rich and brilliant as the Cardinal flower, without the slightest tendency to turn black; in fact, no crimson carnation has ever come to our notice possessing such a vivid brilliant shade of color.

Price, The "America" Set of 6 Carnations for 50c; single plants, 10c each.

NEW
AND
RARE

ROSES

SOME CHOICE
SELECTIONS FROM
THE LATEST
INTRODUCTIONS.**ANTOINE WEBER**

Very perfect in bud, flower very large and very full; color "hydrangea pink." A very free grower, and recommended as a fine bedder. 20c each; two-year-old plants, 40c.

BESSIE BROWN

(HYBRID TEA.)

We know of no better way to impress upon our customers the great value of this variety than to say that it is as strong growing, as free blooming, as attractive, and as hardy as President Carnot, a Rose whose beauty has taken the country by storm. We regard it as one of the finest Roses in cultivation. The flowers are very large and highly built and double; color is a creamy-white with a beautiful shade of pale tender flesh, resembling glossy silk. It is highly scented and a most magnificent Rose in the open ground. Price, 20c; two-year-old, 40c.

MARQUIS LITTA.

This is a new French forcing Rose, and is by all odds the very best new Rose that has been introduced in years. It resembles in color American Beauty. Buds and flowers of the largest size. It is a strong, vigorous grower, producing its handsome buds and flowers on long stems. It forces equal to Bride or Bridesmaid. Never comes "off color" or with misshaped buds. This is the nearest approach to the ideal forcing Rose. Don't fail to try this grand variety. One-year-old plants 40c each.

MRS. BERKELEY.

This new Rose is a beauty indeed. In fact, to see a bud of it in bloom is absolutely startling, it is so grand and beautiful. The bud and flower are of the largest size when fully expanded, cup shaped, full and double, but the petals are so arranged as not to crowd one another. The color is a pale rose on outer petals, shading to a salmon-rose toward the center. It is very fragrant and a true ever-bloomer. 20c each; two-year old, 40c

JOHANNA WESSELHOFF

This is the grandest yellow Rose we have ever seen. It is a strong, vigorous grower and thrives everywhere. The bud is of the largest size, while the open flower is enormous for a Rose. The color is the deepest golden yellow, very rich, while the fragrance is simply delicious, altogether one of the grandest Roses, no better yellow Rose grown. 20c each; large, two-year-old plants, 40c;

MME. HUSSON.

A dwarf branching grower, producing nice, long buds. The open flower is large and full, and of varying shades of orange, nankeen-yellow and creamy-white. Very fragrant; a charming variety. Price, 20c each; two-year-old-plants, 40c each.

MRS. MAWLEY.

(HYBRID TEA)

Bright carmine, shaded salmon; very large and full; long, plump buds, on very long growths. A fine garden rose. Price, 20c each; two-year-old plants, 40c each.

SOUV. ROSE TERREL DES CHENES.

(Tea.) A seedling from Kaiserina Augusta Victoria and Mme. Joseph Schwartz; vigorous in growth with shining green foliage; flower of large size; color, pale yellow shaded with light pink and rosy-carmine. Price, 20c; two-year-old plants, 40c.

R. E. KESSELSTATT.

(Tea.) Very strong grower, foliage brilliant dark green, produces a long bud of dark red shaded cream color, borne on a long, stiff stem, flowers large, fairly full; clear carmine shaded darker red and touched with cream color. Price, 20c each, two-year-old plants, 40c.

CLARA WATSON.

A free-blooming Tea Rose of English origin, with many distinct features. The flowers are very graceful, resembling Bridesmaid in form, and are produced in remarkable profusion. For freedom of bloom this variety is specially valuable. The buds are very beautiful and are supported on long stems, making it desirable for cutting. The color is salmon-pink very difficult to describe. Will take a place among the best Roses. 20c; two-year-old plants, 40c.

F. L. SEGERS.

A seedling of *Safrano x Adam*. A long bud on stiff stem; buds freely produced. Flowers large and full; color, carmine-scarlet, with tints of rose and yellow. Odd mingling of colors. Fragrant. Price, 20c; two-year-old plants, 40c.

HELEN GOULD

**ELEN GOULD—NEW, HARDY, EVER-BLOOMING ROSE—**

Never before have we seen such superb flowers, not only in size, but in form and color. In it we have a better Rose for general purposes, especially winter blooming, than American Beauty, the dream and hope of every Rose grower. The flowers are full and perfectly double; the buds beautifully made—long and pointed. The color is a warm rosy-crimson. Do not fail to include Helen Gould in your order. It will please you from the day you receive it. As a Rose for Winter-blooming indoors in pots or boxes it is far and away the superior of any variety now known. It will grow to perfection in the ordinary living-room and will produce its lovely flowers continuously throughout the entire Fall and Winter. Price, 25c; two-year-old plants, 50c.

SUPERB COLLECTION OF TWELVE EVER-BLOOMING HYBRID TEA ROSES

THE HYBRID TEA AND BOURBON ROSES are the hardiest of the ever-bloomers, standing the Winter in the northern latitudes with but little protection, and are perfectly hardy south of the Ohio river without any protection whatever. They bloom constantly throughout the summer. The flowers increase in size and beauty as the weather becomes cooler, coming into perfection in Autumn. The following collection has no equal.

Price, 15c each; any 6 for 75c, or 12 for \$1.25. Two-year-old plants, 30c each; any 6 for \$1.25. Our Club Rates will still further Reduce Cost of this Collection.

AUGUSTINE HALEM

In this Rose we have a beauty indeed, for it fairly rivals the well-known American Beauty in the size and color of its flowers. It has well-developed buds, having good, thick, waxy-like petals of excellent substance; color clear, bright, rosy-red, verging to deep, rich crimson. With these changes it adds the delightful fragrance of the old June Roses. It is very free flowering.

EMPRESS AUGUSTA VICTORIA

Elegant large-pointed buds and very large full, double flowers. Color delicate creamy-white; deliciously fragrant. The flowers are on strong stems, with rich, glossy foliage, making it one of the finest Roses for corsage wear or any other use to which cut flowers can be put.

HELENA CAMBIER

Of medium size, very full and of varying colors, from salmon-rose to coppery-rose, often of a handsome saffron hue, becoming lighter as the flowers open. A fine sort.

METEOR A rich, dark, velvety-crimson ever-blooming Rose, as fine in color as the best of perpetuals. The flowers are of good size, very double and perfect in shape, either as buds or when fully opened.

BALDUIN The illustration gives an idea of a most notable production—the strongest growing, freest blooming and hardiest Hybrid Tea Rose now known. In healthy, vigorous growth surpasses any we have ever seen. This grand new variety will unquestionably become one of the most famous Roses in cultivation. It is one of the largest and fullest of red Roses; long, plump buds, forming flowers of grand size and great beauty; sweet-scented as “June Roses.” A most valuable cut-flower variety, rivaling American Beauty. A rapid, abundant grower, producing great quantities of large, fine flowers.

SOUVENIR DE PRESIDENT CARNOT

A charming new French Rose. A strong, clean, healthy grower, with handsome bronzy-green foliage and large, elegant shaped buds. The flower is of large size, of exquisite shape, with heavy, thick shell-like petals; buds long and pointed, similar to Nephritis, but very much larger, and all borne on long, stiff, erect stems. Color a delicate, rosy-flesh, shaded a trifle deeper at center. Very profuse bloomer.

BALDUIN.

MRS. ROBERT GARRETT Of enormous size; buds long and pointed; the open flowers full and double; long, strong stems. The color is a pleasing soft pink, totally distinct. Strong grower.

MAD. JOSEPH SCHWALLER Strong upright grower, with same style and finish of flower as the Hybrid Perpetual class; very free in bloom, with fragrance of La France. The color is a deep, rosy flesh, deepening on edge of petals.

MME. ABEL CHATENAY A great Rose of extraordinary merit. A free bloomer, with flowers of good size; rosy-carmine, with darker shadings. Full, double and of splendid substance.

WHITE LA FRANCE It is identical with La France, except in color. It is purely white, sometimes tinted with fawn. Don't fail to get this new Rose.

STRIPED LA FRANCE This beautiful new Rose is free in bloom; nicely striped. A beautiful bright rose on a satin pink ground. Very distinct and showy.

RED LA FRANCE Color a rich, deep, even pink throughout. The growth of the plant is vigorous, the habit good, and the flowers, which are thrown up well above the foliage, are produced very freely.

PINK LA FRANCE No variety can surpass it in delicate coloring—silvery-rose shades, with pink. It has a satin sheen over all its petals; hardy beyond question. It blooms continuously. The flower is large, finely built, endures for a great length of time.

Mlle. MARTHE HIRIGOYEN Very vigorous in growth, with large bud and fine flower; very full, china rose, petals bordered brighter shading to yellow. A beautiful novelty.

PERNET'S TRIUMPH One of the very finest of the Hybrid Tea class. The flowers are extra large, having broad, thick petals and long, tapering buds, with delicious Tea fragrance. Color a fine, clear magenta-red, sometimes passing to a bright crimson.

New, Hardy, Ever-Blooming Rose, Climbing Clotilde Soupert

For years Clotilde Soupert has stood out as one of the greatest Roses in cultivation. It is our good fortune to introduce in this variety a climbing offspring of Clotilde Soupert. Climbing Clotilde Soupert has the same vigorous constitution of its parent, combined with its truly wonderful freedom of bloom and its extreme hardiness. In a single season small plants will grow 15 to 25 feet, producing cluster after cluster of the finest formed flowers. They are distinct, large, round, full and double, with beautifully imbricated petals, and deliciously sweet. The color effect is magnificent—ivory white

shading toward the center to a silvery-rose. Cluster after cluster of flowers are produced throughout the entire season, and the bush at all times is literally loaded down with them. It needs no protection, having withstood with us a temperature of 20 degrees below zero in the open ground without protection. This is unquestionably one of the most important introductions of recent years. This variety will take its place among the great Roses, such as Crimson Rambler, Mrs. Robert Peary, etc. By all means include it in your order. Satisfaction is assured to all who plant it. We have only one-year-old plants. Price, 25c each.

TWELVE SPECIAL FAVORITES IN Hardy Ever-Blooming Roses

THE COLLECTION here offered has been especially selected from this most popular class of Roses. We can recommend every one of them for beauty, profuse bloom and hardiness. If you can only have a few Roses, don't fail to get this collection. It will give you unbounded satisfaction. We have made the price very moderate, placing them within reach of all.

Price, 10c each; any six for 50c; entire set of 12 for 85c. Two-year-old plants, 25c each; any six for \$1.00; set of 12 for \$1.75. Club Rates still further reduce the price of this collection.

BURBANK.

Burbank—A perfectly hardy, free flowering, ever-blooming Rose. The flowers are double, of fine form, nearly three inches across. The color is a deep rose pink, shading to a beautiful soft rose at the center. The petals are well incurved, so that the center is hidden. In September and October the outer petals change to a deep, rich carmine. Delightfully fragrant.

Beauty of Stapleford—Bright pink color, shaded carmine; large size, very full, perfect form, delightfully scented; a constant and very free bloomer.

Crown Princess Victoria, or White Malmaison—This Rose is one of the loveliest of all Roses. The color is a pure, waxy, snow-white; the center of the flower has a lemon tint, just enough to lighten up and brighten it. We doubt very much if there is a finer Rose grown than this one.

Clothilde Soupert—It is a strong, vigorous grower. The flowers are large, double and beautiful in form, borne in sprays, and the color blends from a soft shell pink to a pure satiny-white.

Duchess de Brabant—This Rose combines exquisite perfume, beautiful coloring and a matchless profusion of flowers and foliage. Soft, light rose, with heavy shading of amber and salmon. Quite hardy.

Etoile de Lyon—This magnificent Rose is a rich golden-yellow; a strong, healthy and vigorous grower; immense bloomer, bearing flowers and buds early and late. The flowers are very deep, rich and full; excellent substance; very sweet; remarkably hardy, both as to heat and cold.

Mad. Jules Grolez—An exceedingly free blooming variety, with very bright, large, full, finely formed flowers. Superb and worthy of a page description. Color a distinct and charming shade of satiny-pink. This is a winner.

Meteor—A rich, dark, velvety-crimson, ever-blooming Rose, as fine in color as the best of Perpetuals. The flowers are of good size, very double and perfect in shape, either as buds or when fully opened.

Mile. Francesca Kruger—In its shading of deep-coppery-yellow it stands unique and distinct from all others. The flower, when open, is of good size and very symmetrical. One of the finest Roses to plant in masses and clumps.

Mosella—Mosella is a stronger grower, flowers are a little larger than the Clothilde Soupert, but appear the same way in clusters and on single stems. The color is chrome-yellow in the center, getting creamy-white on the edges of the petals. It will make a great bedder and is perfectly hardy.

Queen's Scarlet—This is, without doubt, the very best of all red Roses for bedding. It can be planted anywhere, being entirely hardy. The flowers are of large size and of a fiery scarlet, a color seldom seen in Roses. Indeed a bed of this Rose produces a mass of red, equal to a bed of Geraniums.

White Bougère—A beautiful, large, pure white flower, with thick, shell-shaped petals; fine, both in bud and fully open flower. Plant is a strong healthy grower, equally valuable for pot or garden culture.

SEE SCHEDULE OF CLUB RATES ON PAGE ONE BEFORE ORDERING.

SIX SETS OF ROSES IN SOLID COLORS.

On this and the following pages we present Six Lists, or Sets, of Ever-Blooming Roses, each list composed of Varieties of same color, but of different shades, in this way the best Roses of each color are given together so that selections can be more readily made. If you do not want a whole set as offered, you may choose six Roses from any or all of the different lists for the price of one set—50 cents ❀ ❀ ❀ ❀ ❀ ❀

SIX LOVELY RED ROSES

RICH AND UNIQUE Charles Legrady.

This splendid Rose has proven one of the most satisfactory for general planting. Magnificent large buds and flowers of great beauty. Color a fine chamois-red, richly shaded with darkest crimson. This rich unique coloring is one of its marked characteristics, and stamps it with a distinctive charm. For smoothness, richness and finish, this Rose is without a rival. Extra fine. Don't fail to try it.

New Red Rose, FRANCOIS DUBREUIL

A new Red Tea Rose of unusual merit, with fine, large, double flowers, which, in color, are equal to the best of our deep-colored Hybrid Perpetuals. The flowers are large, very full and double, with thick, regularly arranged petals. Color is red, with velvety shadings; rich and very fragrant.

Delightfully Fragrant MAD. SADI CARNOT

This ought to be one of the finest Roses in the whole collection, as it is named after the wife of the late President of France. It blooms in large clusters fine, full flowers, clear, bright cherry-red, passing to magenta. Makes pretty buds; delightfully perfumed.

New Crimson Rose GRUSS AN TEPLITZ

For intense dazzling color there is no other Rose to compare with it. The flowers are large, full and moderately double. The color is fiery crimson, shaded with a dark, velvety sheen, producing a gorgeous effect. The fragrance is deliciously sweet. Grows to a height of four to five feet, is absolutely hardy, and blooms all the time.

The Grandest of All, THE METEOR

A velvety-red ever-bloomer of the deepest glowing crimson; as fine as a Hybrid. Flowers of medium size, very double and slightly recurring. A beautiful open Rose, a free bloomer and a very excellent pot Rose. It has no tinge of violet or purple to mar its beauty. It is a vigorous, bushy grower, with healthy, bright foliage of the deepest green. This is unquestionably the best dark velvety-red rose yet produced. Grand, both in bud and flower.

PRINCESS
DE SAGAN

A Rich Crimson
Tea Rose ❀ ❀ ❀

PRINCESS DE SAGAN

Crimson is a scarce color among Tea Roses, and for that reason, as well as for its vigorous growth, this is a Rose of great value and beauty. The color is rich velvety crimson, brilliantly beautiful. It blooms quickly and abundantly; in fact is one of the freest blooming of Tea Roses. The flowers are very prettily made, while the buds are exceedingly handsome. In its color it is unexcelled for outdoor culture.

PRICE—The Six Lovely Red Roses, 10c each, or Set of Six for 50c; two-year-old plants, 25c; set of Six for \$1.00
CLUB RATES WILL STILL FURTHER REDUCE THIS PRICE. SEE PAGE 1.

SIX EVER-BLOOMING

SNOW-WHITE BEAUTIES**PUREST WHITE.****VIGOROUS GROWERS.****ABUNDANT BLOOMERS.**

[E] Note Remarks at Top of Page 7.

WHITE MAMAN COCHET.

The Largest White Rose,
THE BRIDE.

This is undoubtedly the finest white Ever-Blooming Rose ever offered to the public, and we take pleasure in recommending it to all our customers. The buds are very large and of exquisite form; the petals are of fine texture and substance, and the full flower is very double, measuring from $3\frac{1}{4}$ to 4 inches in diameter. The color is a delicate creamy-white. The blooms can be cut with long stems, and will last in a fresh state after being cut longer than any other known variety. This new Rose is a sport from Catherine Mermet, and is equally valuable either for Summer or Winter flowering.

A Lovely Pure White Rose,

SNOWFLAKE.

This is a lovely White Rose, a pure Tea, but a foreign seedling, the freest-flowering White Rose we have ever seen. It will be especially useful in set designs. For a pot plant it cannot be excelled, as it possesses every good quality of a pot rose. It can be used in place of White Carnations for set pieces at an immense saving, because it can be bloomed profitably at one dollar per hundred buds. Not only will it cover twice and three times the space in a funeral design, for instance, that a Carnation covers, but it will give greatly superior results.

A Splendid Rose,

WHITE BOUGERE.

A beautiful, large, pure white flower, with thick shell-shaped petals; fine both in bud and fully open flower. Plant a strong, healthy grower, and equally valuable for pot or garden culture.

A Graceful Rose,

THE QUEEN.

This elegant new Tea Rose originated in this country. It is a very large, pure snow-white, Ever-Blooming Rose; the flowers are extremely large, very full and double, and delightfully perfumed; a vigorous and healthy grower; it is considered by all who have tried it one of the most valuable pure white roses for all purposes.

One of our Finest,

MARIE GUILLOT.

This beautiful Tea Rose continues in popular favor, and still maintains its position as one of the best white Roses of its class. Flowers of an unusual style, entirely double to the center, and very sweet scented. Habit of growth the best.

WHITE MAMAN COCHET.**A Magnificent, New, Ever-Blooming Tea Rose.**

A grand new Rose of 1898. Identical with its parent, Maman Cochet, the queen of all pink garden roses, except in color of flower which is snowy white, sometimes faintly tinged with the faintest suggestion of pale blush. It has the same freedom of bloom, magnificent form of buds and flowers, which is marvelously beautiful in its perfection. The flowers are large and very double, with petals of unusually heavy texture, making it of more than ordinary value in open ground. It has the vigor of an oak, with large heavy foliage, which is impervious to disease. Hardy with protection; of extraordinary merit.

PRICE—The Six Snow White Beauties, 10c each, or Set of Six for 50c. Two-year-old Plants, 25c each; Set of Six for \$1.00

[E] CLUB RATES WILL STILL FURTHER REDUCE THIS PRICE

SIX OF THE CHOICEST PINK ROSES

Price, 10c each; Set of Six for 50c; Two-year-old plants, 25c; Six for \$1.00.

David Pradle.

One of the most charming Roses we have, and one that will surely become prominent for Summer bedding or indoor planting when it becomes better known. Its habit is perfection, of strong, upright growth, with the cleanest and healthiest foliage that is almost impervious to disease. The flowers are produced in wonderful profusion on long, straight shoots, deliciously fragrant and of the largest size, double to the center, and of the most beautiful form. The coloring is an exquisite blending of lilac and rose, with a delicate and rich crimson center; beautiful in the bud state, but particularly so when the bud is unfolding into the open flower. Then the beauty of the glints of color and the shading is almost indescribable, and must be seen to be appreciated. Don't fail to secure one or more of this beautiful Rose.

Champion of the World.

Everyone wants a hardy ever blooming Rose, and when our attention was called to this grand variety, we at once took steps to procure it. From early summer until frost it can be depended upon to produce flowers in abundance; color, rich glossy pink, delightfully fragrant, and such a strong, vigorous grower that it is almost invulnerable against attacks of insects; thus it is certain to be unequalled for the garden or cemetery.

Maman Cochet.

The extra large flowers are produced on long stems, are very double and the buds and half expanded flowers are simply exquisite in their graceful form, delicate color and rich fragrance. The color is deep rose pink, the inner side of petals silvery-gray.

Muriel Graham.

This superb Rose is from the favorite variety, Catherine Mermet, and is perfectly distinct in color from anything extant, which is pale cream, faintly blushed Rose. The habit of growth is similar to its parent. Sent out by Alexander & Sons, Belfast, Ireland, who consider it one of their best introductions. Well worth our best recommendation.

Souv. de la Malmalson.

This grand old variety, when used as a bedding Rose in Summer, has no equal, as it produces the most perfect flowers in the hottest weather. Its rich, flesh-colored flowers are of immense size, double to the center, are produced in abundance, and have the requisite form and substance to withstand our hot dry Summers; exquisitely fragrant; a noble Rose.

Note
Remarks at
Top of
Page 7.

BRIDESMAID.

BRIDESMAID—Here we have a fine Rose. The bud is of exquisite shape and contour, so solid and firm, and stems are so long and stiff that no other Rose will compare with it in keeping qualities after being cut. It is a bright pink and is the same color all the time, under every condition of the weather and surroundings.

ODD AND NOVEL ROSES

Archduchesse Marie Immaculæ.

New and beautiful. It is one of the most beautiful Roses in the list. The flowers are large, full and sweet, and the buds are exceedingly beautiful, being of splendid size and beautifully pointed. It is a strong grower and a profuse and continuous bloomer. In the open ground it excels. The color is pale citron-red with vermillion center—an odd and rarely beautiful combination, worthy of a place in any garden.

Duchesse Marie Salviati.

A lovely free-blooming Rose. This is a grand Rose of an attractive color, beautiful chrome-yellow elegantly tinged with orange passing to buff, prettily flushed with pale rose; buds and outer petals exquisite orange red. The flowers extra large, quite full and very sweet. It is particularly good in open ground, being quite hardy, a free and constant bloomer and a vigorous grower.

Henry M. Stanley.

The color is a rare and remarkably beautiful shade of clear amber rose, delicately tinged toward the center with fine apricot-yellow; the petals are beautifully edged and bordered with rich carmine, and on the outer reverse side pass to a lovely shade of salmon or buff-rose; the flowers are large, fine, full form, excellent substance and deliciously fragrant, having a rich Tea scent.

LA GRANDEUR.

Remarkable for Their Odd Colorings and Markings...

La Grandeur.

Beautiful lilac-rose, tinted with pale, violet-purple; large, full flowers; finely scented.

Souv. De Jeanne Cabaud.

A beautiful "Frenchy" Rose of most exquisite color; it is very large and very full, and its chief beauty is in its open state, when its appearance is that of a pink Rose set in heart of a large orange Rose; the outer petals are coppery yellow, the center bright carmine pink; it is a strong grower and free in bloom.

Beauty Inconstant.

Color bright capucine-red, shaded and lined with deep carmine and bright yellow. A novel and distinct Rose. The colors are variable, and often upon a single plant there are what to the casual observer would be three different varieties of Roses. The flowers are semi-double, and the buds are long, well formed and very desirable for cut flowers and wearing.

PRICE--All Roses on this page 10c each; Set of Six for 50c; 2-year-old Plants, 25c each; Six for \$1.00. Club Rates still further reduce this price.

PLEASE READ SCHEDULE OF CLUB RATES ON PAGE 1 BEFORE ORDERING.

"Canary" Set of Six Ever-Blooming Yellow Gems

PRICE, 10c EACH; SET OF SIX FOR 50c; TWO-YEAR-OLD PLANTS, 25c; SIX FOR \$1.00.

Etoile De Lyon.

This magnificent Tea Rose, South of the Ohio river, has proved to be perfectly hardy. Blooms in the greatest profusion, and each bud is a gem. Flowers are very large, double full and deliciously fragrant. The color is a beautiful chrome-yellow, deepening at center to pure golden-yellow.

The Deep Golden-Yellow

Mme. Cecile Berthod.

Most beautiful, both in bud and flower, which is deep golden-yellow. In fact, the deepest yellow in color of any rose we grow. The foliage is very bright. This is a rose of magnificent size and color.

The Favorite Rose, Yellow Queen.

One of the finest yellow Tea Roses for out-door planting and one of the hardiest of the Tea section. It blooms very freely and every flower is a gem. Very large and fully double. Well established plants produce flowers equal to M. Neil in size. Color, deep chrome-yellow.

The Unique Rose,

Mme. Francesca Kruger.

The striking color of this handsome Rose places it at once in the front as a bud producer in the open air. In its shading of deep, coppery yellow it stands unique and distinct from all others. The flower, when open, is of good size and very symmetrical. One of the finest roses to plant in masses and clumps

Marie Van Houtte.

Pale yellow, edge of petals often lined with rose, well formed, of good habit and in every respect a most charming sort. The finest Tea Rose for out-door culture.

Perle Des Jardins—Pearl of the Garden.

This magnificent yellow Tea Rose still retains its position as one of the very finest and most beautiful roses of its color ever introduced.

The
CREAM OF
all the
YELLOW
ROSES.

Note Remarks at
Top of Page 7.

Etoile De Lyon.

FANCY COLORED ROSES—COMMONLY CALLED TULIP ROSES

These are Called Tulip Roses Because of the Feathery Shading of Bright Rose Around the Edge of Every Petal. They are Distinct from all Other Roses in the Peculiar Manner of this Marking.

Comtesse Lily Kinsky.

A strong, vigorous grower, bearing large, full flowers of fine regular form; color white, delicately tinged with blush; chamois yellow center; very sweet and pretty.

Dr. Grill.

Coppery-yellow, with fawny-rose reflex. An entirely new color and one of great brilliance. The outer petals are large, round and shell shaped and inclose a mass of shorter petals, which are of a very brilliant color. A grand garden rose.

GOLDEN GATE.

This magnificent Rose produces a profusion of long pointed buds, opening to very large double roses of creamy-white, beautifully tinted with soft yellow at the base of the broad petals, which are exquisitely bordered with clear rose.

Madame De Watteville.

The color is a remarkable shade of creamy-yellow, richly colored with rosy blush. The petals are large and each one widely bordered with bright crimson, which gives it a very striking and beautiful appearance. The flowers are large, very full and highly perfumed. For planting in the open ground Madame de Watteville takes front rank, being a hardy, vigorous grower, a profuse bloomer and unsurpassed for cutting.

Marquis De Vivens.

The color is a novel shade of rich violet, with center and base of petals creamy-yellow, exquisitely tinted salmon and fawn. Large, full flowers; sweet. Constant and profuse bloomer.

Mad. Welche.

Color, beautiful amber yellow, deepening to coppery yellow at the center, delicately tinged and shaded with dark orange red; flowers extra large globular form, very double and full.

PRICE—All Roses on this page 10c each; set of six, 50c; two-year-old plants, 25c; six for \$1. Club Rates will still further reduce price.

GOLDEN GATE.

STAR SET OF BRILLIANT EVER-BLOOMING TEA ROSES

THIS SET MAY BE INCLUDED IN CLUB RATES

PRICE, 10c EACH; ENTIRE SET FOR 80c. Two-year-old plants, 25c each; Set of Ten for \$2.00. Club Rates will further reduce the cost.

Ten of the Best to be Had Anywhere

their beauty, thriftiness and abundance of fine blooms.

You should have the "STAR SET" by all means. It represents a complete assortment of color, including the best of the Ever-blooming Roses. We can recommend everyone of them for

Catherine Mermet—One of the finest Roses grown. Its buds are inimitable, faultless in form and charming in their every shade of color, from the purest silvery-rose to the exquisite combining of yellow and rose, which illumines the base of the petals.

Charles Revolli—A charming Tea Rose. Large globular flowers; full and sweet; color, a lovely shade of brilliant carmine, changing to silver rose; center and base of petals clear golden yellow.

The Bright Rose, Isabella Sprunt—A bright canary-yellow, large, beautiful buds, suitable for cut flowers, a very sweet tea scent, profuse bloomer. It is no doubt the freest bloomer of all yellow roses. This variety has been a favorite in all gardens where good yellow roses are planted for the past twenty years. There are none better.

Maid of Honor—It is a sport from Bridesmaid, and is several shades deeper than that variety. Flowers borne on long stems. Color carmine pink (when we say carmine we mean all that the word implies), shaded brilliantly on the outside petals, color increasing in intensity toward the end of the petal, and approaching the center of the bud each petal increases in intensity of color.

Madame Margottin—A famous rose of the most distinct and beautiful type. Flowers very large, full and double, borne profusely. Color dark citron-yellow, bright red center. A strong grower and a remarkably fine Rose in every way.

Papa Gontier—A grand red Tea, of fine crimson shade and silken texture. The bud is fine size and graceful form. Extremely free, both in growth and bloom. Very long and beautifully leaved stems can be cut.

Sunset—A grand variety. The flowers are of large size, fine, full form, very double and deliciously perfumed; the color is a remarkable shade of rich golden-amber, elegantly tinged and shaded with dark ruddy-copper. Intensely beautiful and resembling in color a splendid "Afterglow." It is a constant and profuse bloomer.

Sv. de Francois Gaulain—Bright velvety-crimson Rose. This is an unusual and highly remarkable color for a Tea Rose; bright, rich, velvety-crimson, very dark and exceedingly handsome; large, full flowers, very fragrant; an early and constant bloomer.

MADAME ELI LAMBERT.

The flowers are extra large, fine, globular form, very full and well built up. The French description says it is the absolute perfection form. The color is rich, creamy-white, faintly tinted with pale golden-yellow, and exquisitely bordered and shaded with solid rosy-flesh, exceedingly beautiful and very sweet; petals large and of good substance; constant and profuse bloomer, strong vigorous and healthy grower.

MADAME ELI LAMBERT.

White Bon Silene—A companion to Bon Silene. This elegant variety is valued for its buds, which are identical with Bon Silene except in color, which is pure white. It is a sport from Bon Silene, and has the same vigorous habit of growth; it is exceedingly fine for open ground planting.

THE POLYANTHA, OR FAIRY ROSES

THE POLYANTHAS are a lovely and distinct class of Ever-blooming Roses, distinguished by their dwarf, bushy habit of growth, medium size and very double flowers, which are delightfully fragrant and are borne in large clusters and masses, frequently seeming to cover the whole path with a sheet of bloom. Price, 10c each; two-year-old plants, 25c.

Etoile d'Or—One of the best and prettiest of all. The flowers are medium size, very fragrant, full round form, perfectly double and borne in large clusters; color pale chrome-yellow, with rich citron-center; very striking and handsome, and entirely different from all others.

Gloire de Polyantha—A beautiful Fairy Rose. Flowers large, perfectly double and deliciously sweet; color citron-rose; elegantly flushed pale carmine.

Jeanne Drivon—A lovely Fairy Rose; perfect, full form, very double; pure white, faintly tinged crimson.

Leonie Osterrieth, White Souper—We believe there is no better white Rose grown. The buds are the largest size, the flower full and double, and deliciously fragrant. Pure porcelain white, with deep center. In freedom of bloom this charming variety rivals the Polyantas.

Mignonette—A lovely Fairy Rose. Full, regular flowers, perfectly double, deliciously perfumed; color clear pink, passing to white, tinged pale rose.

Perle d'Or—Charming and very distinct. Color copper-gold changing to fawn and salmon; flat-rayed, very double and elegantly perfumed.

Parquerette—Flowers are pure white, about one inch in diameter, flowering in clusters of from five to fifty blooms, very full, prettily formed. It has a peculiarly delicious perfume that is exquisite.

Princess Marie Adelaide—This variety has a beautiful habit, and produces large clusters of small, double flowers, beautifully imbricated; color ivory-white, with bright rose center.

Pink Souper—The Pink Souper produces flowers of various shades of pink, sometimes red, then again a bright pink is seen, almost identical in color with that grand old Rose Hermosa. Then again the same bush will produce light pink flowers, suffused with lilac. The colors are altogether new. It is hardy and a profuse bloomer.

PLEASE READ SCHEDULE OF CLUB RATES ON PAGE 1 BEFORE SENDING ORDER.

OUR "1902" ROSE SET

EIGHT MAGNIFICENT EVER-BLOOMING ROSES FOR 50 CENTS.

In presenting this magnificent Collection of Roses, we do so with much pride, as they are the best eight Roses ever offered for the small sum of 50 cents. They include a wide range in color, and will live out anywhere with slight protection. These are *our choice* from more than 50 varieties of new Roses of latest production. We have grown many thousand sets of these Roses in order to be enabled to offer them at a nominal price, so as to get our plants introduced into the homes of many more of those who love and appreciate beautiful flowers, feeling sure that it will induce them to join our host of regular and valued customers. Order a set of these beautiful Roses and see how they will delight you.

We will send full set of eight nice, large, strong plants that will bloom this Summer, by mail, postage prepaid, for **50c**
 Same in two-year-old plants, for **\$1.25**
 If ordered singly, we will send any one for **10c**
 Two-year-old plants, each **25c**

CHRISTINE DENOUE The Double Papa Gontier. This beautiful new red Tea is a very charming Rose, and promises to be one of the best of recent introductions. It is particularly valuable because red has been a very scarce color among Tea Roses, and this one seems exceptionally fine. It is a splendid grower, making a large-sized, graceful bush, with bright, deep green foliage. A constant and very free bloomer.

EDWARD LITTAYE The buds are beautiful, large, full and firm, and elegantly pointed. As they expand the petals show great depth and richness. The flower is superb when open, extra large and perfectly double. Small pot plants, when planted in open ground, quickly make large, strong bushes that produce, on long, stiff stems, great numbers of perfect flowers that are enchanting in fragrance and delicate brightness. It is a clear, rich pink, changing to a silvery rose; healthy; is hardy with ordinary protection.

JULES FINGER A magnificent Rose; elegant and valuable, the color is bright rosy-scarlet beautifully shaded with intense crimson.

Mme. Jos. Laperriere.

A seedling of *Jules Finger* x *C. Mermet*. Fine china rose color, with silver shadings; bud very long, on a firm stem; flower large, very fragrant and a fine grower.

MEDEA Ranked by many enthusiasts as the best yellow Tea Rose. The flowers are of large size, perfectly double to the center and perfect in shape, both in bud and blossom. The color is magnificent—deep rich lemon-yellow with creamy-yellow center with tints of sulphur.

THE BRIDE This is undoubtedly the finest white ever-blooming Rose ever offered to the public, and we take pleasure in recommending it to all our customers. The buds are very large and of exquisite form; the petals are of fine texture and substance, and the full flower is very double measuring from $3\frac{1}{2}$ to 4 inches in diameter. The color is a delicate creamy white. The blooms can be cut with long stems, and will last in a fresh state after being cut longer than any other known variety.

VIRGINIA We consider it one of the most promising Tea Roses of modern introduction. It is a vigorous grower, of bushy habit, the blooms are large and double, finely formed, lasting and of excellent substance, often remaining on the bush until dried up. Color light yellow with a tinge of saffron at the center, and reverse of petals a pinkish cast. Perfume a delicate and delightful Tea scent.

EMILIE GONIN White, tinted with orange-yellow, on a deeper ground. Each petal broadly edged with bright carmine; very large and full.

PLEASE READ SCHEDULE OF CLUB RATES ON PAGE ONE BEFORE ORDERING.

BOUQUET LIST OF CHOICE EVER-BLOOMING TEA ROSES

We can recommend the varieties in this Bouquet List as being reliable, of great merit, beauty and excellence. They will afford you beautiful bouquets this Summer.

Price, 8 cents each; any ten for 60 cents. Two-year-old plants, 25 cents each; six for \$1.00.

COQUETTE
DE LYON.

Coquette de Lyon—Vigorous, rapid grower and constant bloomer. Pure canary-yellow.

Alfred Aubert—A vigorous grower and profuse bloomer; flower as well shaped as "Hermosa," of a bright red color, sweet; color beautiful creamy-white, shaded with rosy-blush, sometimes tinged with purplish-red.

Ron Silene—Noted for the great size and beauty of its buds, which are valued very highly for bouquets; deep rose color, sometimes bright rosy-crimson; splendid for out-door cultivation.

Baronne Berge—The flowers are medium to large size and are produced in large numbers. The plant commences blooming when quite young and continues throughout the season. The color is exceptionally fine and unique—a vivid rose, with bright yellow in the center, which is altogether remarkable in a Rose.

Bougere—This is a superb Rose; extra large, very double and full; exceedingly sweet Tea scent; color bronzy-rose or violet-crimson, delicately shaded with lilac.

Beau Carmine—A splendid Rose for bedding; fine carmine-red, with rich velvety color; flowers large, full and double; constant and profuse bloomer; fragrant and very desirable.

Bertha Clavel—(Bourbon) A striped sport of Souvenir de Malmaison. Color creamy-white, with rose center; back of petals striped violet and light rose.

Cornelia Cook—The buds are of immense size, borne up high on massive stems, and with their round, full, heavy form, carry an air of dignity and grace quite unusual. The flowers are of the clearest snowiest-white.

Comtesse Eva Starhemberg—Flowers full; color creamy-yellow, with buff and ochre-yellow center; petals bordered and edged with rose.

Devoniensis—On account of its whiteness and sweetness often called the "Magnolia Rose." Creamy-white, delicately flushed in the center with pink. One of the most fragrant Roses and a favorite of long standing.

Douglas—Dark, rich crimson; buds of good shape; very free flowering; highly recommended. A valuable variety for house culture.

Duchess of Edinburgh—In great demand for its lovely buds and remarkable for its beautiful color, which is the most intense glowing crimson imaginable.

Enchantress—It blooms with astonishing freedom bearing its large globular flowers in immense clusters. The color is creamy-white, slightly tinged with buff in the center.

General de Tartas—A first-class Rose for bedding. Brilliant carmine, deeply shaded with violet-purple; extra large, very double, full and fragrant.

Gen. Robert E. Lee—Orange-yellow, after the color of Ma Capucine, only richer and better. It is a good grower, has elegant long buds, borne on long stems. It forces easily, being at its best in midwinter. The color is so peculiar and rich that it attracts attention wherever seen.

Joseph Metral—Extra large flowers, very full, handsome and sweet; deep carnation-red, passing to cherry-carmine or magenta. A good healthy grower and abundant bloomer.

Little Red Pet—A new Rose of great beauty. Dark crimson flowers, equaling the Polyantha Roses in freedom of bloom. Fine for massing or pot culture. Blooms through the entire season.

Louis Richard—A superb Rose imported from France; extra large size; splendid full form, very double, delicious Tea scent; color rich coppery-rose, changing to buff, shaded with carmine; center sometimes brilliant rosy-crimson.

Lucullus—Beautiful dark crimson-maroon, large, full and fragrant; very double; a constant and profuse bloomer; extra good for outdoor culture.

Madame Camille—Delicate rosy-flesh, changing to salmon-rose, shaded and suffused with deep carmine, tea fragrance. A magnificent variety.

Marie Ducher—Vigorous and free. Flowers large and double; salmon, shaded with rose, and deeper in the center. Peculiar in color.

Mad. Caroline Guster—Bright lemon-yellow; very large and handsomely shaped; one of the finest Roses; very free flowering.

Mad. Scipion Cochet—Beautiful creamy-rose, with deep crimson center; flowers large, very sweet.

Mad. Lambert—A first-class Rose for bedding; extra large, full flowers; very double and sweet; color a beautiful shade of rosy-bronze, passing to salmon and fawn, beautifully shaded with carmine; an elegant Rose.

Mad. Philemon Cochet—Profuse bloomer, the flower always coming on a long stem. The bloom is of medium size, semi-double and a delicate pink, with shell shaped petals.

Maurice Rouvier—The color is a bright pinkish rose, tinted with shades of buff, veined with deep crimson, while many of the petals have a wide border of silvery-white; strong grower and prolific bloomer.

Mad. Joseph Schwartz—A lovely Tea Rose; extra large, globular flowers, very full and sweet, color pure white, tinged and shaded with pale yellow and rosy-blush, very beautiful Rose; constant and profuse bloomer.

Mad. Emilie Charrin—In color between Watteville and Cusin, with heavy recurving petals; strong and vigorous in growth, producing long-pointed buds; flower of medium size, very full.

Princess Hohenzollern—Extra large, perfectly formed flowers; very full and double; highly perfumed; color a handsome shade of bright peach-red, passing to rich crimson; finely shaded.

Princess Venosa—A strong grower, producing a long bud; flower moderately large and beautifully formed; color nankene-yellow, with shadings of carmine; a most remarkable combination of colors.

Rubens—Lovely pale yellow, slightly tinged with fawn; the shading is exquisite. One of the most beautiful light colored Roses.

Rainbow—Makes fine buds and flowers of a beautiful shade of pink, striped and mottled with bright crimson, shaded and toned rich amber-yellow.

Souv. d'un Ami—The color is a deep rosy-flesh, beautifully shaded with rich carmine; edges and reverse of petals silver-rose; clear and bright. A Rose that will please.

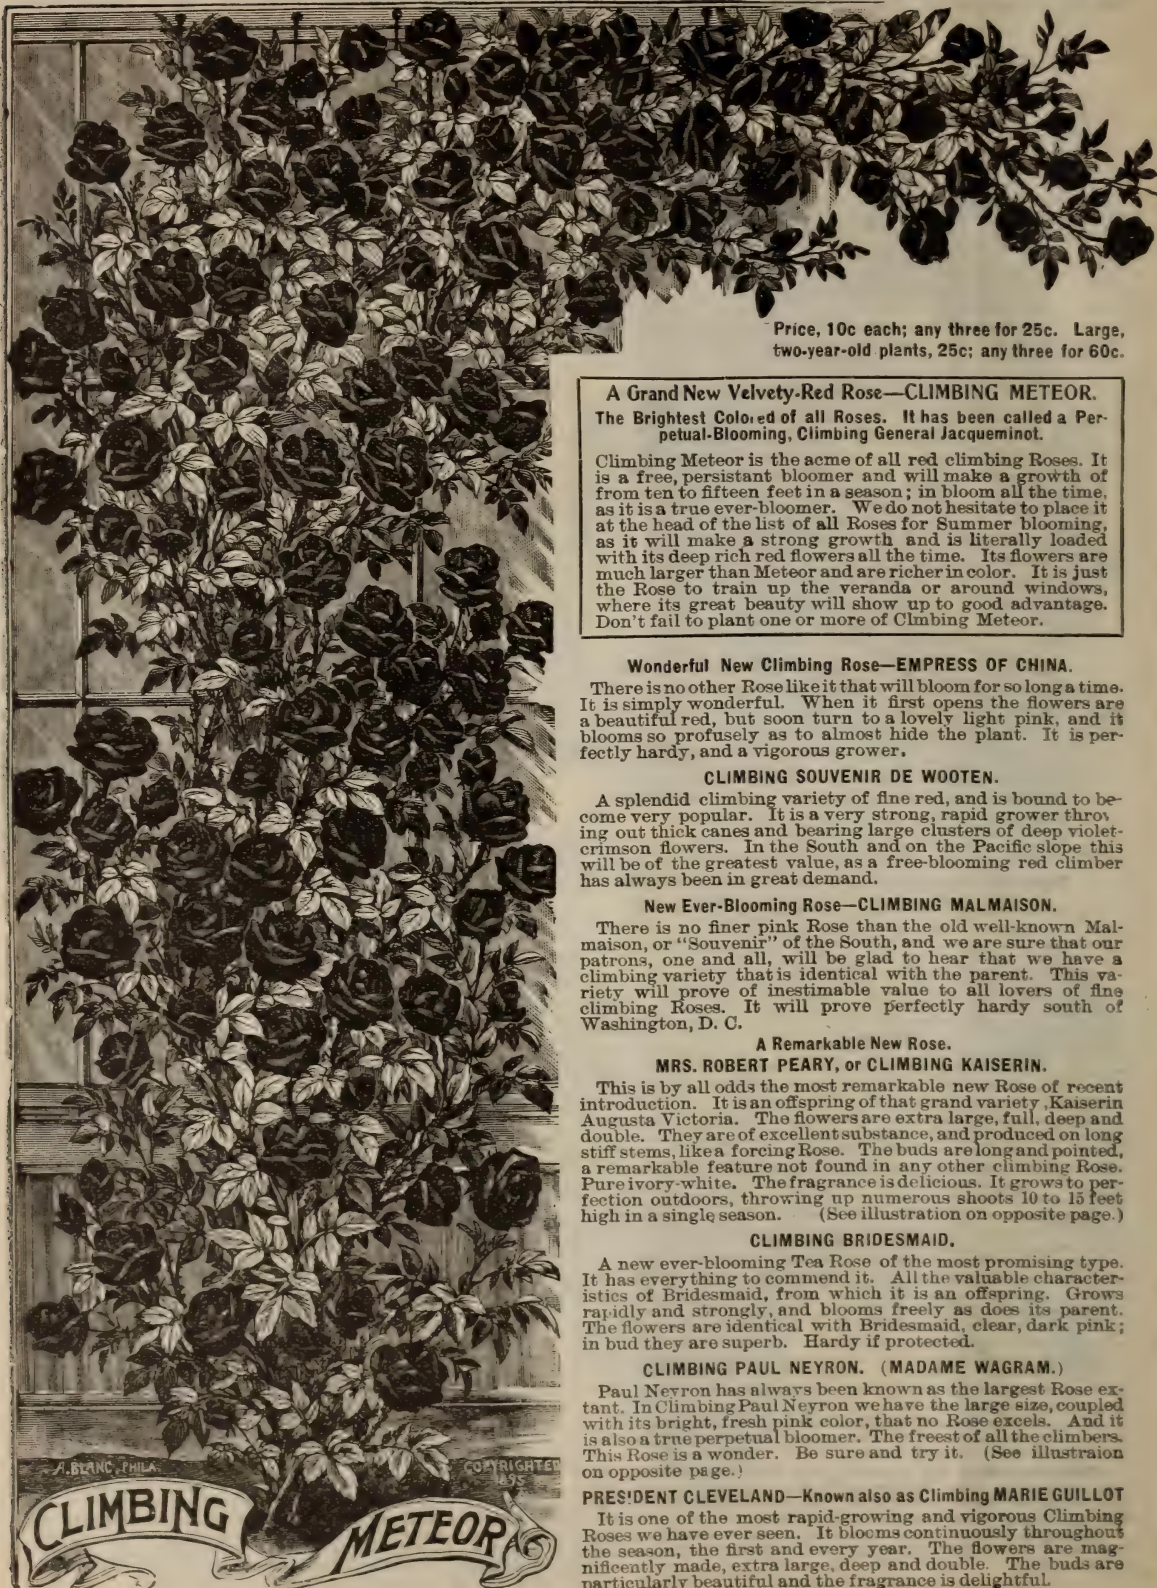

Sombreuil—Beautiful white, tinged with delicate rose; buds are large and full, blooming in clusters.

Safrano—Bright apricot-yellow, changing to orange and fawn, sometimes tinted with rose; valued highly for its beautiful buds; fragrant and a rampant grower.

Souv. de Victor Hugo—A splendid ever-blooming Rose, introduced from France; large, tulip-shaped flowers, delightfully scented and a very free bloomer; color lovely citron-red, with beautiful amber and fawn shading.

Souv. de Laurents Guillot—Flowers very large and double with recurved petals; very profuse bloomer. Color, a deep pink, shading to a center of yellowish-peach. Edge of petals distinctly bordered carmine; very showy and distinct.

Grand Hardy Ever-Blooming Climbing Roses.

Price, 10c each; any three for 25c. Large, two-year-old plants, 25c; any three for 60c.

A Grand New Velvety-Red Rose—CLIMBING METEOR.

The Brightest Colored of all Roses. It has been called a Perpetual-Blooming, Climbing General Jacqueminot.

Climbing Meteor is the acme of all red climbing Roses. It is a free, persistent bloomer and will make a growth of from ten to fifteen feet in a season; in bloom all the time, as it is a true ever-bloomer. We do not hesitate to place it at the head of the list of all Roses for Summer blooming, as it will make a strong growth and is literally loaded with its deep rich red flowers all the time. Its flowers are much larger than Meteor and are richer in color. It is just the Rose to train up the veranda or around windows, where its great beauty will show up to good advantage. Don't fail to plant one or more of Climbing Meteor.

Wonderful New Climbing Rose—EMPRESS OF CHINA.

There is no other Rose like it that will bloom for so long a time. It is simply wonderful. When it first opens the flowers are a beautiful red, but soon turn to a lovely light pink, and it blooms so profusely as to almost hide the plant. It is perfectly hardy, and a vigorous grower.

CLIMBING SOUVENIR DE WOOTEN.

A splendid climbing variety of fine red, and is bound to become very popular. It is a very strong, rapid grower throwing out thick canes and bearing large clusters of deep violet-crimson flowers. In the South and on the Pacific slope this will be of the greatest value, as a free-blooming red climber has always been in great demand.

New Ever-Blooming Rose—CLIMBING MALMAISON.

There is no finer pink Rose than the old well-known Malmaison, or "Souvenir" of the South, and we are sure that our patrons, one and all, will be glad to hear that we have a climbing variety that is identical with the parent. This variety will prove of inestimable value to all lovers of fine climbing Roses. It will prove perfectly hardy south of Washington, D. C.

A Remarkable New Rose.

MRS. ROBERT PEARY, or CLIMBING KAISERIN.

This is by all odds the most remarkable new Rose of recent introduction. It is an offspring of that grand variety, Kaiserin Augusta Victoria. The flowers are extra large, full, deep and double. They are of excellent substance, and produced on long stiff stems, like a forcing Rose. The buds are long and pointed, a remarkable feature not found in any other climbing Rose. Pure ivory-white. The fragrance is delicious. It grows to perfection outdoors, throwing up numerous shoots 10 to 15 feet high in a single season. (See illustration on opposite page.)

CLIMBING BRIDESMAID.

A new ever-blooming Tea Rose of the most promising type. It has everything to commend it. All the valuable characteristics of Bridesmaid, from which it is an offspring. Grows rapidly and strongly, and blooms freely as does its parent. The flowers are identical with Bridesmaid, clear, dark pink; in bud they are superb. Hardy if protected.

CLIMBING PAUL NEYRON. (MADAME WAGRAM.)

Paul Neyron has always been known as the largest Rose extant. In Climbing Paul Neyron we have the large size, coupled with its bright, fresh pink color, that no Rose excels. And it is also a true perpetual bloomer. The freest of all the climbers. This Rose is a wonder. Be sure and try it. (See illustration on opposite page.)

PRESIDENT CLEVELAND—Known also as Climbing MARIE GUILLOT

It is one of the most rapid-growing and vigorous Climbing Roses we have ever seen. It blooms continuously throughout the season, the first and every year. The flowers are magnificently made, extra large, deep and double. The buds are particularly beautiful and the fragrance is delightful.

CLIMBING PAUL NEYRON.
(For description see opposite page.)

MRS. ROBERT PEARY.
(For description see opposite page.)

CLIMBING TEAS AND NOISETTE ROSES

Here we have a class that combines the Noisette and Climbing Tea Roses. In the South and California these are the Roses of all Roses, growing as no others grow, and enriching the entire Summer with their unstinted blooms. This class is also quite useful in the North for growing in conservatories, pits and greenhouses, where they reward the extra care and protection by producing thousands of magnificent blooms. Price, 8c; 2-year-old plants, 25c.

Caroline Goodrich—This hardy climbing Rose has finely-formed flowers, very double, and its fragrance is delicious; the color is a bright crimson-scarlet. Flowers freely till Fall. Constant; also known as "Running General Jacqueminot."

Climbing Devoniensis—Identical in all respects with the Tea Rose "Devoniensis," except it has the climbing habit; flowers of great size, very double; a magnificent variety.

Estella Pradle—Lovely pure white buds, flowers medium size, full, double and sweet; a strong grower and profuse bloomer.

James Sprunt—A grand Rose. Deep cherry-red; medium size, full, double and sweet; a strong grower and profuse bloomer.

Madame Louis Henry—Pale, silver rose, elegantly shaded with buff and salmon; large and full; very fragrant.

Mary Washington—Its flowers are of medium size, pure white, perfectly double to the center, sweet, and borne in endless number all Summer. It is a vigorous and rapid grower and at once becomes a general favorite. It makes a great profusion of fine buds, which are borne on long stems and usually in large clusters. Its fragrance is tinged with old-fashioned musky flavor, so much admired in olden times.

Ophirio—Nasturtium-yellow, suffused with coppery-red; good size, double; a very distinct sort.

Reine Marie Henriette—Flowers large, full and of fine form; color beautiful cherry-red, a pure shade; very double, very sweet; an extra fine sort, sometimes called red flowering "Gloire de Dijon."

Solfaterre—Fine, clear sulphur-yellow; large, double, full and fragrant; an excellent climbing Rose; valuable.

W. A. Richardson—Branches strong and spreading; flowers of good size, full, of fine form; color orange-yellow; a new shade of Noisettes.

LAMARQUE.

Lamarque—White with sulphur center, sometimes pure white; very large, full flowers, fragrant, and makes beautiful buds; an excellent Rose. Well-established plants bear thousands of its beautiful white buds.

PLEASE READ SCHEDULE OF CLUB RATES ON PAGE ONE BEFORE SENDING ORDER.

A Family of Hardy Rambler Roses

These beautiful, new hardy ever-blooming climbing Roses are unexcelled. There is nothing like them, after they become established, in their strong, luxuriant growth, freedom of bloom and bright colors. The Yellow Rambler has also the distinction of being the only perfectly Hardy Yellow Climbing Rose yet introduced.

Crimson Rambler.

The plant is of very vigorous growth, making shoots of from eight to ten feet during the season, rendering it a charming pillar Rose. It is also magnificent in bush form, and for covering buildings, trellises, etc., it cannot be excelled. One of the striking characteristics of this Rose is its remarkable color, which is of the brightest crimson, which remains undimmed to the end. The flowers are produced in great pyramidal panicles or trusses, each carrying from thirty to forty blooms, the individual flowers measuring from one to one and a half inches in diameter and remaining perfect on the plant for upwards of two weeks with their freshness of color unimpaired. It is exceedingly hardy, having successfully withstood the tests in exposed situations of very severe Winters. It is hardy in every latitude yet tried as far north as the lakes. Price, 10c each; large two-year-old plants, 25c; extra large and extra fine plants, 50c each.

White Rambler.

Pure pearl white. 10c; strong two-year-old plants, 25c.

Pink Rambler.

Deep pink, full and fragrant. 10c each two-year-old plants, 25c.

Yellow Rambler.

Light canary-yellow. 10c; strong two-year-old plants, 25c.

Psyche.

The New English Rambler Rose.

A cross between Crimson Rambler and the Polyantha Rose, Golden Fairy. In growth and habit it much resembles the Rambler. The flowers are produced in clusters of 8 to 35, and are 2 to 2½ inches across when fully expanded. The color is white, suffused with salmon-rose and pink, with yellow base to the petals. Price, 15c each; two-year-old plants, 50c each.

Helene.

The New Hardy Rambler Rose.

In many respects it is an improvement over Crimson Rambler, of which it is a seedling, being of more robust growth but not as rigid as its parent; elegant and graceful in habit. Foliage similar to Crimson Rambler. For open ground culture it has no superior, being perfectly hardy and a strong, healthy grower. Its flowers are borne in large clusters and are produced in amazing profusion. The flower is larger than Crimson Rambler, almost double, and of excellent substance, remaining in perfection on the bush for weeks. Color soft violet-rose, almost blush; base of petals yellowish-white, while the anthers and pistils are pure yellow, rising boldly from the flower. Price, 10c each; nice two-year-old plants, 30c.

THE CRIMSON RAMBLER.

THE SUPERB YELLOW ROSE.

Marechal Neil

The Most Popular of All.

A Rose so famous as to really require no description. Its magnificent golden-yellow buds are worn the world over; they illustrate the globular form in its perfection, and are almost massive in dimensions. It is almost universally held to be the finest climber indoors or out, where the climate admits of its cultivation. This is one of the Roses that starts rather slowly, and for that reason the best success will be had with the larger plants. This superb Rose is especially recommended for the Southern States, where it requires but little outdoor protection.

We have grown for this season one of the grandest lots of this famous Rose ever seen, and offer them in four sizes, as follows: Nice, well-established plants, 10c each; two-year-old plants, 25c each; extra large plants, by express only, 50c; fine large, three-year-old plants, \$1.00 each. : : :

White Marechal Neil...

The fame of Marechal Neil, with its large, deep golden-yellow flowers, is so world wide that nothing further need be said of this new variety to make it instantly popular, than that it is the counterpart in every respect of Marechal Neil, its parent, save the color of the flower, which is a pale creamy-white, totally distinct. It is a rapid climber, and quickly makes a bush of considerable proportions. For Southern cultivation it will be of great value.

Price, 10c each; two-year-old plants, 25c each; extra large plants, 50c each.

MARECHAL NEIL.

SNOWFLAKE.

Cemetery Collection of HARDY... EVER-BLOOMING ROSES...

Following is a select list of Hardy White Roses best adapted for cemetery planting. In Northern latitudes they ought to have a covering of forest leaves in Winter. For description of each see preceeding pages.

Coquette des
Blanches.

Price, 10c each, or the entire set of eight for 50c.

Our "Giant" Collections of Two-Year-Old Roses

FOR IMMEDIATE EFFECT.

Basket of Roses Cut from One of Our
"Giant" Collections.

THERE is unquestionably a growing demand for large Rose plants. The reason for this is that one does not have to wait so long for an abundant supply of flowers. While our young plants will flower profusely the first year, still it could not be expected of them to produce nearly so many blooms the first season as our large two-year-old Roses. They are strong, thrifty bushes, with healthy, well-developed roots, and are ready to start as soon as planted, and give plenty of lovely flowers.

We have now **Fifty Thousand Large Two-year-old Roses**, so we will be able to meet this demand for large Rose plants and at the same time keep the price reasonable. We advise all our friends to order at least part of their Roses in this large two-year-old size, and they will be pleased with their venture. Last year we sold forty thousand of these two-year-old Roses, and have received many reports of their advantage over the one-year-old stock.

We recommend the **EXPRESS COLLECTION** in preference to the Mail Offers, as the plants sent can be larger. Our two-year-olds this year are extra fine. Try one or more collections and be pleased.

Giant Collection, No. 1—Twelve two-year-old ever-blooming Tea Roses sent by MAIL, all different colors - **\$1.25**

Giant Collection, No. 2—Twelve two-year-old ever-blooming Tea Roses sent by EXPRESS, all different colors **1.00**

Giant Collection, No. 3—Ten two year-old Hardy Roses sent by MAIL, all different colors - **1.25**

Giant Collection, No. 4—Ten two-year-old Hardy Roses sent by EXPRESS, all different colors - **1.00**

These Collections must not be taken in Club Rates.

NOTICE—All Roses sent in these collections are to be strictly of our own selection.

Postage paid by us. Express paid by you. No extras or premiums allowed on these offers.

"Imperial" Rose Collection 20 Ever-Blooming Tea Roses for \$1.00

Postage Prepaid.

HARDY CLIMBING PRAIRIE ROSES

BALTIMORE BELLE.

Baltimore Belle—Pale bluish, variegated carmine, rose and white. Very double flowers, in beautiful clusters, the whole plant appearing a perfect mass of bloom. One of the very best of the type.

THESE are the only Climbing Roses that are perfectly hardy everywhere, and are, consequently, of the greatest value. They can be readily trained to a height of 10 or 20 feet, as they grow with very great vigor. They bloom the second year, and but once in a season, but are then loaded with splendid roses, and are among the most beautiful of flowering plants.

Price, 10c each (except where noted) any 3 for 25 cents; two-year-old plants 25c each, or any 3 for 50 cents.

GREVILLE, OR SEVEN SISTERS—Flowers in large clusters, varies in color from white to crimson.

MRS. GUNNEL—Soft, rosy blush, becoming almost white; large clusters, full and double. Much admired.

PRAIRIE QUEEN—Flowers very large and of peculiar globular form. Bright rosy-red, changing to lighter as the flowers open.

PRIDE OF WASHINGTON—Bright amaranth, shaded rose center, large clusters, very double. Fine.

ROYAL CLUSTER—New double white hardy climbing Rose. Undoubtedly the most magnificent Double White Hardy Climbing Rose yet introduced. *Blooms in immense clusters.* The name "Royal Cluster" has been given it because of the great size and beauty of its enormous clusters. One hundred and nineteen flowers and buds have been counted in one cluster at one time. The flowers are full, medium size, quite double and beautifully formed. Color white, sometimes faintly tinted blush. Has a delicious spicy fragrance. A hardy, vigorous climber and a prodigious bloomer, being far superior in every way to all other hardy climbers up to date. Does not mildew, and is remarkably free from insects and disease. Has no equal in its class as a forcing Rose for Easter decorations. Continues a long time in bloom and the flowers are very durable. We recommend it as the best Hardy Climbing Rose to date. Price, 15 cents each; large two-year-old plants, 30 cents each.

RUSSELL'S COTTAGE—Dark, velvety-crimson; very double and full. A profuse bloomer and strong grower. Desirable.

TENNESSEE BELLE—Flowers bright, beautiful pink. Is more slender and graceful in growth than any of the varieties.

MOSS ROSES

HENRI MARTIN.

A class of Roses which are much admired. The beauty of the flower consists in the delicate mossy covering which surrounds the bud, and which gives to the opening flower a unique appearance. The Moss Rose bud is the most exquisitely beautiful of all Roses. It is the Queen of Queens. Moss Roses are perfectly hardy, and grow in any soil as freely as ordinary Roses.

COMTESSE DE MURINAIS—Flowers white, sometimes tinged with flesh color; large, double cupped, buds heavily mossed. One of the best Moss Roses. Price, 20c each; two-year-old plants, 40c.

HENRI MARTIN

Rich, glossy pink, tinged with crimson, large globular flowers; very full and sweet; finely mossed; one of the finest. Price, 15c each; two-year-old plants, 30c.

MADAME ROCHLAMBERT—Fine, clear pink; extra large, fragrant flowers, full and globular, nicely covered with moss. Price, 15c each; two-year-old plants, 30c.

BEAUTIFUL CREEPING ROSES

PRICE 10c EACH.

THESE charming Roses are of the same creeping habit as Rosa Wichuriana, trailing over the ground or creeping about the trunks of trees and pillars with delightful effect. These roses are of intense hardiness, and succeed in all soils, even on the poorest and driest conceivable.

MANDA'S TRIUMPH—The gem of the collection and may well be called the Double Memorial Rose. Very large, double flowers, fully two inches across, pure white, finely formed and sweetly fragrant, borne in large clusters.

PINK ROAMER—This, in its flower, possesses the characteristics of the Sweet Briar, whilst its vigorous growth and handsome luxuriant foliage are those of the Wichuriana type. Its beautiful flowers are single, very large, brilliant rich pink with prominent orange red stamens and delightfully sweet scented.

ROSA WICHURIANA—Hardy, lasting; creeps over ground like ivy. Leaves glossy, dark green, handsomely notched. Flowers are borne very profusely during July, are large, pure white, single yellow center, and have wild rose fragrance.

UNIVERSAL FAVORITE—The strongest grower of them all, producing long, branching shoots and dense green foliage. The blooms, too, are very abundant, of large size, double, of a beautiful rosy-pink, like that of Bridesmaid, and delightfully fragrant.

NEW DOUBLE SWEET-SCENTED MEMORIAL ROSE, MRS. LOVETT—Roses are very double, 2 to 2½ inches in diameter of the liveliest, most cheerful bright rosy-pink. Best of all, it is fragrant as the American Beauty, although its fragrance is distinct from that of any other Rose.

Hardy Hybrid Perpetual Roses

they require but little care, increasing in size and beauty each year. They are covered with bloom in June, although they bloom considerably through the Summer and Fall; but the greatest profusion of bloom is to be seen in June. Our collection of this class of Roses comprises such varieties as are most valuable. They are strong plants, grown on their own roots, will grow and give a profusion of fragrant bloom. Price, 15c. each, any 5 for 50c., 2-year-old plants, 30c. each; any 4 for \$1.00.

Auguste Mie—Clear, waxy Rose; large and finely cupped; very fragrant. An excellent Rose.

Antoine Quilhon—Extralarge flowers; full, compact and regular form; color, rich violet-crimson, elegantly tinged and shaded with maroon-red. A free bloomer and very sweet.

Anna Alexieff—Very double and full; exceedingly sweet; noted for its clear, bright pink colors.

Anna De Diesbach—(Glory of Paris.) Brilliant crimson, sometimes shaded with bright maroon; long, pointed buds and large, finely formed, compact flowers, very full and sweet. One of the best.

Baron De Bonstetten—Splendid, large flowers; very double and full; color rich, dark red, passing to deep velvety-maroon; highly scented, very beautiful.

Coquette Des Blanches—A finely formed, pure white Rose; occasionally shows light-flesh when first opening; beautiful, shell-shaped petals, evenly arranged. Flowers of good size, perfect and of fine form and finish. One of the finest, freest and most beautiful of the white Hybrids. Very suitable for cemetery planting.

Captain Christy—The flowers are of magnificent form, very double, and stand erect in their martial bearing. The color is a fresh, delicate pink, with deeper shading in the center of the flower, the whole flower possessing a bright, satiny appearance. A desirable variety. Certainly the most beautiful Rose of this color we grow. It is a free bloomer.

CLIO.

Coquette Des Alps—A lovely, pure white Rose; very full and free in flower; delicious fragrance.

Countess of Rosebury—Fine carmine-red, large and full, finely cupped form, makes a handsome bush with few thorns.

Duke of Edinburgh—Brilliant scarlet-crimson, shaded maroon; very fine.

Francois Levet—A very beautiful Rose, soft China pink, delicately shaded carmine and blush; large, finely-formed flowers; delightfully fragrant.

Giant of Battles—One of the best; if not the best hardy crimson Rose; large, very double and sweet; one of the finest old sorts for general planting.

Gloire L'Exposition Bruxelles—Flowers finely formed, large and perfectly double; color, bright crimson, of velvety texture. A Rose of unusual merit. We are pleased with it. One of the very best new hybrid Roses of late importations.

Gloire De Lyonaise—This grand Rose is the only yellow hybrid Perpetual that has been produced. It cannot be called deep yellow, but rather a pale shade of chamois or salmon-yellow, deepest in center, sometimes passing to a rich creamy white, finely tinted orange and fawn. The flowers have all the beauty of Tea Roses, are large and full and delightfully sweet. This we consider one of the very best Roses we have ever seen. It will be sure to delight you.

Glo—One of the grandest of the new hardy Roses. Flowers flesh color, shading to rosy-pink; large and globular, and freely produced.

MADAME PLANTIER.

MADAME PLANTIER—One of the old June Roses, at which time it is literally covered with pure white perfectly double fragrant flowers, which hang on for a long time. Makes large dense bushes. As hardy as an oak. A beautiful cemetery Rose. One of the best for forming hedges.

BALL OF SNOW.

BALL OF SNOW—(Boule de Neige.) In the "Ball of Snow" we have a Rose of large size, which is perfectly double, exquisitely fragrant, pure white in color and entirely hardy. It is invaluable for cemetery or other planting where white flowers are desired, as it blooms freely all summer.

HARDY ROSES

Continued.

FOR PRICES SEE
OPPOSITE PAGE.

Gen. Jacqueminot—Bright, shining crimson, very rich and velvety; exceedingly brilliant and handsome; makes magnificent buds, and is highly esteemed as one of the best and most desirable for open ground, and also for forcing.

John Hopper—One of the most reliable and satisfactory Hybrid Perpetual Roses; flowers are large, very regular and full; color brilliant rose, changing to bright, glowing pink shaded with rich crimson; very sweet, and a remarkably profuse bloomer.

La Reine—(The Queen.) Beautiful, clear, rosy pink, large, fine, full form, very fragrant.

Lady Emily Peel—Very sweet, color white; sometimes tinged and shaded with blush.

Marchioness of Lorne—Bright, shining rose, full finely cupped flowers; produced abundantly all through the season.

Magna Charta—Superb bold, full, flowers; very double and sweet, borne erect on stiff, stout canes; bright, satiny pink, tinged with carmine.

Ulrich Bruner—Rich, crimson scarlet, broad round, thick petals of good substance, highly perfumed, very handsome and desirable.

PRINCE CAMILLE DE ROHAN.

Prince Camille De Rohan—Very dark, rich, velvety crimson, passing to intense maroon, shaded black. Large full flowers, looking, at little distance, as if really black. One of the darkest Roses; very handsome.

Perle Des Blanches—A truly elegant Rose, very full and double; delightfully perfumed; color, pure ivory-white, sometimes clouded with pale blush and tinged with amber.

Paul Neyron—Deep, shining Rose, very fresh and pretty. Flowers very large, often measuring 5 inches in di-

ameter. Without doubt the largest flower of all Roses, and it has this merit—though very large, the buds always develop fine, perfect Roses. It is, moreover, a good, strong grower, with nice, almost thornless stems, which often attain 6 to 7 feet in a single season.

Vick's Caprice—A striking Rose, totally unlike any other variety. The flowers are large, slightly cup-shaped, but full and deep; the petals are thick and lasting, having the ground color clear, satiny pink, distinctly striped and dashed with white and bright carmine. It makes lovely, elegant-shaped buds, which show the stripes and markings to great advantage.

AMERICAN BEAUTY ROSE

further description.

Price: Small plants, 20c each; strong, two-year-old plants, 50c.

Flowers very large, of beautiful form, and very double; color, a deep, rich rose. The fragrance is delightful, resembling La France or the old-fashioned Damask Rose; a true ever-bloomer, each shoot producing a bud. This popular Rose is too well known to need

Eight Very Choice Large Two-Year-Old Ever-Blooming Roses

A Select List of 8 Large Plants for One Dollar.

The Roses here offered are fine, large plants and in superb shape. The quality of this stock is first-class. For full description of the varieties offered see preceeding pages.

...CHRYSANTHEMUMS...

THE PEOPLE'S FLOWER.
MAGNIFICENT, LARGE FLOWERING JAPANESE VARIETIES.

NOTE—For convenience in selecting we name on this and following pages five lists or sets of 8 Chrysanthemums, each composed of varieties of same color or same character, in this way the best of each color or kind are given together and selection can be more easily made. If you do not want a whole set as offered, you may choose 8 Chrysanthemums from any or all of the different lists for the price of one set—50 cents.

EIGHT

**CHOICEST
YELLOW**

CHRYSANTHEMUMS.

PRICE

**8c EACH
ENTIRE**

SET OF 8 FOR 50c.

Mrs. John J. Glessner—A light yellow, very distinct in form; broad petals, opening in a whorl, which, when matured, assume a convex form; tips turning backward and twisting in all directions.

Golden Wedding—The grandest golden yellow variety, and is the marvel of the period. Nothing can exceed the richness of its color; it is a remarkably vigorous grower, and has such strength of stem that it carries its great globular flowers erect, giving it a bold, majestic appearance. The form of the Golden Wedding is unique; the outer petals droop downward in picturesque irregularity; the center of the flower is built high, with broad petals irregularly overlaid, so that, although the flowers are large, they are not heavy, solid looking, like many others. This grand variety has been awarded the highest honors where ever exhibited.

H. L. Sunderbruch—One of the very finest of all exhibition yellows. The size is enormous but not coarse. A superb yellow variety.

Major Bonnaffon—Soft, clear, incurving yellow, full in center and deep; in perfect form and finish; like ivory at its best; habit dwarf; keeping qualities excellent; foliage well up to flower.

Copyright
Geo. H. Mellen
1896

MAJOR BONNAFFON.

Mrs. M. M. Johnson—This is another beautiful variety. It won the prizes at Chicago and Cincinnati before the judges on October 20, thus making it a very early variety. The flowers are very broad and well built up in the center, of the richest deep golden-yellow. This will be a prize-taker wherever shown. Winner of eleven first prizes.

Mrs. O. P. Bassett—Magnificent flower; outer petals broad and soft cream color tinted with carmine; attracted large attention at Chicago, 1886 shows.

Maud Adams—A grand, incurved, magnificent, clear yellow Japanese; petals cup and interlace, forming a globular ball of great substance and largest size, one of the best late yellows.

Minerva—An exceedingly attractive, bold, massive flower, very large, incurved, the outer petals drooping, forming almost a perfect flower of the most vivid clear yellow, with extra good stem and fine, handsome foliage within four inches of the flower. Certificates of merit at New York and Philadelphia shows.

EIGHT ELEGANT PINK CHRYSANTHEMUMS

PRICE 8c EACH; SET OF EIGHT FOR 50c.

SEE NOTE ON PAGE 22

BRIDE OF ROSES—In color it is an exquisite shade of rosy-pink, flowers of the largest size, when properly grown. It is a remarkably strong grower and wonderfully free bloomer. Taken all in all it is unquestionably the superior of any variety in its color as yet produced.

GOOD GRACIOUS—The color is unique, being a delicate shade of peach-pink throughout. The form is remarkable; the petals are incurved and twisted, overlapping each other in irregular fashion, and resembling talons.

HELEN BLOODGOOD—A striking variety. Unquestionably the most meritorious pink introduced to commerce; being the first true, clear pink, without a trace of shading of purple or magenta. In form, a globe-shaped Japanese, of largest size, with strong and robust habit. Certificate by the Chrysanthemum Society of America at New York and Philadelphia.

LILLIAN E. BIRD—One of the very largest size, long, tubular petals of perfect form, producing flowers which are eight inches in diameter; the color is an exquisite shade of "shrimp pink;" the flower, when fully opened, being an immense half globe. A magnificent variety.

INDIANA—This variety produces the largest blooms to be found in the family, with one or two exceptions, perhaps. It is very nearly globular in form, and has a circumference of twenty-two inches; nicely incurved, and of a clear, bright pink; outside of petals a little lighter.

MAUD DEAN—An immense pink variety; finely incurved; petals broad, shell-shaped. One of the largest flowers exhibited in the fall shows. Almost a pure shell-pink. Received silver medal at Philadelphia, and awarded certificates of merit at New York and Philadelphia.

MRS. S. T. MURDOCK—One of the finest varieties in cultivation; nice glistening pink, fine globular bloom of rather short, incurving petals; early midseason, stem and foliage perfect; a fine keeper.

MRS. PERRIN—This is the nearest approach to the true pink so long desired. It has slender, stiff stems, a short neck, ornamental foliage. The flower is of globular form, incurved, full, and with a finish as soft as satin. Color, rose-pink within, glistening pink without. Recognized wherever shown as the best pink. Everyone who has seen it is loud in praise of its color. A wonderfully clear, bright pink, quite free from magenta. The flower is incurving, but loosely built.

LILLIAN E. BIRD.

EIGHT BRILLIANT RED CHRYSANTHEMUMS

PRICE, 8c EACH; SET OF EIGHT FOR 50c.

CULLINGFORDII—Exceedingly brilliant crimson, richly shaded with scarlet. Florets are of a beautiful, rich, velvety texture.

C. B. WHITNALL—Large, regular Chinese; outer petals recurving, forming a perfect globe. Color soft, velvety maroon; reverse a shade lighter.

DORA SHARP—A full and extremely double Japanese variety of the largest size. Style and shape excellent; color is a rich chestnut-red; habit perfect for bush or exhibition bloom.

EGYPTIAN—The flowers are of massive size, reflexed with broad, stiff petals. Color deep, rich, fiery, velvety red. The flowers are enormous in size, while the color is richest of all.

FISHER'S TORCH—The color is a bright red, passing to the richest velvety crimson, the flame-like flower borne at the end of a long stem, gives it the appearance of a flaming brand, hence the name.

JOHN SHRIMPTON—Rich velvety-crimson. The finest red Chrysanthemum extant, because it is simply an improved Geo. W. Childs. Blooms exactly similar but little larger, and the foliage much prettier.

ROBT. B. LAIRD—An incurved Japanese variety. Solid and globular petals, broad and deeply grooved inside, orange-red, outside old gold. A monster variety.

JOEY HILL—Color, deep cardinal red of beautiful shade, faced with old gold; the outer petals are flat, showing color to good advantage; center is an immense mass of closely-packed petals, no room for another one, apparently.

JOHN SHRIMPTON.

8 SUPERB WHITE CHRYSANTHEMUMS

Price, 8c each.

Set of 8 for 50c.

(See "Note" on Page 22.)

MRS. HENRY ROBINSON.

MRS. HENRY ROBINSON.

In the entire Chrysanthemum family there is no grander white variety, no matter when it blooms; it is of the most popular style—immense incurving, broad channeled petals of great substance and the purest white—can be used a few days earlier, but it is a sin to cut it until the center petals have begun to develop; from a flat incurved form it gradually changes into a perfect ball of snow; foliage as handsome as that of Mrs. Jerome Jones; a variety of the easiest arrangement. We do not think it possesses a single fault. Winner of twenty-six first prizes.

Eureka—An extra high class porcelain white; petals large, very abundant and well set; keeping qualities first-class; all that can be desired.

Mrs. Martin A. Ryerson—A pure white, petals narrow; the center builds up with interlacing, incurved petals, making a very high flower; distinct in form.

Frank Hardy—Magnificent extra large white. Flower of the largest size and of perfect close form; petals incurving and gracefully enfolded, giving the flower a unique appearance. A deep, solid, well built flower.

Mrs. H. Weeks—An immense flower, with broad, claw-like petals, incurving to form a globe of white, a few outer petals reflexing; has made a sensation in England, and in our own country last Fall appeared in fine shape at most of the principal towns.

Mrs. Jerome Jones—Large, creamy-white, incurved Japanese, sometimes showing a tinge of pink; high, round flower. One of the best Chrysanthemum flowers up-to-date. Indispensable for exhibition. Grand stem and foliage.

Miss Florence Pullman—Pure white, very large, of deep build and good breadth. We had this variety in bloom measuring eight inches in diameter, and know it to be an extra good one.

The Queen—A grand double white, of fine form and great substance; very rounded in form, incurving and full. Attracted a great deal of attention at Madison Square, where it was awarded first premium for best white.

PLEASE READ SCHEDULE OF RATES ON PAGE ONE BEFORE SENDING ORDER.

EIGHT EARLIEST FLOWERING CHRYSANTHEMUMS

Price 8c each; set of 8 for 50c.

(See note on page 22.)

BENJAMIN GIROUD—New Early Red. This is without doubt the earliest pure red to date; has a very large flower that does not burn or color red for several weeks after the flower has attained perfection. A strong grower of compact habit.

BELLE OF CASTLEWOOD—A rich enameled shell pink, broad petaled, incurving Japanese, a distinct and pleasing shade; bloom of large size, solidly set on a grand stem, with good foliage; extra early bloomer.

F. COPPEE—Chrome yellow approaching bronze in color; of fine size; nice to add variety to a collection, as the shade is very pleasing and size is large.

GLORY OF THE PACIFIC—An extra early pink, being in good shape for cutting October 8. It is of fine size and depth with broad petals, which reflex, showing the clear, pink color to excellent advantage.

GOLDEN TROPHY—A grand early dwarf grower; foliage very beautiful and quite up to the flower; very large, compact, crowded with petals, incurving into a complete golden ball.

LADY FITZWYGRAM—One of the earliest pure whites. Outer petals reflexed and center slightly incurved. Flowers latter part of September.

MARION HENDERSON—New early variety. No engraving can show the rich, buttery-yellow color of the flowers, which is superb. It is full of petals and lasts a long time, in fact, although very early, it can yet be made late, because it remains perfect on the plant for a long length of time.

PRIDE—A very large, very early incurving white; good stem, short neck. As fine as a full-fledged mid-season sort, but follows Fitzwygram.

EIGHT

OSTRICH PLUME CHRYSANTHEMUMS

Price, 8c each; set of 8 for 50c.

(See note on page 22.)

Below we offer a grand collection of these unique Chrysanthemums. The term "Ostrich plume" is applied to this type on account of the feathery growth with which the petals are thickly covered.

LOUIS BOEHMER—Has a wonderful hair-like growth or excrescence. Color, most beautiful shade of lavender-pink, shaded silvery-pink on ends of petals. Flowers splendidly incurved, inside of petals deep rose. For evening wear the Louis Bohmer is sure to be in demand. Flowers enormous; is absolutely free from any taint or blight.

MRS. HIGINBOTHAM—Enormous bright pink, broad spreading Japanese variety, with extremely widecupping and incurving petals, which are covered with glandular hairs; reported as the largest and best hairy variety ever exhibited. Habit, stem and foliage perfect.

MONARCH OF OSTRICH PLUMES—Bright, chrome-yellow; is quite large for this type; of beautiful form and finely incurved.

PERLE OF LYONNAISE—Bright, clear golden-yellow, somewhat plumed; quite full; one of the very finest; of medium size; beautiful globular form; new.

SANTELS WHITE—Decidedly the best white Ostrich Plume variety yet introduced. A strong grower and early, profuse bloomer. Flowers large, perfectly formed. Pure white with creamy center; inner petals nicely incurved and well covered with hair or plush. Very pretty.

WM. FALCONER—This grand variety will increase the popularity and interest in this beautiful class. Color is an exquisite shade of rosy-blush, changing to a delicate flesh-pink as flowers advance in age. Flowers are of largest size, and borne on strong, vigorous stalks.

W. A. MANDA—Ostrich plume type. Flowers very large, of a clear golden-yellow color. Plant is vigorous in growth and flower is borne upright on stout stem. This is the grandest introduction from Japan, and no collection can afford to be without this variety.

CHILD OF TWO WORLDS.

CHILD OF TWO WORLDS—Pure white. This grand white sport from L. Bohmer was well received, having many admirers at the shows. Like the parent, it is a strong grower of good habit, considered the best white of hairy type, and well deserves a prominent place in any set of this peculiar style of Chrysanthemum.

Select List of Standard Varieties of Chrysanthemums.

Price, 6 cents each; any 10 for 50 cents; 25 for \$1.00.

Admiral Dewey—A splendid new pink seedling, very large and full, carrying its immense flowers on long, stiff stems; a very good grower; one of the very best.

A. T. Ewing—Color creamy-white, heavily banded and penciled in carmine pink; petals very thick, broad and flat, with nicely rounded tips; flat or slightly reflexed, central petals upright, perfectly double, large and of fine form.

Ada Spaulding—Grand, globular flower, quite distinct in form and of the largest size, while quite compact; it shades from a few rows of lavender and pink at the base up to a great crown of waxen white of heavy texture.

Australian Gold—One of the very finest of the broad petaled, deep yellow varieties. Early flowering.

Autumn Glow—There is nothing like it in color, which is a deep reddish salmon upon opening, and gradually changes to a soft shrimp pink when fully finished; of the largest size, and takes on great depth.

Bronze Giant—Exhibition bronze. This is an elegant grower, heavy, stocky stem, clothed throughout in fine foliage. The flower is of immense size, crowded with petals, which are stiff and of great substance; form incurving, a most imposing bloom of largest size; a beautiful, rich bronze, or gold color. Received premium of \$50.00 for best bronze.

Christmas Eve—Pure white; petals curved and twisted, forming a flower of peculiar appearance and great beauty. It is the latest to bloom and remains in good flower until nearly Christmas, hence the name.

Evangeline—Pure white; similar in form to Kioto, but larger and more graceful; stem and foliage perfect.

Emily Dorner—Rather dwarf grower, but very sturdy. The flower is nicely incurving, petals broad and of the richest shade of orange yellow, touched with crimson.

E. G. Hill—Immense flowers; bright yellow, deeply shaded bright carmine; imported Japanese; a prize winner everywhere; especially good for pots.

Eda Prass—A fine, recurring, globular flower, of great substance and depth. When opening, of a delicate salmon, then changing to a creamy-white, delicately shaded blush.

E. Molyneux—Rich, deep maroon-red; outside of petals when expanded is a rich golden tint; petals immense in both width and length.

F. L. Atkins—A magnificent, large pearly white, reflexed variety. A grand new Chrysanthemum, and winner of eleven first prizes.

Georgienne Bramhall—As fine as any of the fine sorts sent out in 1895. Early mid-season. Grand, globular incurving form of soft primrose-yellow; broad petals; a fine grower, with stiff stems.

Golden Gate—One of the finest and largest of exhibition varieties, petals recurving and very broad; color bright tawny-gold, very beautiful shade; quite early mid-season.

George W. Childs—The flowers are of massive size, with broad, stiff reflexed petals. Color is a deep, rich, velvety-crimson, with no shade of brown or chestnut. The stems are strong and erect.

Gretchen Buttner—This variety has broad, waxy petals of purest white, only center of petals show a beautiful pea-green before the flower is quite developed. It is quite distinct from any existing sort in this stage. It turns all white when fully open, and is full to the center.

Ivory—This is one of the very best varieties for pot culture or cut flowers. Plant is a vigorous, compact grower, and makes a handsome specimen with very little training. Flowers snow-white, of exquisite form and finish; petals stiff and lasting.

Jennie Williams—Creamy-white, yellow shadings; extremely double; petals upright and incurving; outer petals broader; massive and grand in build; a splendid exhibition variety; good grower.

Jessica—The earliest white grown; flowers average six inches in diameter; away ahead of anything yet produced.

J. H. Woodford—A beautiful, large shell-pink, shaded to center; high globular bloom, with broad incurving petals; strong stem and fine foliage; extra early.

Kioto—No engraving can do justice to this unique and beautiful variety. The color is deep yellow, with a peculiar waxy lustre; petals incurved and twisted; a free bloomer.

Lady Playfair—A fine mid-season pink of clear shade. Large in size, rounded form and good depth.

L. Canning—A most beautiful variety; absolutely pure white flowers, quite regular in form, very large and flat, the length of the petals graduating to the center, reminds one of a large satin rosette.

Mrs. Geo. Gordon—Flower of very great size and substance, having curling intermingling florets of great length; color soft primrose-yellow.

Miss Kate Brown—The very finest of the early whites, coming in to bloom the first week in October; fully six inches across; a fine incurved flower with broad petals; first-class disbudded, and also beautiful in natural sprays. Highly appreciated in the East.

Mrs. G. M. Pullman—A very large reflexed flower of deep golden yellow.

Mrs. E. G. Hill—Specimens of this fine early pink Chrysanthemum were passed upon by the judges at the World's Fair, and the exhibitor was awarded a medal and diploma; points noted being earliness, size, form, color, and vigor of growth.

Miss Louise D. Black—Color reddish-orange; terminal bud; flower compact; very full and conical. Lasts an indefinite length of time, either off or on the plant. Received certificate at Indianapolis and Philadelphia.

Mrs. J. C. Whildin—A handsome light yellow variety, of splendid size and form. Took the Whildin prize at the Philadelphia show.

Mrs. M. R. Parker, Jr.—Dwarf, robust habit, with unusually strong stems and fine foliage. Flowers $7\frac{1}{2}$ to $8\frac{1}{2}$ inches in diameter, with broad cupping and incurving petals, the inner surfaces of which are a rich, deep pink, reverse light silvery shade, forming a bright contrast. The first early pink in the market; in fact, the first large flowering variety of any color. Awarded certificate at New York by the Chrysanthemum Society of America.

Mrs. F. L. Ames—Orange-yellow of very rich shade; flowers very large, very full; splendid in form and arrangement of petals; an extra strong, fine grower. As a late yellow, nothing finer can be wished.

Mrs. C. D. Avery—Japanese. Petals long, convex and twisted at maturity. Color, a new shade of pure dandelion-yellow; darker than Lincoln or Widener, without any bronze or red shadings; perfectly double; strong stems.

Mrs. C. Lippincott—Color a very rich, deep golden-yellow; flowers very large, many of them eight inches through; petals long, large and finely incurved.

Madame De Montefosse—A beautiful, yet odd variety. Very difficult to describe. The flowers are large, splashed wine and pink; a very striking variety.

Mrs. G. J. Beer—Immense Japanese bloom, full and deep; rosy-purple color, lighter center. For exhibition only. One of the largest flowered varieties extant.

Mademoiselle Lea Leveque—One of the finest of the incurving pink section; very large deep and full; a strong grower. Color an exquisite bright shade.

Marie Louise—A beautiful recurring white, with slender interlacing petals, forming a plumpy globe. Received Columbian medal at the Chicago show. Not of enormous size, but of good substance; stem slender and stiff; foliage elegant; plenty of room for this graceful variety, which is a model for cut flowers.

Myrius—A grand snow-white variety. Center irregularly incurving, with outer petals reflexing nearly to the stem. Constitution robust, foliage large and abundant while the keeping qualities of the flowers are unsurpassed.

Oakland—Clear shade of even terra cotta, full and deep. Straight stem and good foliage. Four feet high. A splendid exhibition bloom. Has taken first prize wherever exhibited.

President W. R. Smith—Color of Daybreak Carnation, a pure self pink; very heavy in substance, on stiff stems; very free in growth, and also free in propagation. It opens with a center incurving in a circle enclosed in broad outer petals; it gradually assumes the true Japanese form, rounded and deep, and this gradually changes to the informal reflexed; perfectly double; especially fine for cut flowers and exhibition blooms.

Picher and Manda—There is nothing that has ever been offered that in any way approaches it. The outer five or six rows of petals are pure white and Dahlia-like form, while the center is a bright deep yellow, the colors being sharply defined. One of the most distinct novelties.

Protesse—Dark amaranth; very large; fine for exhibition.

Roslyn—Superb, clear rose-pink; petals thick and heavy; cup-shaped, solid to the center; immense in size, habit the best; stems stiff and erect, covered with luxuriant foliage.

Swanley Yellow—Reflexed, of great depth. Petals long and twisted, open to the end, of a beautiful pure yellow, dwarf; one of the most distinct sorts.

Violet Rose—Of very silky texture; petals long and straight; a fine grower, flower of extra large size and fine color. A fine keeper when cut.

Vivian Morel—A mammoth variety with long, loosely arranged petals of a most beautiful shade of pink; a strong, sturdy grower, with deep green foliage; contour very distinct from any other.

V. H. Hallack—The color is beautiful, clear pink (like the Mornet Rose), the whole flower of one color, but slightly deeper at the center. Petals have a solid, waxy camellia-like texture, harmonizing with the delicate color. Flower eight inches in diameter, with good, stout stems.

Violescent—A magnificent variety for exhibition purposes. Color white with lower petals delicately tinted lavender.

William H. Lincoln—A magnificent golden-yellow variety. An extra large flower; double.

GERANIUMS

While we grow Roses in large quantities, we take fully as much pride in our collection of Geraniums. We head the list among the largest growers of Geraniums in this country, selling annually as high as 150,000 Plants. We have the choicest varieties in large quantities. ★★★★★

GENERAL COLLECTION OF DOUBLE GERANIUMS

Price, 10c Each. Selection of any 10 for 75c. May be included in Club Rates.

ALPINE BEAUTY—What S. A. Nutt is among the dark reds, Alpine Beauty is among double whites; we consider this the finest double white up to date.

A. FLEUROT—Dark garnet, with bright orange red markings.

ADRIENNE CORRET—Immense spherical trusses of bright reddish orange color. A continuous free-blooming variety of great merit.

A. DUPREE—Dark, rich, velvety crimson, shaded still darker. It is needless to say that this coloring is unusually handsome.

BLACK KNIGHT—Bright crimson maroon. Very large truss and a splendid bedding variety.

BISHOP VINCENT—The handsome flowers are bright cherry, mixed with solferino in a most charming manner; the flowers are of large size and are carried on magnificent, large, massive trusses; very profuse bloomer; stands the hottest sun without scorching.

B. K. BLISS—A splendid bedder, blooming without intermission and standing the sun well. The flowers are beautiful, deep, rich scarlet; fine, large florets of most perfect circular form. The best shaped flower of its class.

CALIFORNIA—Rich, golden-orange shade, of the most brilliant hue—we need not add another word to its color. The flowers are the largest size, most perfectly shaped, in large trusses, opening freely at all seasons.

CONTRASTE—Among the most beautiful of new double Geraniums is Contraste. The flowers and trusses are very large. Lower petals orange and carmine, upper petals clear orange, making a striking contrast of colors that is beautiful.

CREPUSCULE—Another fine Geranium, raised by Bruant. Trusses large and freely produced; dark purplish-crimson, marked at the center with capucine-red. Best of the color.

COMTESSE DE LA BAUME—One of the most beautiful rose-colored varieties, either for growing in pots or bedding out.

COLOSSUS—Floret quite circular, semi-double; $2\frac{1}{2}$ inches in diameter; truss also fine. The color is very beautiful, a rich shade of rosy-crimson. Very free in bloom. One of the very largest and finest among the double reds.

DR. JACOBY—A magnificent Geranium, having enormous trusses of large double flowers of clear nankeen-salmon. A most charming variety.

DE LACEPEDE—Flowers very full; rosy-flesh color, with lilac shadings.

ED. ANDRE—A beautiful flower of dark rose, shaded with violet. A most beautiful Geranium.

EMPRESS—A wonderful bedding variety; enormous trusses of well-formed flowers; rich rosy-salmon, shaded with carmine and white.

EMERSON—A most charming variety, having large trusses of double flowers of clear nankeen-salmon.

LA FAVORITE.

GLORIE DE FRANCE—This is one of the most beautiful partly colored Geraniums, which appear so bewitching to the eye. Large, round florets of waxy appearance. Flowers are carmine and white, carmine center; each petal delicately edged with carmine. An excellent pot variety.

HARRIET THORPE—The handsomest light flowers we have yet seen; delicate blush with pearl-pink, the edge of each flower having a wire-like edge of deep pink, resembling a Picote more than a Geranium; trusses large and well shaped.

GRAND CHANCELLOR FAIDHERBE—A fine sort; very thick and double; flowers of a dark, soft red, tinted with scarlet and heavily shaded with maroon; very dark and rich, and at the same time very bright. Simply a superb variety.

GEOFFREY DE ST. HILARE—Large, spherical trusses of glowing scarlet, rayed with intense violet-crimson. A strong bushy variety of great merit, and after a thorough trial we can recommend it as unequalled in its class.

JULIET—Clear salmon shading to pearly-white round the eye, a lovely delicate color and one of the most perfectly formed flowers, both in pip and truss ever seen. Some of our last novelties in this shade were so good that we quite despaired of ever making any advance upon them, but this is a genuine surprise in every way.

LA FAVORITE—In this new Geranium we believe we have the finest double white in cultivation. La Favorite is a pure, double, white Geranium, as free-flowering as the single varieties, and which can be used for planting in beds for furnishing a supply of beautiful white flowers for vases, etc., or for pot culture for Winter forcing. It is a dwarf, compact-growing variety. The foliage is bright, healthy green, with a band of darker green encircling each leaf. The flowers are borne in large trusses, of the purest snow-white, retaining this pure whiteness even in the height of Summer, and for Winter blooming it is all that can be desired.

GEORGE THORPE—The trusses are of immense size, on very strong footstalks. The color is the most intense crimson. A grand variety.

JAS. Y. MURKLAND—Bright peach-rose, broadly margined with white.

LE PILOTE—One of the most brilliant and beautiful flowers in our list. Very brilliant crimson-scarlet; large and beautiful florets.

LINNE—A beautiful variety, with large trusses and very perfectly formed florets; creamy white, with rose shadings.

PLEASE READ SCHEDULE OF CLUB RATES ON PAGE ONE BEFORE SENDING ORDER.

GENERAL COLLECTION OF DOUBLE GERANIUMS—(Continued.)**Price, 10c each; any Ten for 75c.**

LOUIS FIHOL—Bright orange-scarlet, shaded salmon; plant very free and flowers very perfect. A good variety.

L. CONTABLE—Plant of perfect habit; very free; large, full, double flowers, of a beautiful bright rose color. An extra fine variety.

MARIE DE BISNARY—Very beautiful. Rose-chamois color, center of petals shaded rosy-lilac. Quite distinct and pretty. One of the most profuse blooming varieties in our collection.

MONTESQUIEU—Soft lavender pink of even shade; form of a Rose; circular in form. A grand variety.

M. SANDORF—Orange-salmon, with silver shadings; flowers large and finely shaped.

MLLE. HOSTE—Umbels large and borne well above the foliage; flowers of enormous size; color flesh, lined and shaded with bright salmon; one of the very finest in the collection; shading simply exquisite.

M. CARO—The first real approach to lilac yet attained in Geraniums; the double flowers are a delicate shade of light lilac, the outer edge of the petals changing to deep rose, shaded in a most charming manner.

MISS FRANCES E. WILLARD—This very choice variety originated with this establishment in 1888, being one of several seedlings raised from seed obtained from a flower of White Swan. It is of vigorous growth; the flower stalks are very long and are carried well above the foliage; the color is a delicate blush, shaded with pearl-pink, a most charming piece of shading.

MADAME DIEULAFOY—A charming variety. It is dwarf habit, with immense leaves; the florets are large, of good form, and are borne on immense trusses; the color is a tender rose, flaked with white.

QUEEN OF FAIRIES—Large, round florets of very waxy appearance colors carmine and white, with carmine center, each petal delicately edged with carmine. An excellent pot variety, to which its habit is finely suited. One of the prettiest; splendid bedder.

SIR TREVOR LAWRENCE—A unique variety, with very large trusses of perfect shaped flowers with round petals. Color an exquisite shade of rosy-peach.

S. A. NUTT.

S. A. NUTT—This is the darkest and richest double Geranium grown. It is a very bright, dark, deep, rich, velvety-maroon, an excellent bedder and a perfect pot plant; one that must find its way into every collection. Always in bloom.

THEOCRATE.

TRIUMPHANT—This plant is very dwarf and bushy, but vigorous. Monstrous trusses on long foot stalks. Color a rich salmon, intermingled with white.

THEOCRITE—Very fine trusses of bloom, of beautiful pearl-white, tinted with soft rosy-lilac. The blooming quality of this variety cannot be surpassed. It is a fine bedder, as well as an excellent variety for pots.

WALTER SCOTT—Entirely distinct from any Geranium yet offered. Flowers double, of the most dazzling vermilion-scarlet, shaded with mahogany at base of petals; trusses very large, often measuring 5 inches in diameter, of globular shape, resembling a scarlet ball. A remarkably free bloomer and equaling General Grant as a bedder. A magnificent bedder.

WHITE SWAN—In the White Swan we have the finest double white Geranium ever introduced, and, unlike other double white Geraniums, it is suitable for bedding, and flowers as profusely as the best single varieties. It is a dwarf, compact growing variety, with handsome band-d foliage of a light healthy green. The perfect double flowers are unsurpassed for cut flowers. They are borne in large trusses, and are spotless and snowy-white, retaining their pure whiteness even in the heat of Summer. In the Fall the plants can be taken in the house, where they will again bloom profusely.

WILHELM PFITZER—A beautiful bright apricot color; quite distinct and by far the best ever sent out of this color. We think this is one of the best pot or market Geraniums. Its peculiar and distinct color is wonderfully attractive.

ROSEBUD GERANIUM

ROSEBUD GERANIUM—Florets like perfect rosebuds. The habit of growth is dwarf and compact, making this variety one of the most desirable for pot culture. The novelty and merit, however, are principally in the flower, the perfect trusses of miniature rosebud florets, which are, wonderfully attractive and pleasing. The color is bright scarlet, flamed with purple shadings, and the substance most lasting. A button-hole bouquet of this variety will last longer than any other we know of, and then it is entirely unique. Certainly no Geranium in cultivation today is as distinct, and we are certain this remarkable novelty will make a sensation.

PLEASE READ SCHEDULE OF CLUB RATES ON PAGE ONE BEFORE SENDING ORDER.

General Collection of SINGLE GERANIUMS.

Price, 10c Each. Selection of Any Ten for 75c. May be Included in Club Rates.

BRILLIANT.

A grand scarlet variety, with large pips and trusses of the finest shape; the finest single scarlet.

Athletic—(New)—Its florets measure two inches across, of the most intense fiery scarlet, and it has a large, distinct, pure white eye.

Apple Blossom—Fine trusses of pearly-white flowers; suffused with rose; the delicate color seen in apple blossoms; stands sun well.

Anrelia Scholl—Violet-rose, marked with white on upper petals.

Celestial—Deep rose tinged white; an extra fine sort for bedding out or winter flowering.

Copernic—Trusses largest size; florets perfect; rose and dark carmine; center white.

Deuil de Miribel—Velvety crimson-scarlet. This variety has the largest floret, the finest truss, the longest stem, and the best color among single reds, and it is a fine, free grower.

Ernest Bergman—Plant dwarf; foliage small; rich, velvety-scarlet. A superb variety for bedding.

Evening Star—One of the latest novelties; white flowers, with a large rose-colored center; dainty and beautiful flower.

Frau Louise Voith—Perhaps the grandest single pink Geranium out. The color is a beautiful, clear and brilliant carmine-rose, with a very large, pure white eye. Trusses large and of a beautiful shape.

General Sheridan—One of the best bedding Geraniums in cultivation. Grows freely and blooms with the greatest profusion; brilliant scarlet flowers.

Granville—Floret perfectly round; a lovely bright pink. Flowers are of the largest size and excellent form, trusses very large and spreading, flowering most all seasons.

General Grant—Grows freely and blooms with the greatest profusion. One of the best bedding Geraniums. Bright scarlet flowers. One of the best for massing.

Godfrey Cavegnac—Rich, deep scarlet, with a large white eye. Florets of good size and round form. A rare variety of great beauty.

Hecle—Crimson-scarlet or carmine of the loveliest shade; florets large and finely formed. One of the finest fancy reds.

Hofgartner Eichler—Dark crimson, shaded to dark scarlet; very dark and beautiful.

Jacques Callot—Single seedling from Souv. d'Mirande, the finest of all the fancy Geraniums. This variety is identical with its parent, save for its larger size.

Jasper—Bright orange flowers deeply shaded; white eye.
Katie Schultz—Delicate pink, dainty and beautiful; One of the finest for bedding.

La Vestale—In this variety we have a most beautiful, pure white Geranium. It has large trusses of the purest snow-white flowers; very free-flowering. A splendid variety.

L'Elysee—Orange-salmon; large fine flowers; the color named is the prevailing one, but it is peculiarly lightened in places with white; beautiful.

Louise Ulback—Color intense, dazzling scarlet; trusses extra large; florets round and large; an excellent bedder.

Mrs. James Vick—White edges, pinkish center.

Mrs. Lindsay—A strong growing Geranium of good habit, producing enormous trusses, of a deep, pink violet shading; upper petals marked white.

Marguerite De Layres—A grand single white, plants a mass of white bloom, trusses of the grandest size.

Mrs. Hamilton—A charming shade of light, soft pink; fine, strong grower, with large trusses.

Madame Delamarre—Single. A bright rosy-crimson, with heavy white markings on the upper petals. The habit is dwarf, compact, and, with its great freedom of bloom, make it a most excellent bedder.

Master Christine—Bright rosy-pink, shaded lighter to the center. A fine one for bedding or pot culture.

Madonna—A magnificent bedding variety; trusses are of extraordinary size, almost pansy form; the color is a soft, light pink, a beautiful and distinct shade.

Renomee—Clear apricot, passing to copper; rose-veined center; fine, large trusses.

Ralph—A magnificent bedder and profuse bloomer; crimson scarlet, shaded purple.

Signor Crispa—Immense florets forming large trusses of the most delicately beautiful pink, with white eye.

Sam Sloan—Rich, vivid crimson; immense trusses. The best of the dark Geraniums for bedding, as it blooms freely, stands the sun well and is a rarely beautiful flower.

Scarlet Cloth—Splendid rich shade of scarlet; extra large floret and truss.

Souvenir de Mirande—Round florets, upper petals cream-white, with a distinct rosy-pink border; lower petals salmon-rose, streaked pure white; a most novel color.

W. A. Chalfant—Dazzling scarlet, florets slightly circular and slightly cupped, forming a magnificent truss; one of the best for bedding.

MADAM BRUANT.

MADAM BRUANT.

This might properly be called the pansy-flowered Geranium. Fine trusses of blooms in great profusion; individual flowers large, of fine shape, center of flower white, veined with carmine-lake, the five petals regularly and distinctly bordered with bright sofferino.

Please Read SCHEDULE of CLUB RATES on Page 1 Before Ordering.

The Ever-Popular Sun-Proof Bruant Geraniums

This, the Bruant Race cannot be excelled for bedding.

Price, 10 cents each; selection of any 6 for 50 cents.

Brunanti—Semi-double. Color of the flower a vermilion-red, of a most pleasing shade. The flowers are absolutely perfect in shape, contour and make-up; trusses exceptionally large and borne in immense spherical balls, often measuring eight inches in diameter. The best scarlet bedder extant.

Beaute Poitevine—Semi-double. one of the very finest of the Bruant race; the color is a brilliant salmon, shading to apricot in the center; trusses colossal, florets $2\frac{1}{4}$ inches in diameter. Created a sensation at the Paris Exposition.

Blanche Moulas—Single. A grand bedding variety of much merit. The flowers are large, salmon, beautifully bordered with white. A Geranium of rare beauty.

Barbiset—The individual flowers are very large, borne on long foot-stalks; color, fresh, bright rose, maculated with white on the upper petals. A beautiful variety.

Dr. Thouvenet—Very large double flowers, clear cerise-red.

Mon. Poinsignon—Color bright aurora rose, shaded salmon, with a white eye; large trusses of splendid shaded flowers.

Del Rosso—Magnificent salmon, white center, shading to light lines about the center; very free blooming, either bedded or in pots; semi-double.

Emile Cailletet—Dwarf grower, producing very large flowers of a beautiful light rose, marked with white on upper petals; splendid bedder, producing a mass of colors: single flowers.

Francois Arago—Single flowers finely formed, a free bloomer; on strong foot-stalks; color silvery-salmon, shaded peach; fine glistening texture.

M. Louise Fages—A beautiful compact grower; nicely zoned flowers of the largest size; trusses fine; semi-double; clear, bright, orange-scarlet; extra fine.

Madame de la Roque—Enormous round single flowers in large umbels, very freely produced. Color a beautiful salmon, with orange shaded center. Fine for massing.

Mrs. E. G. Hill—Single; florets $2\frac{1}{2}$ inches. The center of each petal is soft, light salmon, bordered with rosy salmon and veined deep rose. Frequently throws six petals.

JOHN A. DOYLE.

The Glorious Geranium, John A. Doyle
This remarkable new Geranium is a cross between Grand Chancellor and Bruant, and is destined to take the most prominent place in bedding or pot Geraniums. It is a strong, vigorous grower, throwing its truss up well above the foliage; of enormous size, and of the richest brilliant vermilion scarlet. It is a phenomenal bloomer.

IVY-LEAVED GERANIUMS

A splendid class of Climbing or Trailing Geraniums; adapted for baskets, vases, rock work and trailing on trellises.

Price, 10c each; any 6 for 50c.

DOUBLE FLOWERING VARIETIES.

Charles Turner—Best bloomer. Color light scarlet, with soft rose tint, two upper petals veined with maroon-crimson. For general purposes there is not one in all the list of Ivy Geraniums that can compare with this superb variety which our immense stock enables us to offer very low this season.

Camille Flammarion—A beautiful variety and a general favorite with all the lovers of the Ivy-leaf varieties. Flowers large, full, cup-shaped and a deep rose color.

Galilee—Rich, deep pink, large flowers of good substance, and not only flowers in summer, but will make a beautiful plant for the window in winter.

Joan of Arc—This is one of the most beautiful plants it has ever been our privilege to offer. The flowers are perfectly double, white as snow, and literally cover the plant when in full bloom. The foliage is extremely handsome, the dense, glossy-green leaves making it a most effective background for the great clusters of snow-white flowers.

Mme. A. Guillemand—Flowers full and double; color violet-purple; extremely grand of this color.

New Hybrid Geranium, Peter Crozy—A cross between the Ivy Geraniums and the Zonals. The foliage shows the blending of the two races, having the form of the Ivy and the substance and size of the Zonals. The flowers are brilliant scarlet, borne in the greatest profusion, the trusses measuring six inches across and the individual florets two inches. The habit is dwarf and compact, the flowers are semi-double and last a long time.

Remarkable—Large flowers of very rich coloring, deep, rich red; very good

PLEASE READ SCHEDULE OF CLUB RATES ON PAGE ONE BEFORE SENDING ORDER.

SPLENDID NEW GERANIUMS

Price, 20 cents each; any 6 for \$1.00.

DOUBLE.

Cress. de Harcourt.

Pure snow white. A grand bedder. Florets large and beautifully formed. Extremely free in bloom, forming a bank of white.

Col. Barre.

Semi-double, dwarf, and very free; an entirely new color in this choice section. The lower petals are rosy pink, upper petals darker and marked scarlet at the base. Most of the florets throw from 6 to 8 petals, and have much the elegance of form of the finest of the Ivy-leaved section. Both florets and trusses are of unusual size.

Hubert Charron.

Beautiful semi-double flower, pure white with a reddish carmine band around each petal, frequently delicately mottled throughout the whole flower. Excellent as specimen pot plants or for summer bedding.

Jean Vlaud.

Very large semi-double blooms borne in large trusses well above the foliage; individual floret large; color bright rosy pink with distinct white blotch in the center; habit dwarf, compact, very vigorous and exceptionally free blooming. Foliage clear deep-green with distinct bronze-green zone; probably the best pink Geranium yet introduced.

J. B. Varonne.

No one has seen this beautiful Geranium without being captivated with it on account of its beautiful contrast of coloring. Plant of good free-blooming habit, flowers large, color brightest vermillion, center very distinctly spotted and marked with white and lilac.

M. Canovas

Immense trusses of brilliant scarlet flowers, with velvet maroon shadings, on long stiff stems.

Mad. Jaulin.

Has been pronounced the finest of all the delicate pink or blushed varieties. Plant is of dwarf but robust habit of growth, flowers of good size and very abundant. Center of flower delicate pink, outside pure white. A decidedly attractive variety.

Marquis de Castelaïne.

A giant among Geraniums. Produces a wealth of bloom the whole season. Flowers 2 inches and over in diameter. Trusses of bloom 5 to 7 inches across. Petals broad, arranged to form a round flower of perfect shape. Color deep rosy scarlet, shading into pure scarlet at the edge of upper petals. We consider it one of the best red Geraniums ever introduced.

Richelleu.

No Geranium in our list is more attractive. Individual flowers are of good size, borne in close round trusses. Color, bright cherry scarlet. One of the most profuse bloomers.

Phyllis.

Pale salmon-rose; one of the most delicately beautiful flowers imaginable. The blooms are very large and of faultless form; plant dwarf and compact.

THREE

FANCY-LEAVED, GOLD AND SILVER TRI-COLORED GERANIUMS.

Happy Thought.

A tri-colored Geranium, with very dark green foliage, having a light, creamy, almost pure white center, with a dark zone. Flowers bright scarlet. Price, 10c each.

Mrs. Pollock.

A magnificent variety, the green leaf disk overlaid by a beautiful bronze-red zone, belted with bright crimson and outwardly margined with golden yellow; very fine for the parlor or conservatory during the Winter and Spring. Price, 10c each.

Mountain of Snow.

The finest of this class for ribbon lines or massing; the center of the leaf is bright green, the outer margin broadly marked with silvery white; one of the whitest leaved sorts; flowers are bright scarlet. Price, 15c each.

SINGLE.

Apotheose.

Clear, bright rose color, with large white center. The upper petals suffused with carmine. Habit good. A very beautiful member of the double Aureole family.

Clyde.

A single scarlet Geranium of Bruant type. A sport from Mrs. E. G. Hill, in every respect like its parent, except color, which is pure scarlet of soft, even shade. Floret immense, 2½ to 3 inches in diameter. Trusses 14 to 16 inches in circumference. A grand bedder and also a fine pot plant.

Countess of Derby.

Mottled salmon, fiery center; shading off to a white margin. A great favorite.

Lowell.

Soft scarlet-pink of beautiful shade, florets circular in form; trusses of grand size, fine indoors and out.

M. Poirier.

Another magnificent variety that received a first-class certificate at the Royal Horticultural Society. Trusses of enormous size, beautiful carmine-violet color; upper petals marked with rich violet. Exceedingly free-blooming variety.

Miss L. Mayot.

A variety with striped flowers. Very distinct from others of its class. Large white center, bordered with vermillion. Very free; constant in bloom, extra fine for massing.

M. P. MoJan.

Plant very free, enormous trusses, large flowers of rosy salmon, center white, surrounded by a halo of bright salmon.

Nellie Woods.

We feel like calling this the queen of all the single round flowering varieties. The floret is of enormous size, perfectly round, the color is rich, glowing crimson-scarlet, a very telling color.

Tempest.

A brilliant orange, still the nearest approach to yellow among the Single Geraniums. Very dazzling color.

Wedding Ring.

This Geranium took precedence over any Geranium we grew the past Summer for the excellence and great beauty of its flowers. It is a Geranium that one never tires of. Dazzling orange-scarlet florets, circular and slightly cupped, giving it the appearance of a beautiful ring.

SWEET-SCENTED GERANIUMS.

Price, 8c each; except where noted.

Balm.

Large leaves, with a very strong fragrance.

Apple Scented.

Has the fragrance of ripe apples. Well known favorite. Our plants of these are very fine. Price, 10c each.

Mrs. Taylor.

Dark green foliage of a peculiar fragrance. Flowers are scarlet shaped like a Pelargonium and borne in great profusion. Price, 15c each.

Nutmeg.

One of the most fragrant. Somewhat resembles the Apple Geranium in growth and fragrance.

Peppermint.

Large green leaves, finely scented.

Shrubland Pet.

Small, light-green leaves; very fragrant; pretty rose-colored flowers.

Rose.

Too well known to need description. These are indispensable in the formation of bouquets. We have two varieties, one of the broad leaved and the other fine cut.

SEE SCHEDULE OF CLUB RATES ON PAGE ONE BEFORE ORDERING.

Begonias

Flowering Varieties.

Price, 10c. each, except where noted. Selection of any twelve for \$1.00.

THIS beautiful class of plants is deservedly popular. They are suitable for pot culture in the window or the outdoor plant stand. During the greater portion of the year the plants are, in the different varieties, covered with a profusion of graceful, drooping racemes of pink, white, crimson and bi-colored buds and blossoms that are exceedingly attractive, and having a waxy, coral-like appearance. The plants themselves are of neat, compact habit, with glossy green leaves in some varieties and exquisitely cut ones in others.

Argentea Guttata.

This beautiful sort has the silvery blotches of *Alba Picta*. It has purple-bronze leaves, oblong in shape, with silvery markings, and is in every way a most beautiful Begonia. Produces white flowers in bunches on ends of growth stems.

Argyrostigma Picta.

A handsome, compact-growing variety. Leaves a silvery-green, dotted white, smooth and glossy. Flowers a lemon-white, produced in corymbs. Magnificent pot plant.

Alberta Perfecta Grandiflora.

We doubt if there is a white-flowered variety that equals it. The foliage resembles *Rubra* in shape, but it is lighter green, while the flower panicles are much handsomer. It is a pure white flowering Begonia of much merit. Try it.

Bertha de Chateaufrocher.

Next to Dewdrop, this is the white-flowering Begonia we have. It blooms the year round, makes a handsome window plant with its beautiful foliage and bright currant-red flowers.

Compta.

A new variety resembling closely the old *Zebrina*. *Compta* is a more compact grower, with long pointed green leaves; a silver tinge along the mid-rib; underside of leaves and stem pale pink.

Decora.

A shrubby variety, with dark green leaves, profusely marked with spots of silver-gray, after the style of *Argyrostigma*.

Dewdrop.

Is always in bloom, will stand the strong sun during Summer, and is one of the finest plants ever introduced. Flowering Begonias are the most satisfactory plants for house decoration, and if different varieties are used a succession of bloom can be had all through the Winter. In the new Begonia, Dewdrop, we have the best flowering Begonia ever obtained.

Alba Picta.

Long, pointed, slender leaves, thickly spotted with silvery white. Foliage small and elegant.

ALBA PICTA.

MARGUERITE.

Marguerite.

Leaves a bronzy-green, somewhat resembling *Metallica*, but growing in more bushy form, and easier to handle when grown for market. Large trusses of light, rose-colored flowers freely produced.

A Grand New Begonia, Erfordii.

The finest bedding variety extant, used by thousands in the Chicago parks. Dwarf and compact in growth, and covered with flowers of soft pink color. Price, 15 cts. each.

Fuchsoides Coccinea.

Elegant, free-blooming variety. It resembles *Hybrida Multiflora* in growth. The flowers are bright scarlet.

Gloire de Lucerne.

A beautiful variety that is evidently a cross between *Sanguinea* and *Rubra*, both of which it resembles in foliage, while the bloom is the most beautiful rosy-vermilion. The leaves are of most beautiful form, broad and deeply lobed, bronze-green above and purple below. The plant assumes a fine tree form with a little attention.

Hybrida Multiflora.

Very free-blooming, beautiful pink flowers. 8 cts.

M'Bethii.

Foliage fern-like; panicles of pure white flowers produced in great profusion. Most persistent bloomer of the Begonias; supersedes *Richardsonii*, which variety it resembles in foliage. Price, 8 cts.

Nilida Alba.

A strong growing, profuse blooming variety, producing immense panicles of pure white flowers.

Robusta.

This is one of the most peculiar Begonias grown. The stock, stem and underside of the leaf are Indian-red; the upper side of the leaf glossy olive-green. The flower is composed of two wide and two narrow petals, the wide ones being broadcast at the base and terminating in a round point, of a beautiful bright rose. Price, 8 cts. each.

Sandersonii.

Bushy growing variety; glossy deep-green leaves; flowers in clusters of drooping, scarlet, heart-shaped buds. Price, 8 cts. each.

Sanguinea.

Leaves darkest glossy-green or olive, underside dark-crimson, flowers white, makes a charming combination. Price, 15 cts. each.

New Begonia, Thurstoni.

The underside of leaves is a rich, purplish-red, the veins very prominent, while the face or upper side is a bronzy-green, shaded with crimson and olive, with a peculiar glossy metallic luster over all. Flowers rosy-white in large clusters, well above the foliage. The plant has a fine habit.

Zebrina.

An erect growing variety, with a beautiful profusion of pendant leaves. Besides its graceful form the leaf is distinguished by its glistening, silver shading following the leaf, the body being a very dark, velvety-green; under side plum color, vein green. Flower pure white. A beautiful variety.

Velutina.

The name implies "velvet," which is all that can be said of its appearance. A stately grower, and in flower a handsome specimen of the family of *Metallicas*. A truly grand sort.

BEGONIAS--FLOWERING VARIETIES--Continued.

Price, 10 cents each, except where noted. Selection of any 12 for \$1.00.

BEGONIA RUBRA.

RUBRA—If you can have only one Begonia, let it be a Rubra, for it will prove a constant delight. It is so fast growing that it will in a year or two reach the top of your window, sending up heavy, stiff canes an inch in diameter, and rising beside them will grow strong, slender branches, gracefully drooping under heavy waxen leaves and pendant panicles of coral-colored flowers as large as a hand. We have seen a medium sized plant with more than twenty such panicles at a time. Among the individual flowers you will find three distinct forms growing side by side. One of the most wonderful plants within our knowledge.

Four Extra Fine Begonias.

BEGONIA FEASTII—A low, spreading Begonia, with perfectly circular leaves, red beneath, and dark, glossy green above, and of heavy texture. The finest pot Begonia we have for house culture. Don't fail to try it. Price, 15c each.

RICINIFOLIA—So called from its likeness to the Ricinus, or castor-oil plant. The leaf is very large—will average a foot or more in diameter—and is separated into seven or nine large points, carried on thick, heavy stems, eighteen inches or more in height; color a rich green, with reddish markings; surface velvety. In bloom it is magnificent; the panicle, composed of great numbers of individual pink blooms, is lifted high and spray-like, quite clear of foliage. One of the best for Winter bloom, besides being ornamental in foliage. Price, 25c each.

NEW BEGONIA, SPECULATA—Quite a novelty in the Rex type. Leaves are in the form of a grape leaf. Color is a bright green, with a background of chocolate; veins of a light pea-green, the whole leaf spotted with silver. In bloom it is magnificent; the panicles, composed of great numbers of individual pink blooms, are lifted high and spray-like quite clear of foliage. Price, 15c each.

SEMPERFLORENS GIGANTEA ROSEA—A superb variety; strong, upright; grows large flowers of clear cardinal red; the bud only exceeded in beauty by the open flower, which is borne on a strong thick stem. The leaves are smooth and glossy and attached closely to the main stem; both leaf and stem quite upright, growing and forming a shrubby round plant. Price, 25c each.

One each of the above four Begonias for 60 cents.

M. DE LESSEPS.

M. DE LESSEPS—The leaf is of silky texture, and is beautifully spotted with silver. Very strong, free-growing variety, that will succeed with any ordinary care, growing rapidly and sending out quantities of beautiful white and pink flowers.

BEGONIA—KING OF REX.

BEGONIA REX; or, KING OF BEGONIAS—The king of foliage plants, far out-showing all others. It seems to feed on the rich metals of the soil, and spread their lustrous tints over its leaves. Give them a soil composed of rich loam, woods earth and sharp sand. They require a warm, moist atmosphere and shady situation. Do not allow the sun to strike the leaves while wet, and do not overwater. We can furnish Rex Begonias in six choice sorts at 15c each; 4 for 50c.

TUBEROUS ROOTED BEGONIAS

THE TUBEROUS-ROOTED BEGONIA is the fashionable plant of the day, and richly does it deserve its honors, for in addition to very handsome foliage, it bears a never-ending profusion of the most ravishingly beautiful flowers the whole Summer, and then with the coming of cold weather, very obligingly takes a nap until Spring, asking no further care through the Winter than to be packed in soil away from frost. This trait will be appreciated by the many people who have no spare windows to carry over tender bedding plants, yet dislike to be at the expense of buying a new lot each Spring. This grand plant is a rival to the Gloxinia as a Summer window or conservatory plant, and as strong a rival to the Geranium and Verbena as an outdoor bedding plant. The enormous size and intense brilliancy of the flowers astonish those who have never seen any but the ordinary house Begonia. The bulbs can be started from March to June and will soon be in full bloom. Must be kept from direct sunshine. A good place for them is on the north side of a house or grape arbor. Our strain of both double and single is a very superior one, many of the flowers measuring three to five inches across.

Single, Separate Colors, white, scarlet, pink and yellow, 10c each; six for 50c.

Double, Separate Colors, white, scarlet, pink and yellow, 15c each; four for 50c.

CALADIUMS.

FANCY-LEAVED CALADIUMS—Plants are especially valuable for decorating conservatories, window boxes and specimen plants. Magnificent planted in beds outdoors, nothing being more showy. The brilliant cardinal red, cream, pink, white and various shades of green displayed in the veins and blotches of the leaves cannot be obtained in any other class of plants. For arranging floral baskets or table decorations they are quite as handsome as any flower. We have a fine collection of first-class, distinct, brilliantly marked varieties. Price, well-dried, extra large bulbs, our selection of sorts, 20 cents each; six for \$1.00.

For Caladium Esculentum, better known as Elephant Ear, see page 35.

For New Giant Flowering Caladium, see page 35.

FANCY-LEAVED CALADIUMS.

COLEUS.

BEDDING COLEUS.

COLEUS represents more colors in their variegation than any other plant. They are certainly the most popular of colored foliage plants. Whether grown as single specimens or in masses of ribbon lines, they are equally attractive. They are of the easiest culture and adapted to our climate, flourishing in the hottest sun, as well as displaying their beautiful colors in the shady corner, where hardly any other plant would do. Plants should be set about a foot apart, so that when the size of the bed is ascertained it is easy to figure how many plants are needed of each kind in a row. We do not advise the ordering of Coleus until after the 15th of March, as they are easily chilled. We have a splendid collection of about seventy-five varieties. Many of them are seedlings, having originated with us, and are simply grand. All are good bedders and will stand the hot sun without losing their brilliant coloring.

Leave the selection of varieties to us, as it is hard to describe the various tints.

We have an extra large quantity of Coleus in red and yellow for massing and for borders. Price 6c each; five for 25c; thirty for \$1.00 by mail, prepaid. Price of Coleus by the hundred, when sent by express, \$2.50.

FRENCH DWARF CANNAS

THE BEST VARIETIES
IN CULTIVATION. 

These are now the most popular and most magnificent of all summer-blooming plants for brilliant bedding and massing.

Price, 10c each, except where noted; any twelve for \$1.00.

Austria—The new giant golden Lily-flowered Canna. The claim of Italia to the title of Orchid-flowered is not better than this to Lily-flowered. It is, in truth, a giant, with flowers six to eight inches across; a giant in its superb growth, young plants set out in June forming dense spreading clumps, with 20 to 25 stems 6 feet high, and every stem surmounted with a spike of its glorious, golden, lily-like flowers; a giant in its grand foliage; a magnificent giant in its every attribute.

Alphonse Bouvier—As fine a variety in its color of soft, bright, cardinal-red as Mme. Crozy among the orange-scarlets; the truss is enormous, composed of quantities of flowers; spikes freely produced; a magnificent grower; produces a mass of brilliant red.

Beaute Polievine—An excellent free-flowering crimson that is especially valuable in a hot, dry season, succeeding better under those conditions than any other variety.

Burbank—Color, rich canary-yellow, with a few carmine spots in throat. Giant orchid-like flowers, the upper petals measuring fully seven inches across. It is a vigorous growing plant, attaining a height of about five feet, with shiny leaves of a leathery texture.

Chas. Henderson—The standard of excellence of all crimson Cannas. Bright crimson, with pencilings of golden yellow at center. About four feet in height.

Egandale—Probably the finest bedder of its color, if not of the whole list. Deep soft red, compact spikes of medium size; a wonderful profuse bloomer, beds of it being literally a mass of red; foliage a beautiful rich purple.

Florence Vaughn—A splendid yellow Canna of large size and most perfect form, petals being broader than Mme. Crozy; color brilliant golden-yellow, dotted with scarlet; vigorous grower and very free bloomer; one of the best Cannas in cultivation.

Italia—Flowers of enormous size, eight inches across, and of entirely distinct form. One thousand dollars (\$1,000.00) was refused by the originator for one plant of it and Austria. The color effect is after the style of Queen Charlotte, bright scarlet, surrounded by a golden-yellow band. The flowers are produced in immense heads, about 16 inches long, and are borne well above the foliage. Each flower has five petals almost equal in size, giving the flowers superb grace and finish. Produces spike after spike of gorgeous flowers; foliage large and massive.

Mme. Crozy—The color is a brilliant vermillion-scarlet, bordered with deep, golden-yellow. The flowers are borne in great clusters, and in such profusion that they crown the plant with a blaze of glowing color.

President McKinley—Bright crimson, shaded scarlet. Plant is dwarf, rarely exceeding 2½ or 3 feet. Foliage rich green with chocolate colored margin. One of the finest and earliest flowering sorts.

Pink Beauty—This is a pink variety of French origin. Entirely distinct from any other sort. It is much the darkest of

BEDS OF CANNAS.

all the pink Cannas, being dark carmine-pink. Heads of bloom are held very erect and well above the foliage. A showy, effective bedder. One of the finest introductions. Price, 15c.

Paul Marquant—A very beautiful and distinct variety. The individual flowers are the largest among the race, and are a peculiar shade of salmon, overlaid lightly with a soft rosy-carmine, very pleasing to the eye. It can be planted with telling effect in juxtaposition with any variety, crimson, yellow, red or spotted.

Queen Charlotte—(New German Canna.) A most distinct, rich crimson-scarlet, with wide gold border on every petal. A very handsome plant, medium in height, compact grower; broad, green leaves. It is a profuse bloomer, and the flower spike, which is full and well formed, stands well above the leaves, yet not so tall as to appear drawn or ungainly.

Souv. de Asa Gray—Plant very vigorous; foliage green and produced in profusion. Flowers very large; beautiful citron-yellow, striped with flame.

The Great Ornamental Foliage Plant,
Caladium Esculentum, better known as

 **ELEPHANT EAR**

One of the most beautiful and striking ornamental foliage plants in cultivation, either for culture in large pots or tubs, or for planting out on the lawn. Will grow in any garden soil and is of the easiest culture. When of full size it stands about 5 feet high, with immense leaves often measuring 3 feet in length by 2½ in breadth; smooth, of bright green color, beautifully veined and variegated with dark green. The roots should be preserved in dry sand in the cellar during Winter, out of danger from frost. Good Bulbs, 15c each; extra large bulbs, 40c.

..GIANT FLOWERING CALADIUM..

A New Species from Central America, and the Grandest Foliage and Flowering Plant yet Introduced.

Leaves very much larger than any other Caladium; heavy, leathery texture and a bright, glossy-green color, with metallic luster which is remarkably handsome. Does not produce a bulb but is increased by suckers and is perennial. The leaf-stalks are strong and tall, holding the mammoth leaves well above the ground. Perfectly immense, and makes a plant which for tropical luxuriance has no equal. Added to this wonderful foliage effect are the mammoth lily-like blossoms 12 to 15

inches long; snow-white, changing to cream, with a rich and exquisite fragrance so powerful as to perfume a whole garden. Plants bloom all summer in the garden, or all the year round in pots. The foliage is so hardy that it will endure without injury frosts that kill other bedding and foliage plants. Not only is it the grandest garden or lawn plant, but as a pot plant it rivals the choicest Palms in foliage, to say nothing of its magnificent flowers. Thrives in any soil. Price, 25c.

CARNATIONS

THE DIVINE FLOWER

UNRIVALED in their rich and refreshing fragrance, unequalled for brilliancy, richness and diversity of colors, unapproached for daintiness and beauty of outline, it is not to be wondered at that, next to the Rose, the Carnation has become a favorite flower among all classes. During the past few years great strides have been made towards improving the Carnation, the florist's skill in this direction being shown in many points, but more especially in large size of flowers, vigor of growth, freedom of bloom, exquisite color and fragrance.

PRICE
8c
EACH.

ANY 15
FOR
\$1.00.

WHITE CLOUD.

BON TON

A great favorite in the Boston market, where it brings the highest prices. Bright scarlet, large and deeply fringed; fragrant, borne on remarkably upright, stiff stems; calyx is perfect; dwarf grower, and growth is so erect and strong that it does not require staking.

EMPRESS

Magnificent, bright, rich crimson; base of petals, bright scarlet; large, perfectly double flowers, deeply fringed and fragrant.

E. A. WOOD

A light pink, striped with a darker shade. This variety is now blooming for the third season, and will prove a valuable sort for locations where striped flowers are wanted. The flowers are of large size, good form, and grown on very strong stiff stems.

FRED. DORNER

Bright, deep scarlet, a most perfect color, soft yet brilliant; the flower is of the largest size, perfectly double, nicely fringed and sweet.

GOLDFINCH

Yellow, edged pink. This variety resembles Wm. Scott in growth and is fully as free blooming. The color is a little lighter shade than Buttercup and is of medium size. Calyx never bursting, stems very strong and do not need tying.

JUBILEE

Intense scarlet of the richest shade; flowers much larger than any other scarlet introduced so far; borne on long, straight stems, averaging 15 inches in length; calyx very strong, never bursts. It is a very free bloomer.

JOHN YOUNG

A very double, snow-white flower, deeply fringed, splendid calyx; strong clove fragrance, stem stiff and very wiry; habit vigorous, exceptionally healthy and a free and steady bloomer, resembling Scott in habit of growth more than any other white Carnation. One of the best and sure to be extensively grown when known.

LOUISA

New; a grand flower; very large. White, prettily marked with red.

PSYCHE.

MRS. THOMAS W. LAWSON

THE CELEBRATED \$30,000 CARNATION—This famous and much-advertised Carnation is so well known that it is hardly necessary to describe it. Flowers are of immense size, borne on wonderfully long, strong, stiff and erect stems. This variety has created a sensation on account of its wonderful size and beautiful color—dark cerise pink, lighting up beautifully under artificial light. The cut flowers have brought a phenomenal price, and the plants are bound to have a large sale, and will be wanted by every one who grows Carnations. It has been awarded five silver cups, two silver medals, and numerous certificates of merit.

KITTIE CLOVER

Fine canary yellow; the finest of all yellow varieties, and very fragrant.

MRS. FISHER

A fine constant blooming, pure white variety; clove-scented; large, full flowers; very handsome.

NEW YORK

One of the most attractive and most desirable in all our list. It is a delightful cerise pink shade, already very popular with admirers of the Carnation. An excellent deep pink.

PAINTED LADY

A large, very full flower, with perfect calyx and extra stiff stems; color brilliant cherry-pink, at times laced, lighter pink about the edge. One of the most profuse bloomers in the family; a variety that must be seen to be appreciated. We recommend this beautiful sort to all our patrons.

PLEASE READ SCHEDULE OF CLUB RATES ON PAGE ONE BEFORE SENDING ORDER.

EMPRESS.

GOLDFINCH.

PORTIA

A new and valuable addition to the list of Carnations. Flowers are of a brilliant scarlet, and remarkably sweet scented; on this account the flowers are always in great demand. Plant a strong grower of bushy habit.

TRILBY

One of the finest Carnations of recent introduction, and is by far the handsomest of the dark varieties. Flowers are of a velvety-red with maroon shadings. A vigorous growing plant and perfectly free blooming.

SWEET BRIAR

Pink, between Daybreak and Grace Wilder in shade; a strong, healthy grower; an early, free and continuous bloomer; flowers fragrant, of good size and form, and borne on long, stiff stems.

PSYCHE

White flaked scarlet, flower of extra size, but not crowded with petals, long stiff stem, very profuse bloomer; grass medium size and weight, perfectly clean and healthy. This is a great producer of flowers.

WILLIAM SCOTT

A Carnation that everybody grows; very free flowering and easily grown. It is a beautifully fringed, delicate light pink, of good size. Very fragrant and will keep for weeks after being cut.

WHITE CLOUD

This undoubtedly is the very finest white Carnation grown today. Flowers are very large size and of splendid form, with strong stems holding the flower perfectly erect. The stem is faultless—perfectly rigid and very long.

HARDY SCOTCH, OR SWEET MAY PINKS

These are more dwarf than the Carnation, growing about one foot in height, the colors being of the various shades of maroon, carmine and rose, beautifully laced and banded on white ground, flowers perfectly double, clove-scented, and the plants will stand out of doors year after year, being entirely hardy. Price, 8c each; four for 25c.

EARL OF CARLISLE—Various shades, maroon and rose, with white.

JULIETTE—Deep cherry-red, variegated with pink and pale silvery white. Very fine.

GERTRUDE—White; rich maroon and carmine markings.

LAURA WILMER—A very beautiful new variety with fringed edges; has a very large center, velvety-maroon, surrounded by cream-white.

VARIABILIS—White, with deep maroon center.

HER MAJESTY.

DOUBLE WHITE PINK HER MAJESTY

Unquestionably one of the finest of the century, and one that will hold its own as long as Pinks are cultivated.

FUCHSIAS.

ROSAINS PATRI.

DOUBLE FLOWERING VARIETIES

Price, 8c each. Any eight for 50c.

Rosains Patri—A variety unsurpassed among all the Fuchsias with corollas. Strong and bushy, beginning to bloom quite early in the Spring and continuing very late. The tube and sepals are brilliant, deep scarlet, thick and leathery in texture; corolla is very large, double and pure white.

Avalanche—Beautiful golden foliage and dark, double violet-purple corolla.

Bland's New Striped—The tube and sepals a glowing crimson, corolla rich plum-colored purple, regularly and distinctly striped red rose.

Monstrosa Superba—Very large, double flowers, covering the entire plant; pure white corolla; beautifully reflexed; bright scarlet sepals.

Madame Van Der Strass—Very large and double, pure white corolla, beautiful, reflexed bright scarlet sepals. This variety is almost perfection.

Sapley Freres—Erect grower; very large flower; corolla very double of rosy-violet; long, recurving sepals of bright coral-red.

SINGLE FLOWERING VARIETIES

Price, 8c each. Any eight for 50c.

Chas. Blanc—Single. Sepals dark red; corolla rosy-amaranth. Very free bloomer.

De Mirble—Sepals relieved, bright red, quite large corolla, rose and violet.

Infant Prodigue—Dark, single, blue corolla. A pretty growing variety, and never out of bloom.

Lovely—The tube and sepals white; corolla single; brilliant crimson; tinted magenta.

Rose of Castile—Blush white sepals; rosy-purple corolla; one of the best of its color.

Speciosa—Well-known variety, producing large flowers two inches in length, tubes and sepals of which are blush, the corolla crimson. Some plants of this variety, grown in 8 or 9 inch pots, will produce from 500 to 500 flowers from December to May.

Wave of Life—Foliage bright yellow, corolla bright violet; sepals scarlet.

PHENOMENAL.

Phenomenal—The largest Fuchsia we have yet seen. The tube and sepals are bright coral-red, beautifully formed. The corolla nearly two and one-half inches across, is of the very richest violet shade. The habit is remarkably free, and it blooms more freely than any other large variety.

BLACK PRINCE.

Black Prince—This is, without question, the very finest Fuchsia grown for the amateur to cultivate. It makes a shapely bush, is robust in growth, free from disease and insects, and is probably the freest in blooming. Blossoms of a beautiful waxy-carmine or pink color. Certainly a plant of easy culture.

PALMS

Have become an almost indispensable feature in all decorations, whether for apartments, conservatories, or for tropical bedding in Summer. The following varieties of Palms are of easy culture in the parlor or conservatory. No home should be without one or more.

CYCAS REVOLUTA—Sago Palm

The Cycas makes a magnificent specimen plant, and one of the most valuable plants grown for the decoration of the lawn or house. Their heavy, glossy, deep green fronds resist alike the gas, dust and cold to which decorative plants are frequently exposed. Price, fine, shapely plants, \$1.00 each; large plants, \$1.50 each; fine large specimens, \$2.50. These can only be sent by express.

KENTIA FOSTERIANA

This is one of the finest plants imaginable, and the easiest to grow of any of the palm family. Being almost hardy, it is not injured by slight changes in temperature, and its stiff, glossy leaves enable it to stand the dry, hot air of the living room without injury. The leaves are deep, glossy green, fan-shaped, split deeply into segments. This is, without exception, the most hardy of its class. It is very graceful for table decoration. Scarcely has its equal. Price, 50c; larger, by express, 18 inches high, \$1; 24 inches high, \$1.50; large specimens, \$2.50.

LIVISTONIA ROTUNDIFOLIA

A miniature fan-leaf Palm of the most exquisite form and appearance imaginable. The leaves are shaped like those of Latania Borbonica, but are tiny in comparison and are produced on very short foot stalks. A plant only a foot high will have as many as a dozen well developed, perfect leaves, and such a plant is lovely for table decoration. It is very scarce and rare, especially adapted for house decoration, and will delight everybody who possesses it. Price, nice, well developed plants, 50c each; larger size, \$1 each.

PHOENIX RECLINATA

This is one of the most exquisitely graceful Palms. Its wide-spreading, gracefully arching, fern-like leaves are elegant and effective for apartment decoration. Price, 35c each; by express, 15 inches high, 75c; 24 inches high, \$1.50.

PLEASE READ SCHEDULE OF CLUB RATES ON PAGE 1
BEFORE SENDING ORDER.

LATANIA BORBONICA.

LATANIA BORBONICA

Leaves large, fan-shaped, of a very cheerful green color; plant of hard constitution, and adapted to all decorative purposes within or without doors; appreciated by all the plant-loving community. Price, 25c; large size, by express, 4-inch pots, 50c; 5-inch pots, \$1; 6-inch pots; pots, \$1.50. large specimens, \$2.50.

KENTIA
BALMOREANA.

DRACAENA
TERMINALIS.

KENTIA BALMOREANA

The Kentias are among the best of the Palm species for general cultivation, being almost impregnable against diseases. This variety is one of the best in its class—graceful habit, bright-green foliage, gracefully disposed; as a decorative plant for the window, dinner table or conservatory it scarcely has an equal. Price, 50c; larger, by express, 18 inches high, \$1; 24 inches high, \$1.50; large specimens, \$2.50

DRACAENA TERMINALIS

Superb species; rich crimson foliage, marked with pink carmine and creamy white. Words cannot describe the exquisite coloring. This is one of the most admired of the decorative species, its elegant habit and extremely beautiful, lively coloring giving it marked value. It is a rapid grower, and for room adornment or as a vase plant for out-of-door use it is indispensable. Price, 35c each; extra large plants, by express, 60c each.

FERNS

MOST BEAUTIFUL
OF ALL DECORA-
TIVE PLANTS. ❁❁

Adiantum Cuneatum—Maiden Hair Fern. A very beautiful and graceful Fern, its delicate fronds being much used for cut flower work. Price, 15c each.

Pteris Argylea—Silver Fern. A very showy Fern, with variegated foliage, fronds large, light green, with a broad band of silver-white down the center of each. Very distinct. Price, 15c each.

Pteris Tremula, or Shaking Fern—One of the finest ferns for house decoration, growing very rapidly, and throwing up large handsome fronds. It makes magnificent specimens, easily grown and very popular. Price, 15c each.

Sword Fern, Nephrolepis Cordata Compacta—Regarded by some as the finest of all the Sword Ferns; it is of free, strong growing, compact habit, attaining, when full grown, a height of about two feet. The fronds which are of a dark-green color, are very rich, of upright growth, with just sufficient arch in them to make them graceful. As for a Fern for house culture or for window gardening, we do not know of any other variety that would give the same satisfaction. Price, nice plants, 15c each; large plants, 25c.

The Popular Boston Sword Fern, Nephrolepis Exaltata Bostoniensis—In the vicinity of Boston no other plant is used so extensively as this graceful Nephrolepis, which differs from the ordinary Fern in having much longer fronds, which frequently attain a length of four feet. These fronds arch and droop over very gracefully, on account of which it is frequently called the Fountain Fern. This drooping habit makes it an excellent plant to grow as a single specimen on a table or pedestal. Price, nice plants, 15c; larger size, 30c; fine large specimens, by express only, 50c.

Sword Fern, Nephrolepis Exaltata—One of the prettiest plants for hanging baskets, with long fronds gracefully drooping; very useful as it stands the sun well. Price, 15c each.

BOSTON SWORD FERN.

SELAGINELLA EMILIANA.

A new upright growing Moss with numerous feathery stems branching from the base and forming a dense tuft. Well grown plants attain a height of 12 to 15 inches. We know of no moss superior to it. Price, 10c each.

FICUS ELASTICA.

FIGUS ELASTICA

India Rubber Tree

Very large, smooth, leathery leaves, evergreen foliage. Generally esteemed one of the finest house plants grown, the plant attaining a large size and treeshape. Each new leaf is enclosed in a long, coral-red envelope, looking like a great red flower bud. Price, fine plants, 50 cents; fine specimen plants, by express only, \$1.00

ARAUCARIA.

ARAUCARIA EXCELSA.

Norfolk Island Pine.

As a decorative plant for the house this is one of the handsomest and most serviceable. It has deep-green, feathery foliage, arranged in whorls, rising one above the other at regular distances; its symmetry of form, grace and beauty of foliage are unequalled in the vegetable kingdom. It is easily grown in the house and is highly ornamental. Our importation of these this year was exceptionally large and fine selected stock, especially in the medium size, for which there is always a demand. Price, nice plants, 12 to 15 inches high, 3 tiers, \$1.00 each; larger plants, 18 to 20 inches high, 4 and 5 tiers, \$1.50 each.

CALLAS

DWARF CALLA

Little Gem—The greatest value of this over the common Calla Lily lies in its dwarf habit and freedom of bloom. The principal objection to the old varieties is found in its rank growth, but in this improved sort that objection is overcome. It rarely exceeds 12 inches in height and blooms most abundantly. Price, 10c each.

CALLA ETHIOPICA

Or Lily of the Nile
Pure white, large splendid flower. Price, small bulbs, 10c each; large bulbs, 25c each.

BLACK CALLA

Arum Sanctum—A rare specimen from the Holy Land. The flowers are about fourteen inches long from tip to base, and about four inches broad at the widest part, gracefully curving to a small point. They have a strong violet-like odor, are a deep velvety purplish-maroon—almost black—on the upper side and moss green underneath. From the center of the flower springs a spike 10 inches long, of the most intense glossy black. Price, fine bulbs, 25c each.

CALLA ETHIOPICA.

SPOTTED LEAF CALLA.

SPOTTED LEAF CALLA.

Richardia Alba Maculata—This Plant is always ornamental, even when not in bloom, the dark green leaves being beautifully spotted with white. In other respects the plant is the same as the White Calla, but is of dwarf habit. Price, 15c each; large bulbs 25c.

THE AMERICAN WONDER ..LEMON..

THE LARGEST EDIBLE LEMON IN THE WORLD.

THE illustration was made from a 2½ lb. Lemon, and was one of many on the tree when the drawing was made. This is by no means as heavy as they often grow. Superb fruit has been taken from the tree weighing over 3 lbs. each. In addition to its fruit bearing qualities it makes a very handsome specimen plant for house culture. The dark green foliage is very large and handsome and the pure waxy white flowers with yellow stems are nearly as large as Tuberose blooms and as fragrant as Orange blossoms which it greatly resembles. The lemons have very thin rind for such large fruit; and are full of rich acid juice, one is fully equal to eight or ten ordinary lemons. It makes delicious lemonade, and for culinary purposes has no equal. It is of the very easiest culture, flowering and fruiting in any good ordinary soil.

Price for very strong, young plants, 15c each; second size, splendid two-year-old plants that will fruit this season, 50c each; extra large plants \$1.00.

The 50c and \$1.00 size can be sent only by Express.

PLEASE READ SCHEDULE OF CLUB RATES ON PAGE 1 BEFORE ORDERING.

OTAHETE ORANGE

THE BEAUTIFUL SWAINSONIA GALEGIFOLIA ALBA

W E BRING prominently before flower planters this very distinct climbing plant for house culture and protected spots in the garden. The habit of growth is extremely graceful, and the vines trained up at the side of a window or on a trellis, present a lovely sight of light-green, feathery foliage, and a splendid profusion of pure white sprays of fairy-winged flowers, somewhat resembling Sweet Peasin form. Easily grown, and under favorable conditions it is almost a perpetual bloomer. There is certainly no climbing vine for house or conservatory culture today that is more desirable than this fine new plant. Five plants, 15c.

NEW SWAINSONIA SPLENDENS.

Same as the above, with bright scarlet flowers. This is the only true scarlet variety. Price, 15c each; the two Swainsonias for 25c.

SWAINSONIA ALBA.

OTAHEITE ORANGE

A grand pot plant, and one of great beauty and novelty. It blooms most freely during the Winter, though it is likely to bloom at any and all times of the year. The fruit is about one-half the size of ordinary oranges and very sweet and delicious. Price, 10c each; large, strong plants, 25c each; extra large, bushy plants, 18 to 24 inches high, by express only, 50c each.

AUREA MACULATA.

CROTONS

T HE CROTONS are among the finest decorative foliage plants known. Leaves are more or less veined and margined, sometimes entirely variegated with shades of yellow, orange and crimson. Some have long, narrow leaves, arching gracefully fountain fashion, others broad and short—dark leaved. Some recurved very much, others twisted, cork-screw like. Crotons love heat, sunshine and moisture. We will send you the following choice kinds at 10c each; 3 for 25c.

Aucubæfolium — Free growing, dark shining leaves spotted yellow mid-rib tinged dark pink.

AUCUBÆFOLIUM.

Aurea Maculata — Nearly all Crotons fail to show their fine colors until grown to a large size, but this variety is beautiful in all its stages, from a three-inch pot to a towering specimen. Deep green, beautifully maculated golden-yellow.

Chrysophyllum — Rather small, bright golden leaves. Free growing and very beautiful.

Inimitabilis — Golden yellow and fiery crimson. Very bright.

Interruptum — Very long and wavy foliage, red midribs.

Ingomar — Narrow long leaf with bright yellow midrib and narrow band of green down each side; colors bright.

Lowii — Very bright orange-red and yellow and green, long oval leaf; one of the most beautiful and showy of the free-growing, bright-colored varieties.

Nestor — Olive ground, pink mid-rib and cream spots. Finest of all Crotons.

VOLUTUM.

Volutum — Deep green, golden bar through center, in form of ram's horn.

SWEET-SCENTED

JASMINES

The Jasmine is a favorite greenhouse or house plant everywhere North, while in the South it is perfectly hardy. It is the idol of the poets, and one of the sweetest flowers. Among the species are found equally desirable subjects for decorating the greenhouse and the outdoor border, combining in every instance freedom and elegance with the most delicious fragrance.

STAR-FLOWERED JASMINE, GRANDIFLORUM.

GRANDIFLORUM

Foliage fine. Flowers white, star-shaped and fragrant. Blooms from November until May. Easy culture. Price, 8c each; fine bushy plants, 12 to 15 inches high, 25c each.

Grand Duke of Tuscany—Easily grown, even small plants bearing a profusion of double, creamy white flowers, having a delicious perfume. A plant of this lovely variety will, when in bloom, scent up a whole yard or house. It is by far the most delicious in bloom and fragrance of all Jasmines, it is sweeter than a Tuberose, and that is saying a good deal for it. Will thrive out of doors and bloom through the season. A magnificent plant, and one of the most valuable and popular pot plants. It can be stored in a dry cellar in Winter. It will please you. Try it. Price, fine plants, 15c each; large plants, 40c each. Extra large bushy plants, 18 to 24 inches high, by express only, 75c each.

Gracillimum—A flowering shoot is produced from every joint, which terminates in a dense cluster of pure white fragrant flowers; in bloom from October to February. Price, 8c each; fine bushy plants, 12 to 15 inches high, 25c each.

Poetica—Similar to Jasmine Grand. Flowers smaller, but borne on large spikes. Makes a valuable climbing plant, though if desired can be grown bush form. Price, 8c each; fine bushy plants 12 to 15 inches high, 25c each.

Revolutum—A strong climbing plant, with glossy leaves and single, deep yellow, fragrant blossoms. A beautiful plant and easily grown. Almost hardy in this latitude. Price, 8c each; nice bushy plants, 12 to 15 inches high, 25c.

Tecoma Jasminoides—In style of growth this somewhat resembles some of the Jasminums, though belonging to an entirely different family. Its flowers are tubular shaped, white with a beautiful pink throat. It is naturally a climber, but can be grown in bush form by keeping it well cut back; does well in sitting-room or greenhouse, or bedded out in Summer. Price, 8c each; large size, 25c each.

Maid
• of •
Orleans.**MAID OF ORLEANS**

In this beautiful Jasmine there are combined some sterling qualities that place it a peer over existing sorts. Of easy culture, fine grower, good bloomer, elegant fragrance, and double flowers of chaste and waxy-white appearance. If you have only one Jasmine, let it be this one. Price, 10c each; larger size, 20c. Extra large 15 to 20 inches high, 50c each.

Rhynchospermum Jasminoides, or African Jasmine—A beautiful greenhouse plant, with glossy evergreen foliage, producing masses of pure white Jasmine-like flowers, of delightful fragrance. Of climbing habit, and presents a beautiful appearance when properly trained. Flowers are desirable for bouquets. Price, 10c each; large size, 25c each.

CAPE JASMINE.

**CAPE
JASMINE,
or GARDENIA
FLORIDA**

A lovely pot shrub producing an abundance of large, double white, wax-like blossoms of great beauty and renowned fragrance. Nothing else like it, and for delicate beauty and fragrance it is unrivalled. Price, 20c each; fine large plants, 35c each.

ASPARAGUS SPRENGERI.

**The Charming, New Decorative Plant,
ASPARAGUS SPRENGERI.**

Not only is it useful for cutting in sprays for fine cut flower work, more particularly in connection with large roses, etc., but grown in suspended pots it makes one of the prettiest decorative house plants we know of. Used in decorations as, for example, in the decoration of mantels, nothing can equal it. Price, 10c each.

ASPARAGUS PLUMOSUS NANUS.

ASPARAGUS PLUMOSUS NANUS.

One of the handsomest of our foliage plants. The leaves are a bright green, gracefully arched, and as finely woven as the finest silken mesh. Their lasting quality when cut is remarkable, retaining their freshness for weeks, hence it ranks as the most valuable plant we have for this purpose, surpassing Maiden Hair Fern in grace, fineness of texture and richness of color. See illustration. 15c each.

ONE EACH OF THE THREE ASPARAGUS FOR 30c.

ACALYPHA MARGINATA

ACALYPHA MARGINATA.

Dark bronze, with rose margined foliage. This variety equals the showiest varieties of Coleus in effect and has besides a decided advantage over any Coleus, namely, to be hardier, and not liable to wilt in the hottest and driest weather. 15c each; 2 for 25c.

**ASPARAGUS
TENUISSIMUS.**

We cannot too highly praise this beautiful plant. If so desired, it can be grown like a Smilax or on trellis. Its fine filmy foliage is indispensable in bouquets and will keep several days after being cut, without wilting or changing color. Is also very desirable for decorating along with other plants, when grown as specimen plants or in pots. It is of the easiest culture and will thrive with almost any kind of treatment. Price, 10c each.

ACALYPHA SANDERI.

A Magnificent New Decorative Plant,... **ACALYPHA SANDERI** **Chenille Plant....**

At Ghent, Belgium, this new plant won the distinction of being the most striking novelty exhibited. Of branching habit, the branches spread widely and throw out their long, bright crimson spikes 8 to 10 inches long between the green leaves in the most effective manner. A large plant with its crimson tassels is a sight not soon forgotten. You will miss one of the grand novelties by not getting this superb plant. Price, strong plants, 15c each; 2 for 25c.

PLEASE READ SCHEDULE OF CLUB RATES ON PAGE ONE BEFORE SENDING ORDER.

ABUTILON GOLDEN BELLS.

ABUTILON Or Flowering Maple. ❀❀❀

The Abutilon or Flowering Maple is a plant of as easy culture as the Geranium and quite as satisfactory. It is beautiful both in leaf and flower, and is very profuse in bloom. Price 8c each, except where noted.

Arthur Belsham—Has a long pendant flower of clear crimson, without markings, flower stems of unusual length and flower of good shape. A charming sort.

Boule de Neige—Pure white flowers of the real "bell" shape; dwarf and compact in growth, but strong, healthy and always blooming.

Driven Snow—Very large, wide open, pure white flower; the most effective white variety to date. Price, 15c each.

Eclipse—A new, variegated Abutilon. Foliage four times as large as the latter sort and beautifully variegated. Of robust growth, will stand the sun, and as an edger for sub-tropical beds it is unsurpassed, being distinct and a decided acquisition.

Golden Bells—Appropriately named. A well-grown plant of this variety has the appearance of being hung with abundance of glittering golden bells, making a fine contrast against the bright green leaves. A strong, handsome grower. Flowers bell-shaped, of a rich, golden-yellow. It blooms continually through the entire Summer.

Infanta Eulalia—It would be difficult to find a more unique flowering plant than this. Unlike the ordinary Abutilon of scraggy growth, it is very compact and short jointed, making a very neat pot plant. The flowers are the most beautiful we have seen among Abutilons, being very large, yet short and beautifully cupped, and of the most lovely pale satin-pink color imaginable. It produces its flowers by the score both summer and winter.

Rose-flora—Despite later introductions, the best pink variety we have seen. The clear rose or pink of its flowers is fresh and beautiful; free bloomer.

Royal Scarlet—Needs no other description than its name, which was aptly given. Very free and of excellent habit. Price 10c each.

Thomsonii Plena—New; has perfectly double flower that resembles in form a double Hollyhock. Color a rich, deep orange, shaded and streaked with crimson. The foliage is delightfully variegated. Price, 10c each.

Robert George—A free and continuous bloomer; flowers large, incurved, overlapping petals; orange, veined crimson; beautiful.

Souvenir de Bonn—A very distinct and striking new plant, with large, bright green leaves, distinctly edged with a pure white band. The long-stemmed flowers are bright orange, veined with crimson, and stand well out beyond the foliage, producing a very pleasing effect. An excellent plant for large vases and porch boxes.

ACHANIA MALVAVISCUS.

ACHANIA MALVAVISCUS.

From the time it is three or four inches in height the Achania blooms, mattering little what the season, but its best showing is usually in the Winter. The plant is always healthy, and blooms very freely when other flowers are scarce. The brilliant scarlet flowers are upright, peculiarly formed, and carried on the extreme end of the branches. Price, 8c each.

SWEET ALYSSUM.

ALYSSUM, DOUBLE WHITE

The trusses are enormous, measuring at times one inch in diameter and five inches long. The flowers are perfectly double and of delightful fragrance. Price, 8c each.

CALCEOLARIA

CALCEOLARIA CREOLE QUEEN

Produces in the Spring a mass of beautiful, pocket-like, crimson flowers. Price, 8c each.

AZALEA INDICA.

(Chinese Azalea.)

AZALEA INDICA.

Beautiful plants for window or conservatory decoration. Few plants reward the cultivator more liberally with bloom than these. The plants we offer are fine, shapely specimens, with well-formed heads, of the best and most distinct kinds. The colors include pure white, all shades of crimson, scarlet, purplish, salmon, and with exquisite variegations, mottlings, stripes, blotches, etc., etc. We have imported for this season an exceptionally fine lot of these plants, they are loaded with buds that will open in March and April. Must be sent by express as they are too large for mailing. Price, first size, fine large plants, three years old, 12 to 15 inches in diameter, \$1.00 each; second size, 10 to 12 inches in diameter, 75c each.

CISSUS DISCOLOR.

(Trailing Begonia.)

CISSUS DISCOLOR.

A climber with very beautiful foliage, deep velvety-green, mottled with white on the upper surface; under side of deep reddish purple. For trailing over the side of a window box, or grown on a trellis, it is one of the most odd and attractive plants. Price, 15c.

CYCLAMEN.

CYCLAMEN.

Cyclamen Album—The color is white, tipped at the base with rosy-purple. Price, 10c each.

Cyclamen Rubrum—Same as above except that the flowers are red. Price, 10c each.

CUPHEA PLATYCENTRA.

Cuphea Platycentra—(Cigar Plant.) This is a well known ever-blooming plant of neat habit, growing 12 inches in height. The tube of the flower is scarlet, with the end partly white and crimson. These plants thrive beautifully in hanging baskets, vases, etc. Being constantly in bloom, they are also valuable as pot plants in the window. Price, 8c each.

Clerodendron Balfouri.

We can safely recommend this great Clerodendron as one of the most satisfactory plants for window culture now known. It is a vigorous, rapid, healthy grower, and produces an abundance of blooms, which are bright crimson surrounded by pearly-white petals producing a striking contrast against the dark-green foliage. It can be used for a fine specimen pot plant, and can be grown to fine form by cutting off the ends of the growing shoots. A partially shaded position is conducive to rapid growth. Price, 8 cents.

CLERODENDRON BALFOURI.

PLEASE READ SCHEDULE OF CLUB RATES ON PAGE ONE BEFORE ORDERING.

..HYDRANGEAS..

NEW HYDRANGEA, OTAKSA MONSTROSA—

A grand novelty. Color of bloom intense rose, shaded white; borne in much larger clusters than in Otaksa, quite small plants bearing blooms of enormous size, and which are very lasting in quality. The variety is free in growth and very free in the production of bloom; one of the finest novelties of the year. Price, 15c each.

RED-BRANCHED HYDRANGEA, RAMUS PICTUS—

We consider this variety the most elegant Hydrangea for pot culture or for tubs grown. It is much handsomer than Otaksa, the foliage being darker green, with black stems, making it very distinct. Flowers rosy-carmine, changing to blue, the dark green foliage and purple-black stems being in contrast with rosy-carmine flowers. Price, 20c each.

PURE WHITE HYDRANGEA, THOS. HOGG—

A pure white variety, with trusses of flowers measuring fifteen inches in diameter. The plants, when full grown, attain a height and width of six feet. Perfectly hardy, and is one of the finest plants for cemeteries. Price, 10c each.

HYDRANGEA, SAPPHIRE—

In this we have what has so long been sought for, viz: A true blue Hydrangea. The plant is a strong but stocky grower, throwing out numerous trusses of bloom, formed of several rows of flowers, with petals of porcelain-blue color, and with large, almost flat, center, composed of multitudes of small flowers without petals, of the deepest azure-blue. Price, 10c each.

HYDRANGEA, HORTENSIS—

A well-known and favorite old plant, producing large heads of pink flowers in great profusion. It thrives best in a shaded situation, with a plentiful supply of water. Price, 10c.

HYDRANGEA, OTAKSA MONSTROSA.

OLEA FRAGRANS (Tea or Sweet Olive)

One of the most desirable flowering shrubs of Southern gardens. The white flowers, although small, are produced in clusters, and emit the most pleasing fragrance. It is well said that "each individual bloom has more sweetness than the most fragrant Lily." As a conservatory shrub for Northern florists, it will be found invaluable and of ready sale. The blooming period begins in the Fall and lasts for several months. It is of easy culture and especially desirable as a window plant. Price, first size 35c each; second size, 25c.

GIANT FLOWERED HELIOTROPE.

HELIOTROPES.

These are universal favorites on account of their delightful fragrance. Flowers equally well as bedding plants in Summer, or as pot plants in the house during the Winter. Price, 5c each; except where noted.

FLORENCE NIGHTINGALE—Splendid market kind; always healthy; flowers bright lavender; good truss.

MADAME DE BLONAY—Fine, large, strong foliage, producing very large trusses of pure white flowers.

MRS. DAVID WOOD—It is a very nice, distinct Heliotrope, with large trusses of violet flowers of light center.

ALBERT DELEAUX—Foliage is a bright golden-yellow, marked slightly with a delicate green.

MADAME BRUANT—Immense panicles of very large flowers, a rich purple with large white eyes.

NEW GIANT FLOWERED HELIOTROPE—Efforts to improve the Heliotrope have been persistently made by experts all over the world for a number of years, and at last these efforts have been successful; realization has surpassed the most ardent expectation. The size of the foliage and its quality are doubled; the habit of the plant is made compact and bushy instead of being scraggy and sprawling; the size of the flowers is magnified beyond belief, specimen heads measuring 10 to 15 inches across. (See illustration.) Price, 10c each.

DARK BOUQUET—The large flower heads are intensely dark, of the deepest blue in color, and most deliciously fragrant. The plants will flower freely during the Summer, and then can be removed to the house for Winter blooming.

PLEASE READ SCHEDULE OF CLUB RATES ON PAGE ONE BEFORE SENDING ORDER.

HIBISCUS.

LARGE growing tropical shrubs, with very glossy foliage. The plants, under the hottest sun, produce enormous flowers in great numbers, and make noble specimens. They can be grown in tubs and kept for years. The blooms average five or six inches in diameter, and are gorgeously colored. The plants can be wintered over in a warm, dry cellar. Price, 8c each; except where noted, any 4 for 25c

SINGLE FLOWERING.

COOPERII TRI-COLOR—Foliage beautifully variegated with dark green, pink and white; flowers crimson. This beautiful tri-color plant is one of rare magnificence, and is unequalled by any other plant in brilliancy of foliage.

DENISONII—The most distinct of all Hibiscus. On account of the difficulty in propagating it will always be scarce. Color a distinct carmine, and changes to pure white. Price, 15c each.

DECORUS—Foliage very large and lobed; flowers enormous, on long stems, of a beautiful rosy-carmine color; the stamens and pistils are very showy; the stigma is large, circular and golden-yellow.

GRANDIFLORUS—Rich, glossy foliage, blooming profusely through the Summer, literally covering the plants with scarlet-crimson single flowers.

MAGNIFICUS—Very large flowers, and of perfect form; color deep magenta, ends of petals touched with brown; foliage finely touched.

ROSA SINENSIS—Flowers red and very large, averaging nearly five inches in diameter.

VERSICOLOR—A variety combining in its flowers all colors of the whole family, being handsomely striped crimson, buff-rose and white.

DOUBLE FLOWERING.

MINIATUS SEMI-PLENUS—Semi-double flowers of a bright vermilion-scarlet; petals waved and recurved; the flowers noticeable for the absence of formality, but are very handsome.

ZEBRINUS—Double; outer petals scarlet, edged with yellow; inner petals very irregular, curiously variegated with creamy yellow-scarlet.

We can also furnish these varieties of Double and Single Hibiscus, except Denisonii, large, in two-year-old, well-branched plants, at 20 cents each, any three for 50 cents.

IMPATIENS SULTANI

This is the most distinct and beautiful of all flowering plants of recent introduction, either as a Winter-blooming pot plant or for the border in the Summer. It is of compact, neat habit of growth, with good constitution and a perpetual bloomer. Indeed, it is never without bloom. It will produce more flowers than any plant we have in our vast collection. The flowers are of a brilliant, rosy-scarlet color, of a peculiarly distinct, but most effective hue, and are produced singly or in twos and threes from the axils of the leaves, especially toward the summit of the stems, but so freely that a well-grown specimen appears to be quite a ball of fire. We recommend this highly. Price, 8 cents each.

MANETTIA VINE.

MANETTIA VINE Bi-color. A rapid and beautiful climber. The flowers are from 1-inch to 1½-inches in length, of a most intense bright scarlet, shading into flame, tipped with the deepest golden yellow, and covered with scarlet moss. Price, 8c each.

OLEANDERS

These old-fashioned shrubs are becoming immensely popular again. No plant makes more handsome specimens in tubs for the veranda or yard. Can be wintered in the cellar. Price, 15c each; the three colors for 40c.

OLEANDER ROSEA—Has double pink flowers. The old favorite. Very sweet.

LILLIAN HENDERSON—Has double white flowers of the largest size. Fragrant like the old double pink. Scarce.

LUTEA—Has double primrose-yellow flowers of a lovely shade; also fragrant.

New Golden-Flowered
Ever-Blooming Oxalis

OXALIS ORTGIESI

It is a shrubby plant, like a Geranium or Fuchsia, without buds, in which respect it differs from other Oxalis. It grows 12 to 18 inches in height, branching freely and loaded at all times with clusters of bright, golden, star-shaped flowers, which do not close at night, like other Oxalis. The leaves are three-lobed, dark olive-green above and a beautiful, shining, metallic crimson-purple underneath, wine-colored stems. Price, 10c each; three for 25c.

OXALIS ORTGIESI.

PLEASE READ SCHEDULE OF CLUB RATES ON PAGE ONE BEFORE ORDERING.

SANSEVIERIA ZEYLANICA.

Sansevieria Zeylanica.

This beautiful house plant is well adapted for decoration of sitting-rooms, halls, etc., as it stands dust and neglect of watering with impunity. Leaves as shown in illustration, grow to a length of from 3 to 4 feet; beautifully striped crosswise with broad, white variegation on a dark green ground. A rare and beautiful plant, and should be abundantly grown for positions out of sunlight where other plants do not thrive. Price, small plants, 10c each; large handsome plants, 25c each.

PHRYNIUM VARIEGATUM.

LANTANA—
MONFECK.

PHRYNIUM VARIEGATUM.

It is impossible to convey by description or cut anything like a correct idea of the great beauty of this new ornamental foliage plant. Its habit of growth is almost precisely like the Canna, and it grows from a tuber, which may be wintered dry—like a Gladiolus—if desired, or it may be kept growing the year round as a pot plant. The Canna-like shoots grow from a foot or eighteen inches to three feet high, and the leaves, which are spreading blades of oblong, lanceolate form, are from six to ten inches long and two to five inches broad. They are bright, pale green, beautifully variegated with pure white and rich cream, the variegations being extremely diversified. In some leaves the whole area is pure white or rich cream color, in others only one third or one half, in others again it is reduced to a few stripes or faint lines—and all of these variegations in one plant. It is very free-growing, and one of the most ornamental plants imaginable, either for pot culture or for bedding out. It is a grand plant to border Canna beds with, standing the full force of the sun's rays. Indeed, the fiercer the sunshine the more perfect are the variegations of the leaves. Fine plants, 15c each.

LANTANAS,

Or Shrubbery Verbenas, the
Finest Plants That Grow.

Price, 8c each; set of 6 for 40c.

ALBA PERFECTA — Pure white; very fine.

HARKETT'S PERFECTION — A new variety, with beautiful fresh and yellow flowers and golden variegated foliage.

LA PLEURD'OR — Small, pure yellow flowers, very dwarf and bushy; very abundant bloomer. This will please you.

MICHAEL SCHMIDT — Flowers fresh and sparkling, of a brilliant yellow, passing into purple vermillion.

MONFECK — Light lilac; with a pinkish center; a true bi-color; superb.

NEW WEEPING LANTANA — Fine for baskets, vases, pots or window boxes. Produces a great abundance of delicate, drooping leafy vines, covered nearly all the time with clusters of lovely lilac flowers with white eyes.

Please Read SCHEDULE of CLUB RATES on Page 1 Before Ordering.

THREE.....
BEAUTIFUL

PLUMBAGOS

LIGHT BLUE, CREAM WHITE
AND DARK BLUE. ❁ ❁ ❁ ❁

The Plumbagos are always satisfactory plants, either for pot culture or for the garden. They are constant bloomers, and their delicate and graceful flowers are very useful for cutting.

CAPENSIS ALBA

The counterpart of Plumbago Capensis, excepting in color which is creamy white. A constant bloomer. A splendid new sort. Price, 10c each.

CAPENSIS.

A well known favorite, and always valuable because it produces large trusses of beautiful light-blue flowers. Price, 10c each. See illustration.

LADY LARPENT.

The Hardy Plumbago

This beautiful variety of Plumbago (*P. Larpentæ*) is unquestionably the most distinct and valuable hardy herbaceous plant now in cultivation. The plants are strong, upright in habit, growing to a height of 12 to 15 inches in compact clumps, and from the middle of July until severe frosts are covered with rich, violet-blue colored flowers, borne in close terminal heads. The foliage is unique, finely serrated and fringing the stems. We heartily recommend this fine variety for edging walks, beds or borders, or single specimens set in mixed flower vases or beds, where they appear in lovely contrast with other flowers. Price, 10c each.

THESE THREE FINE PLUMBAGOS FOR 25 CTS.

PLUMBAGO CAPENSIS.

RUSSELLIA JUNCEA.

A rare and not well-known plant, suitable either for garden or pot culture, and requiring the same treatment as a Geranium. In growth it produces numerous long, wiry stems which are virtually leafless. Upon these stems and branches the flowers are borne. They are about the size of a Manettia, long, trumpet-shaped and brilliant scarlet in color. These lovely blossoms are borne in wonderful profusion during most of the year. It is one of the easiest of all plants to grow, and is particularly valuable for baskets. See illustration. Price, 10c each.

STROBILANTHES DYERIANUS.

STROBILANTHES DYERIANUS.

This plant will undoubtedly become universally popular on account of its brilliant and exquisite coloring, its extraordinarily easy growth and usefulness as a decorative plant. It surpasses the finest Coleus, Begonias or Bertolonias in the exquisite coloring of the leaves besides which the long racemes of lovely violet blossoms, with which the plant is covered in mid-winter, greatly enhance its value, beauty and usefulness. The undulation on the surface of the foliage is furnished with a blueish metallic hue, shading into light rose with a light green margin. It will prove a valuable acquisition, both as a bedding and decorative plant. See illustration. Price, 10c.

RUSSELLIA JUNCEA.

PLEASE READ SCHEDULE OF CLUB RATES ON PAGE ONE BEFORE SENDING ORDER.

Double Fringed Petunias.

The double Petunia is one of the finest bedding plants for massing, mixed borders or for vases. The brilliancy and variety of its colors, combined with the duration of its blooming period, render it invaluable for garden decoration. Our collection is unsurpassed for brilliancy of color and size of bloom. It includes all the brightest shades of pink, purple, rose, white, etc. Name the color you want. Price, 10c each; three for 25c.

DOUBLE FRINGED PETUNIA.

The Baby Primrose

It is a wonderfully free-blooming plant, commencing to flower as soon as born. It forms a dense rosette of somewhat fleshy leaves from which spring the flowering stems, 12, 15 and even 20 inches tall, supporting three tiers or whorls of dainty flowers of a delicate rosy-lilac, with eye of pale gold. The flowers are not more than half an inch in diameter, but they are produced in such great abundance that a few plants present a dense mass of bloom, which continues without interruption and with increasing vigor from September

BABY PRIMROSE.

until June. The plant then is benefited by a rest; and having now formed a dense clump, it is desirable that it be divided and the stock increased thereby, each plant making 10 to 12 divisions. As a pot plant it cannot be surpassed. Price, 8c each; 4 for 25c.

- - Chinese Primroses - -

Few plants give better satisfaction than the Primrose, especially for Winter blooming, for which it is particularly adapted. It should be kept in a cool place; a north room is best. There is no plant that will produce more flowers during Winter than the Primrose. Our Primroses are large flowered and beautifully fringed, and we are confident will please you. Price, 8c each; 4 varieties, 25c; the set of 7 varieties, 50c.

Alba Magnifica—This new white Primula is of magnificent form and substance, and a great improvement on the old varieties. The flowers measure two and one-fourth inches in diameter, are a pure white, with a large bright yellow eye, each petal being deeply and beautifully fringed.

Azure Blue—The color is a beautiful rich blue, and the flowers of elegant form and substance.

Coccinea—Bright red, large flowers, beautifully fringed.

Chinese Blotch—Blotched and beautifully striped with white and red, hence its name "Blotch." Very fine.

Rubra—Purplish red, white eye; fine, strong grower.

Ruby King—Elegantly fringed, and of a rich, purplish-red color, with a small yellow eye.

Snow Queen—A pure white variety, the flowers so overlapping that it well-nigh resembles a gigantic double.

SINGLE CHINESE PRIMROSE.

MEXICAN PRIMROSE.

The Beautiful Mexican Primrose

A charming basket or pot plant just brought to notice by extensive advertising. It is certainly a very worthy plant, and indispensable to every collection. Flowers of a beautiful bright clear pink color, veined with scarlet, and with a bright center. The superb color, combined with airy grace and beautiful form, goes to make a flower which is in beauty perfection itself. The plant seldom grows over ten inches in height, but inclines to a trailing habit, spreading its branches out over the ground or drooping over the sides of the pot. We offer nice plants at 8c each; 4 for 25c.

PARIS DAISIES - or - MARGUERITES

We would advise our customers to plant these Daisies largely. A half dozen or a dozen plants will be a constant source of delight.

New Paris Daisy, Mme. Gailbert—(Marguerite.) This is one of the finest new plants that has ever been introduced. Nothing can be imagined that is finer. All know the old varieties of Paris Daisies—how beautiful and much sought after for decorations of all kinds. The new variety blooms constantly, and will produce ten blooms to the old variety's one. Nothing is so airy and graceful as these blossoms of large, white petals, showing a yellow disc. Price, 8c each; four for 25c.

Etoile D'Or—(Marguerite.) The yellow Paris Daisy, similar to the Mme. Gailbert, but a rich golden color. The two varieties go handsomely together. Price, 10c, each; three for 25c.

BLUE DAISY.

BLUE DAISY

Agathe C. leslis—The flowers are Daisy-shaped, of a delicate light blue, with a yellow disc. It blooms in great profusion from November to April, and makes a novel and pleasing feature in any collection of plants. 10c; 3 for 25c.

PASSIFLORA..... PASSION FLOWER

Climbing Plants for Greenhouses and Windows. ❀ ❀ ❀ ❀

Pfordi—A beautiful sort; blue flowers. Price, 10c each.

New Hardy Passion Flower, Constance Elliott—This beautiful variety has flowers very large and pure ivory-white. Excellent for cemetery purposes. Price, strong plants, 10c each.

RIVINA HUMILIS

A very pretty plant on account of the long racemes of bright scarlet berries with which it is loaded at all times of the year. It grows like a weed, and begins to bloom and fruit when very small. It is exceedingly ornamental both Summer and Winter. Its beauty being so entirely unlike that of other plants, it is always an odd and attractive object in any collection. Price, 8c each.

PASSION FLOWER.

PARIS DAISY, MME. GAILBERT.

THE GIANT FLOWERING PANSIES

IT IS impossible to do justice to these lovely flowers in a printed description. Cold type cannot convey an idea of the indescribable richness, the varied and exquisite coloring, the large size, perfect form and great substance of the blossoms. Plants are compact and bushy, and produce great quantities of flowers, borne well above the foliage on strong stems. Owing to their vigor, this strain withstands the hot and dry weather better than any other variety, and produces its great beautiful blossoms in profusion all Summer. The plants we offer are from seed of selected flowers of the Giant Trimardeau, Bugnot and Cassier strains in the following named colors: Brilliant fine red, margined, striped, golden, purple, black, white, violet and gold.

Price, 3c each,
30c per dozen.

PLEASE READ SCHEDULE OF CLUB RATES ON PAGE ONE BEFORE SENDING ORDER.

VIOLETS

freely where it is too warm. If left in the open ground during Winter protect with a covering of leaves.

Of all the delightful perfumes, that of the Sweet Violets is the most delicate and pleasing. If grown in the house for Winter flowers, they should be kept at a low temperature, as they will not bloom

Lady Hume Campbell—A nice forcing variety, under good conditions the equal of Marie Louise in color and size of bloom. Its excellent merit is its strong, healthy constitution. Growers have found this variety apparently entirely free from the diseases which destroy other varieties. Price, 10c each.

Marie Louise—Baby Blue—To contrast with white, we offer this double, deep bluish-purple, sweet-scented variety Desirable for pots or gardens. Plants hard and bloom freely. This variety is planted more largely by florists than any other 10 cents each.

California—The largest of all Violets. This is the largest and most productive Violet in cultivation. For richness and purity of color and fragrance of flower, it is immeasurably superior to all other single blue varieties. It is a single flower, and while almost as large as a silver dollar, it has that sweet simplicity peculiar to the Violet. The color is pure rich Violet-blue that does not fade. Extremely free-flowering, a single plant producing hundreds of flowers throughout the season. 10 each.

Princess of Wales—New French Violet. It is of hardy, vigorous growth and wonderfully free blooming. Large, heavy foliage. The grand single flowers are true blue, of a round symmetrical form, almost as large as *Pansies*, and delicately fragrant; as large as California. Price, 10c each.

One each the five Violets for 40 Cents.

Mammoth Verbenas

The Verbena is one of the prettiest and most popular of all flowering plants suitable for forming beds on the lawn. Commences to flower and spread from the first day plants are set until late in Autumn, every day becoming better and more handsome. Colors range through all the different shades of scarlet, purple, crimson, pink, blue, white, etc. Price, 5c each; 50c per dozen.

VIOLET, CALIFORNIA.

VIOLET STANLEY WHITE.

Swanley White—This violet is no doubt the best white variety known; equally desirable for house or garden culture; vigorous and healthy, bearded in great profusion large pure snow-white, perfectly double flowers, exquisitely fragrant. Price, 10c each.

TYPE OF MAMMOTH VERBENAS.

ALOYSIA CITRIODORA

Lemon Verbena—Foliage delightfully fragrant. To simply brush against it is enough to scent an entire room with its delicious lemon odor. Planted out of doors it grows into a fine large clump, and it can be taken up in the Fall and wintered over in the cellar. Price, 10c each.

ANTHERICUM VITATUM FOLIA VARIEGATA

A beautiful plant, with recurved, graceful foliage, which attains a growth of about three feet. The leaves are dark green, beautifully marked with broad stripes and bands of a creamy-white color. Price, 10c each.

AGERATUMS

Very free-blooming plants, suitable for either Summer or Winter bloom, and bearing their flowers in great profusion. They are of the easiest possible cultivation, requiring but ordinary care. Very useful for bedding or borders, flowering continually during the summer.

The Grand New Ageratum, "Stella Gurney"—A short, compact grower, well branched and extremely free-blooming. The individual tufts are very large and dense, and the color is the most intense blue of as an agreeable shade as we have ever seen in Ageratums. Price, 5c each.

New Ageratum, Princess Pauline—A novel variety, dwarf, compact habit. Its peculiarity consists of both blue and white being combined in the same flower, the body of the flower being white, while the stamens, forming an outer ring, are sky-blue, giving the flower a pretty variegated appearance. Price, 5c each.

GESTRUM, or Night-Blooming Jasmines

These beautiful shrubs are cultivated for the delicate fragrance of their elegant flowers, which are borne in clusters. Of easy cultivation.

Laurifolium—A handsome plant, with large, glossy foliage and pure white flowers. Price, 8c each.

Aurianticum—A Winter-flowering variety of night-blooming Jasmine, with pure orange-colored flowers. Price, 15c each.

Parqui—An excellent garden plant, growing rapidly. Foliage long and of a deep green color. Produces its richly fragrant flowers at every joint. Sweet only at night. It is also well adapted to house and window culture. Price, 15c each.

GOCOLGBA PLATYGLADA

A plant of very singular and interesting growth, stem and branches growing in flat, broad joints. Well suited for vases and rustic work. Price, 5c each.

FEVERFEW—Little Gem

This sort is valued very highly, surpassing the old sort in every way. It is very dwarf, attaining a height of twelve inches. The flowers are large, of perfect form, and of the purest white. Splendid for cutting. Price, 8c each; three for 20c.

GERMAN, or PARLOR IVY

A rapid-growing and succulent plant, well adapted for covering trellis work quickly or training in the parlor. Leaves glossy green and flowers yellow, in clusters. Price, 5c each.

BOUGAINVILLEA GLABRA SANDERIANA

Often called "Chinese Paper Plant," on account of the lasting quality of the flowers (or bracts). The color is soft, rosy crimson, when in full bloom the plant is both beautiful and interesting. Is easily cultivated and may be trained to grow in any position. Price, 15c each.

ERANTHEMUMS

Laxiflorum—Foliage green, flowers purplish-violet, very profuse. Price, 5c each.

Pulchellum—A splendid Winter-blooming plant. Flowers of a rich, deep blue color. Price, 5c each.

Pictum—This variety has charming foliage of bright green, penciled and interlaced with silver. Very ornamental. Price, 5c each.

GOLDFUSSIA ANISOPHYLLA

Dark green leaves and spikes of funnel-shaped flowers, of a pale lilac color, blooming most of the Winter. Grows luxuriantly and makes a charming pot plant. Price, 5c each.

GLECHOMA HEDERACEA

(Variegated Ground Ivy.) The foliage of this charming novelty is bright green, marked with pure white, and has a refreshing fragrance, similar to mint. Price, 8c each.

JUSTICIA

Justicia Carneae—*Justicia Carneae*, or Brazilian Plume plant, is a strong, rapid grower and throws up long stems on which are produced fine, plume-like pink flowers, the ends of each petal drooping in a most charming manner. Either for house or outdoor culture. Price, 10c each.

Justicia Sanguinea—Light red flowers. Price, 10c each.
Justicia Hydrangoides—Large flowers, lilac and white. Price, 8c each.

The three *Justicias* for 25c.

LINUM FLAVUM

A plant of extremely neat habit, growing about one foot in height, with flowers of pure yellow, nearly two inches in

diameter, almost covering the plant when in full bloom. Price, 10c each; three for 25c.

LINUM TRIGYNUM

A Winter blooming plant of great beauty, producing in the greatest profusion very large and showy blossoms of bright yellow color. The plant is a complete mass of bloom for a long time during Winter, and is one of the most beautiful Winter bloomers it is possible to have. The flowers are about the size of a Morning Glory, and no matter how small the plant is, it will bloom profusely. Price, 5c each; six for 25c.

LOPESIA ROSEA

Small spider-like flowers, of a beautiful rose color. One of the most persistent Winter-blooming plants that we have. Of the easiest culture. Price, 5c each.

LAURUSTINUS

A beautiful ornamental evergreen shrub, with white flowers that are rose-colored in the bud. It is of easy cultivation and keeps in flower nearly the whole winter. It thrives finely in the Southern States, planted in the open border. Price, 20c each.

MADERIA VINE

The most liked of all climbers. The leaves are light green above and rosy-chocolate underneath; flowers white and deliciously fragrant. Grows well in garden or pot, hanging baskets or vases. Makes fine shade for verandas. Give tubers same care as Dahlias. Price, 5c each.

PILEA SERPÆFOLIA

(Artillery Plant.) Graceful, frond-like leaves. When in flower produces a snapping sound when water is thrown on the leaves. Price, 5c each.

POMEGRANATES

These make lovely ornaments for the lawn, growing into large, shapely shrubs. They are used extensively in the South for hedges. Foliage is small, flowers double and very pretty. We have two varieties—Double White and Double Variegated, 5c each.

PITTIOSPORUM TOBIRA

An evergreen Winter-blooming shrub, of easy culture, producing small, white flowers of exquisite fragrance, not unlike the orange. Suitable for house culture. Nice plants. Price, 10c each.

SALVIA—Flowering Sage

The *Salvia* is of easy culture, attaining a height of two to three feet. The flowers are very attractive; are fine for bedding, the scarlet variety especially. Price, 8c each; set of six for 40c.

Salvia, Mrs. Stevens—A new variety with brownish-red flowers.

Alba—A white variety of *Splendens*, identical in every respect, except in color, which is pure white.

Splendens Variegata—White and red flowers, very evenly striped.

Rutilans—(Apple-scented.) Beautiful spikes of magenta colored flowers, graceful foliage; scented.

Salvia Splendens—The standard sort for bedding; flower spikes of the most brilliant scarlet.

New Dwarf Scarlet Salvia, Le President—The grandest addition to our list of bedding plants. It forms a compact bush completely covered with rich, scarlet flowers. We have had plants that by actual measurement were only fifteen inches high and two feet across. As a border or vase plant it will be indispensable, and as it will bloom abundantly in pots, it will be of the greatest value as a market plant for florists. 10c each.

SAXAFRAGA SARMENTOSA, or Beefsteak Plant

A handsome plant of low habit, leaves nearly round and striped freely with silvery bands. Blooms white, of great beauty, and borne in spikes nearly twelve inches high. Adapted for hanging baskets, vases, etc. This is also known as Strawberry Geranium. Price, 8c each.

SMILAX

For using as a green with cut flowers this vine has no equal, its hard texture enabling it to keep for several days without wilting after being cut. It is also fine as a parlor or window plant. 5c each.

SCUTTELLARIA PULGHELLA

A neat house plant of easy culture. It makes a desirable Winter-blooming plant, at which time it produces dazzling red flowers, profusely terminal in spikes. Price, 8c each.

STREPTOSOLEN JAMESONI

The flowers are lobed, nearly one inch in diameter, opening bright orange and passing to a rich, deep, cinnamon-red. It commences to bloom early in March, continuing quite full all through June and July. Price, 5c each.

SOLANUM JASMINOIDES GRANDIFLORUM

A beautiful plant of climbing habit, attaining a height of three to five feet, but can be grown in bush form. Its flowers are star-shaped and borne in clusters, large, pure white, with a violet tinge on back of petals and on the buds. In pots it is a continuous bloomer, both Summer and Winter. Price, 10c each.

SILVER STRIPED PEPEROMIA.

Silver-Striped Peperomia.

So thick and waxy-like are the leaves of this parlor gem that nearly every one takes it to be an artificial plant. The leaves are distinctly variegated white and green, and have the appearance of being powdered with frosted silver. Few plants could be more useful for table decoration, and none will stand ill-usage so readily. Its small spikes of Mignonette-like flowers are quite interesting. Price, 10c ea; h; 3 for 25c.

Umbrella Plant.

An ornamental grass, throwing up stems about two feet high, surmounted at the top with a whorl of leaves, diverging horizontally, giving it a very curious appearance. Splendid for the center of vases or as a water plant. Price, 8c each; 4 for 25c.

UMBRELLA PLANT.

VINCA—The Most Popular Basket Plant.

More Vincas are used in vase and basket work than all other vines combined. We offer two varieties:

VINCA—Harrisoni.

A drooping plant much used in vases or baskets; center of leaves marked light green. Price, 8c ea h.

VINCA MAJOR—Variegata.

A beautiful variegated trailing plant. The leaves are a glossy-green, broadly margined a creamy-white; flowers blue. Price, 8c each; fine plants from three inch pots, 15c each; extra fine from four inch pots, 20c each.

Our Liberal 50 Cent Collections.

WE GROW only the best sorts of plants in large quantity. The kinds below named we can afford to sell at greatly reduced rates, but make **one invariable condition that the selection of varieties must be left entirely to us.** These collections are made up of fine, strong plants of the best varieties. Every plant is plainly labeled, and there are no two varieties alike in the same collection. When ordering use the Collection number only. We cannot make any change in these collections, and the Club Rates do not apply to them.

For 50c we will send, postpaid, any one of the following collections; any three collections for \$1.25; any five collections for \$2.00. (REMEMBER, these collections must not be included in Club Rates.)

Collection 1—12 beautiful ever-blooming Roses. In this collection we will send the very best varieties and such as will give the best results in your locality.

Collection 2—10 lovely Carnations. A fine assortment of the newest and best; large, double and sweet.

Collection 3—10 double flowering Geraniums. All different.

Collection 5—5 double and 5 single Geraniums. In assorted kinds; best varieties.

Collection 7—10 newer Begonias. We have an extra fine lot of flowering Begonias, and will send an elegant assortment in this collection.

Collection 8—12 superb Chrysanthemums. All new varieties and different colors.

Collection 10—10 assorted Flowering Plants for pots. Try this collection; it will surprise you.

Collection 13—12 double white Pearl Tuberoses.

Collection 14—12 assorted Gladiolus Bulbs. A fine mixture.

Collection 15—10 Hibiscus. Double and single flowers.

Collection 17—1 ever-blooming Tea Rose, 1 Abutilon, 1 flowering Begonia, 1 Carnation, 1 Chrysanthemum, 1 Geranium, 1 Heliotrope, 1 Hibiscus, 1 white Moonflower, 1 sweet-scented Jasmine, 1 Salvia, 1 Strobilanthes.

Collection 20—6 Cannas, including the giant "Austria."

Collection 21—2 ever-blooming Roses, 2 flowering Begonias, 2 fragrant Carnations, 2 large flowering Chrysanthemums, 2 Geraniums, 1 Lantana, 1 Otaheite Orange.

Our Special 50c Collection of Flower Seeds.

This collection is made up with our usual large-sized packets of choice fresh seeds. They are put up ready for shipment before the rush of the busy season, consequently no changes can be made in them. **25 popular varieties of Flower Seeds**, consisting of one packet each, of Sweet Alyssum, Antirrhinum, Asters, Balsams, Calliopis, Candytuft, Convolvulus, Datura, Dianthus, Euphorbia, Variegata, Godetia Mignonette, Phlox, Drummondii, Sweet Peas, Verbenas, Dwarf Nasturtiums, Tall Nasturtiums, Zinnas, Poppies, Petunias, Portulacas, Sunflower, Cypress, Vine, Gaillardia, Balloon Vine.

Any 12 of the Above Named Varieties of Seeds for 25c.

These collections must not be selected as premiums or included in Club Rates.

Odorless Fertilizer for Pot Plants**Makes Flowers Flourish**

Flowers are like people. Their health depends upon their food. It must be nourishing, but not too rich to force growth and cause reaction. The one chemically correct flower food for house plants is

Walker's Excelsior Brand.

It has no odor whatever, and can be used dry or dissolved in water for sprinkling. Use it and your flowers will flourish and their health will last.

Small size, feeds 25 plants 6 months, 35c; large size, enough for a year 50c. Sent prepaid anywhere. With each package we send FREE the book "HOW TO MAKE THE WINDOW GARDEN A SUCCESS."

**SUCCESS WITH HOUSE PLANTS**

BY LIZZIE PAGE HILLHOUSE.

A text-book, the result of practical experience, that, faithfully followed, will enable every lady to keep her home attractive with dainty and fragrant flowers. Price, cloth, \$1.00; paper, 50c.

FLOWER QUERIES.

SUMMER FLOWERING BULBS.

Gladioli, or Sword LILY.

The Gladiolus is the most attractive of all the summer flowering Bulbs, and deserves a place in every garden as it is sure to flower and do well with very little care. It has no insect enemies or diseases. The flowers are of almost every desirable color. By cutting the spikes when two or three of the lower flowers are open, and placing them in water, the entire spike will open in the most beautiful manner. Set the bulbs from six to nine inches apart and about four inches deep. Plant from middle of April to first of June. It is a good way to plant at two or three different times, ten days to two weeks apart. This will give a succession of blooms from July to November.

SIX OF THE MOST BEAUTIFUL GLADIOLI.

Price, 15c each, the whole set of 6 for 75c.; postpaid.

IGUSTA—This grand novelty is absolutely pure snow-white, the only pure white Gladiolus in existence. It also has large, well open flowers, and an enormous spike of the most perfect and beautiful shape.

ADDISON—Dark amaranth, with white stripes.

FATIMA—Very large flowers of ivory white ground, profusely striped with bright rosy-salmon; violet blotch.

TENNELS 1900—A new late red; very fine.

MRS. BEECHER—Beautiful deep rosy crimson. Large well opened flower, with pure white throat, freely marked and spotted.

HAKESPEARE—White, very slightly suffused carmine-rose; large rosy blotch.

SEVEN EXCELLENT NAMED GLADIOLI.

Price, 6c each; set of 7 for 35c.

BRENCHLEYENSIS—Firey scarlet. Very early bloomer and one of the most popular kinds.

CERES—Pure white, streaked and spotted lilac.

ISAAC BUCHANAN—Fine yellow; one of the best.

JOHN BULL—Ivory white, tinged with yellow and lilac.

MARIE LEMOINE—Long spikes of well-expanded flowers; upper divisions of a pale creamy color, flushed salmon lilac, the lower divisions spotted purplish violet, bordered deep yellow. Hardy.

MAY—Makes a large spike of well-expanded flowers much like that famous old variety, Eugene Scribe. White, edge of petals delicately touched with pink, the two lower petals penciled with a peculiar light brown.

NAPOLÉON III—Bright scarlet; center of petals white striped

GLADIOLI UNDER COLOR.

Price, 4c each; 12 for 40c.

PINK—This class comprises a wide range of color, from bright orange and very deep rose through various shades of pink to light rosy-blush; large, well formed flowers.

SHADES OF RED MIXED—This mixture embraces various shades of red, makes a very bright effect in bedding.

WHITE AND LIGHT—Containing the very lightest colors in Gladioli, some of them very nearly pure white.

YELLOW—Various shades of yellow and golden; among the most beautiful of all Gladioli.

VARIEGATED—Most brilliant color and marking; very handsome and striking.

GLADIOLI.

OUR "SUPERB" MIXTURE OF SELECT GLADIOLI.

This mixture includes all colors found in Gladioli. We recommend a free and liberal planting of these; they are so good and so cheap that we know the bulbs will give a magnificent return, while the spikes of bloom are always in demand as cut flowers. Price, 2 for 5c; 12 for 25c.

All the above will be delivered postpaid on receipt of price. They will be found very useful for bedding and also for cut flowers in abundance.

MARYLLIS—A beautiful class of free flowering bulbs, bearing large clusters of Lily-like flowers of large size and rich coloring. Bulbs should be potted in rich, sandy loam, with good drainage. They require abundant moisture when growing.

AMARYLLIS FORMOSISSIMA

AMARYLLIS FORMOSISSIMA—There is hardly a flower which has such a deep, rich, velvety-crimson color so intensely brilliant as this. A free bloomer and succeeds well either in pots or in the open ground. Generally blooms within a month after planting. Price, 10c each.

AMARYLLIS TREATA, THE BEAUTIFUL FAIRY LILY—Stems about a foot high. Flowers very large, pure white; sweet-scented. Bulbs do not grow very large. It is perfectly hardy south of Baltimore; can be left in the open ground over Winter. In the Northern States the bulbs should be lifted in October and stored in the cellar over Winter, like Gladioli, or they can be planted in pots. Beautiful plants either for Summer or Winter. Price, 5c each; 6 for 25c.

OXALIS—Beautiful for edging walks in the garden. Plant them three inches apart, and they will make a solid mass of foliage and flowers. They are easily grown thus or in pots.

LASIANDRIA—Beautifully cut foliage and rosy-pink flowers.

DIEMPA—Beautiful clover-like foliage; pure snow-white flowers.

ROSEA—Old rose or salmon.

PURPUREA—Purple.

Any of these kinds, 10c per dozen; 3 dozen for 25c.

BORDER OF OXALIS.

HARDY LILIES....

AURATUM.

TIGRINUM, fl. pl.—Double Tiger Lily.

This magnificent Lily is borne in immense clusters on tall stems; the flowers are very large; frequently six inches across, and very double; color, deep fiery red, spotted with black; any illustration gives but a faint idea of the showiness of this superb Lily. Price, 10 cents each; 6 for 50 cents.

LILY LONGIFLORUM.

PLEASE READ SCHEDULE OF CLUB RATES ON PAGE 1 BEFORE ORDERING.

COPYRIGHTED 1889
BY A. BLANC PHILA.

LILIIUM.

SPECIOSUM.

LILIIUM AURATUM

The Golden-Rayed Lily.

This grand Summer-flowering sort is now considered the Queen of the Lilies. It produces its handsome richly-colored flowers in large clusters, as shown in the engraving, and blooms profusely from June to October. When expanded, flowers measure from 8 to 10 inches in diameter; are composed of 6 pure white petals, each of which is distinctively striped the whole length with a clear yellow golden band and thickly studded with rich crimson spots. Gracefully formed, deliciously fragrant. Large, sound bulbs, imported direct from Japan. 20c each; 3 for 50c.

LONGIFLORUM.

(Bermuda grown.) Widely used for forcing for Easter holidays. Its flowers have more substance and last longer in bloom than the Bermuda Lily. Quite hardy and beautiful in the open ground, blooming in June and July. Flowers snow-white, and trumpet-shaped; very fragrant. Price, 15c each; three for 40c.

LILY SPECIOSUM RUBRUM.

One of the most popular and satisfactory of all Lilies; is considered by many as the finest of all Lilies. Flowers are bright crimson and white spotted. Splendid large flowers borne in clusters, stem two to three feet. Price, 20c each; three for 50c.

TIGER LILY.

SPECIOSUM MONSTROSUM ALBUM—Among the showiest of all Lilies, and perhaps the most robust and the most radiantly beautiful. Very fragrant and hardy, with broad, flat stems and immense heads of flowers, often fifty flowers in a cluster. No garden complete without some. Price 20c each; 3 for 50c.

❀ ❀ TUBEROSES ❀ ❀

TUBEROSES will not bear much cold. Do not plant in the Spring till the ground is warm. They may be started in a warm place, but care should be taken that they get no check in setting out. Plant three or four inches deep in rich ground. If danger of frost before flowers are done in the Fall, lift carefully without disturbing the roots, and plant in pots and boxes and remove to a warm, light place, and they will continue to bloom for a long time.

Dwarf Excelsior Pearl—A splendid variety, the finest ever introduced; greatly superior to the common Pearl; grows about 18 inches high, blooms very early, matures perfectly; flowers pure white, large size, very double and intensely sweet. Large, well-ripened bulbs, the finest ever grown, all sure to bloom. Price, 3c each, 4 for 10c; extra large bulbs, 6c each; 5 for 25c.

Zephyranthes, or Atamasco Lilies

The Zephyranthes, or Zephyr flowers, are becoming very popular. Their growth is low and neat, flowers abundant and pretty. Increase rapidly and make neat borders to other bulb beds, and can also be grown in pots if wished for winter blooming. South of the Ohio are hardy and need not be lifted in the Fall. Zephyranthes are gems of great beauty, their large Lily-like blossoms being always attractive and exquisitely beautiful.

Rosea—Large, Lily-like flowers of a lovely rose-pink; free bloomer; exceedingly beautiful. Price, 15c each; two for 25c.

Sulphurea—This rare variety grows taller than the others, and has large beautiful flowers of a clear, brilliant, sulphur-yellow. It is very fine, indeed. Price, 15c each; two for 25c.

Hyacinthus Candicans

A very stately bulbous plant, with large Yucca like leaves, growing as high as four feet. The flowers are pure white, pendant on long, whip-like stalks, strong bulbs giving two or more spikes; the number of flowers vary from twenty to sixty on each. The appearance is more like Giant Snowdrops than Hyacinths, and as a plant for distant effect it vies with Yucca Filamentosa. With us the plant is perfectly hardy, and grows stronger each year. It is very suitable for cemetery decoration, for centers of beds, or for grouping wherever it can have room to display its very distinct and expressive character. Price, 8c each.

GLOXINIA
GLOXINIAS.

Charming plants, dwarf habit. Flowers in profusion, often two to four inches across, of the most exquisite and gorgeous colors, magnificently spotted, mottled and blended. By starting at intervals produce a succession of flowers nearly the whole year.

We Offer Following Named Sorts:

- Corona—Variegated.
- Defiance—Glossy red.
- Fire King—Brilliant scarlet.
- Kaiser Frederick—Red with white margin.
- Kaiser Wilhelm—Blue with white margin.
- Queen Victoria—Pure snow white.
- Viola—Violet.

Price, 15c each; 2 for 25c. Mixed, all colors, 10c each; 3 for 25c.

DWARF PEARL TUBEROSE.

DAHLIA.

DAHLIAS.

We may safely say that perfection has been attained with this splendid flower. Its form cannot be improved and its colors are beautiful, even magnificent. The Dahlia succeeds best in a strong loamy soil, and if the soil around the plant is mulched with coarse manure it will assist them very much during the heat of the Summer. Plants should be set about four feet apart. When sent out, we shall send strong plants, well sorted, ready to put out in open ground for rapid growth and early bloom. Price, 15c each; six distinct new sorts, 75c.

HARDY PERENNIAL PLANTS

LILY OF THE VALLEY.

You should choose a partially shaded place in the garden and plant the roots about 6 inches apart and 2 inches deep. For Winter blooming, pot in December and place outside in a shady place; allow them to freeze one or twice, then bring into the house, where they can be forced into exquisite bloom in a short time. Extra select large flowering bulbs, German grown, strictly first-class stock, 3c each; 30c per dozen.

NEW ACHILLEA, The Pearl.

A hardy perennial, the top dying down to the ground every Winter. A plant will produce hundreds and even thousands of flowers the first Summer, but when established the second year frequently have more than 500 flowers on at the same time. It commences to bloom early in July, is a perfect mass of beautiful flower still frost, the same bloom keeping perfect two or three months. Its flowers are pure white, perfectly double and produced in large sprays, making it one of the finest cut flowers for bouquets, vases, baskets, etc., or for any kind of decorations. For cemetery planting it is the most valuable of all flowers.

10c each; 3 for 25c.

NEW ACHILLEA. THE PEARL.

DIELYTRA SPECTABILIS.

(BLEEDING HEART.)

These pretty Spring bloomers, with their graceful, drooping sprays of heart-shaped, pink and white flowers, are very ornamental, and bloom freely early in the season. The plants, being hardy, increase in size and bloom from year to year, and should have a place in every garden. Price, 15c each; 4 for 50c.

HELIANTHUS.

MULTIFLORUS PLENUS—A plant that should be in every garden, and one that will give entire satisfaction. The flowers are from 3 to 4 inches in diameter, as double as any Double Dahlia, and cover the plant from the ground to the top. Color, a bright golden yellow. It should have a sunny position and rich soil. Price, 10c each.

TRITOMA UVARIA.

FLAME FLOWER—Splendid half-hardy Summer and Autumn flowering plant, producing magnificent spikes of rich orange red flowers; may be left in ground during Winter with good protection, or can be taken up in the Fall and potted and kept from frost. Price, 15c each; 2 for 25c.

EULALIAS, OR PAMPAS GRASS.

These are beautiful hardy grasses, forming large clumps from 2 to 6 feet high; perfectly hardy in all sections of the country.

JAPONICA VARIEGATA—A hardy perennial from Japan, with long, narrow leaves, striped with green and white. Price, 15c each; 4 for 50c.

JAPONICA ZEBRINA—This is one of the most beautiful and distinct hardy plants in cultivation. The foliage is distinctly marked with broad yellow bands. It grows from 5 to 7 feet in height, forming a most striking and graceful plant. Plant entirely hardy. Whether used as a single plant or groups on lawns, it has no equal. Price, 15c each; 4 for 50c.

BLEEDING HEART.

PHLOX, HARDY PERENNIAL—The new French varieties all carry very fine, distinct, pure colors in great trusses, many of them beautifully shaded and marked with distinct, clear, bright eyes. They require no care, but dividing and re-

FLORETS OF HARDY PHLOX.

setting every second year. Instead of the thin flowers, which are limited to lilac and white colors, we now have gorgeous flowers, combining all the different tints of rose, carmine, red and purple, to say nothing of the pure white and salmon with their distinct eyes. Perfectly hardy everywhere. Ready for shipping April 1. Price, 10c each; 6 for 50c.

PLEASE READ SCHEDULE OF CLUB RATES ON PAGE ONE BEFORE ORDERING.

GOLDEN GLOW.

**GERMAN
IRIS.....**

Blooms
Earlier
Than
Japan Iris.

This variety is the true "Fleur de Lis," the national flower of France. They are perfectly hardy, thrive anywhere; deliciously fragrant and fine for cutting. In beauty the flowers rival the finest Orchids, the colors ranging through richest yellows, intense purples, delicate blues, soft mauves, white and bronzes.

every imaginable shade. See illustration. We offer five distinct colors. Price, 10 cents each; five for 40 cents.

GERMAN IRIS.

The Latest Novelty in Hardy Plants
Rudbeckia Laciniata, Fl. Pl.....

GOLDEN GLOW.

A hardy perennial plant, growing eight feet high, branching freely, and bearing by the hundreds, on long, graceful stems exquisite double blossoms of the brightest golden color and as large as Cactus Dahlias. It grows vigorously; throws up strong, branching flower stems six feet high, laden with sheaves of golden blossoms, as large as fair Chrysanthemums, and all having an elegant, graceful appearance without any of the stiffness in habit of blossoms peculiar to sun-flowers. It is the most effective flowering plant for August and September in cultivation. Price, strong plants, which will bloom freely this season, 10c each; three for 25c.

JAPAN IRIS.

The magnificence of these new Iris surpasses description. The flowers are of enormous size, averaging eight to ten inches across, and of indescribable and charming hues and colors, varying like watered silk in the sunlight, the prevailing colors being white, crimson, rose, lilac, lavender, violet and blue; each flower usually representing several shades, while a golden-yellow blotch, surrounded by a halo of blue or violet, at the base of the petals, intensifies the wealth of coloring. The Japan Iris is perfectly hardy, and flowers in great profusion in July and August, and attains greatest perfection if grown in moist soil, or if plentifully supplied with water while growing and flowering. Price, Japan Iris, in mixed colors, 8c each; four for 25c.

YUCCA FILAMENTOSA.

(Adam's Needle.) A tropical looking plant; long, narrow leaves that remain green the entire year. It throws up a long flower stem in the Summer three or four feet high, bearing large spikes of creamy-white bell-shaped flowers that retain their beauty a long time. Price, 15c each; two for 25c.

**NEW HARDY HIBISCUS.**

Crimson Eye—A remarkably showy and handsome hardy plant; robust grower with dark red stems and foliage; flowers are immense in size, often measuring twenty inches in circumference; color purest white, with a large spot of deep velvety-crimson in the center of each flower; a striking combination of color and one that must be seen to be fully appreciated; a well developed plant will produce several hundred of these flowers in a season; succeeds anywhere and is perfectly hardy. Price, 15 cents each; four for 50 cents.

PÆONIES

THE "Pineys" of our mothers' gardens. Hardy Herbaceous Pæonies are the showiest and most useful of hardy plants and are fast becoming popular with the public. They are all hardy and admirably adapted to the climate of the Northern States, growing well in almost any situation of soil, although the flowers will be finer and color brighter if planted in a deep, rich loam, well manured. We offer three distinct sorts. All large double flowering. **GELDOFROSE**—Dark rose. **VESUVIUS**—Dark red. **QUEEN VICTORIA**—An extra fine white. Price 30 cents; the three for 75 cents.

TYPE OF BEST PÆONIES.

HARDY ORNAMENTAL CLIMBING VINES

CLEMATIS JACKMANI.

CLEMATIS HENRYI.

CLEMATIS PANICULATA.

Hardy Clematis—The Clematis we offer this season are exceptionally fine. Many failures in the growing of Clematis are the result of too shallow planting; the crown of the roots should be set at least three inches below the surface of the soil. They delight in a rich, cool soil in an open sunny position. For covering walls, trellises or verandas, old trees or ruins, or as specimens on the lawn or for massing in large beds on the lawn, they have scarcely an equal, certainly no superior.

Jackmani—The flowers, when fully expanded, are from four to six inches in diameter; intense violet purple with a rich velvety appearance, and distinctly veined. Flowers continuously from July until cut off by frosts. Large imported 3-year-old roots, price 60 cents each.

Henryi—Fine, large, creamy-white flowers. A strong grower and very hardy, one of the best of white varieties; a perpetual bloomer. Price, large imported 3-year-old roots, 60 cents each.

Clematis, Paniculata—The flowers are of medium size, pure white, borne in immense sheets, and of a most delicious and penetrating fragrance. These flowers appear in September, when very few other vines are in bloom. Price 20c.

Please read SCHEDULE of CLUB RATES on Page one before sending order.

HONEYSUCKLE, CHINESE TWINING.

HONEYSUCKLE

The dear old Honeysuckle is never out of place, at the rich man's mansion or the poor man's cottage. For a cheap, hardy, robust, yet lovely vine, It is the chief stand-by.

Aurea Reticulata—A variety with beautiful variegated foliage; the leaves are netted and veined with clear yellow; flowers yellow and fragrant. Price, 15c each.

Chinese Twining—Blossoms at intervals through the Summer and retains its foliage late in Winter; flowers nearly white; quite distinct. Price, 15c each.

Scarlet Trumpet—A strong, rapid grower; blossoms very freely the entire season; bright red trumpet-shaped flowers. Price, 15c each.

APIOS TUBEROSA.

APIOS TUBEROSA

A hardy, tuberous-rooted climber, closely resembling the common Wistaria in vine and foliage, and having clusters of deep, purple flowers, which have a strong violet fragrance. Plant the bulbs near a trellis, fence, tree or any place where you may wish a climber. They grow to a great height and bloom profusely. The bulbs are perfectly hardy, and should not be taken up over Winter. Price, 10c each; three for 25c.

CHINESE WISTARIA

Flowers in clusters; pale blue; sometimes gives a second crop of flowers in the Fall. This is one of the most popular of our hardy vines, growing very rapidly, climbing to a height of 50 feet or more. It flowers in early Spring, in long, drooping racemes, resembling in size and shape a bunch of grapes. Price, 30c each.

CINNAMON VINE.

CINNAMON VINE

A hardy climber. The vine is a beautiful rapid grower, producing sweet-scented flowers. Price, 10c each; 4 for 25c.

BOSTON IVY

Ampelopsis Veitchii—Clings readily to any surface, not even excepting glass, where it will spread its fairy-like tracery of infinitesimal leaflets and the accompanying circular suckers by which it is attached. The older leaves attain a moderate size. The texture is leathery and smooth. The foliage is closely overlapping, not a stem visible. It colors very bright in Autumn; a delicate green in Summer. 15c each; extra size, 30c.

THE HARDY CHINESE**MATRIMONY VINE**

A most vigorous, hardy climbing plant when trained to an arbor, fastened to a fence, or in any location where a hardy, vigorous climber is desired. It sends out numerous side branches, and every new growth is at once covered with bright purple flowers, which are succeeded by brilliant scarlet berries nearly an inch long, every branch being loaded with them. Price, young plants, which will bloom and fruit abundantly this year, 10c each; three for 25c.

troubled with insects on your rose bushes, we recommend you to try this. It does the work quickly and thoroughly.

PRICE BY MAIL—Canisters (1 lb.) 40c each. Cartons (1 lb. Paper Box) 30c each.

PRICE BY EXPRESS—Canisters, 25c each. Cartons, 15c each; 5 lb. package, 35c.

NOT SUBJECT TO CLUB RATES.

SLUG SHOT**KILLS BUGS**

A cheap powder destructive to insects that are injurious to house plants, shrubs, trees, vines, potatoes, melons, cabbage, currants, etc. Used in all latitudes since 1880, with safety to man, beast and fowl. Put up in perforated cartons, and screw-top canisters, and is handy to use, merely dusting on the plant with the can. If you are

HARDY ORNAMENTAL FLOWERING SHRUBS

ALTHEA, Or Rose of Sharon.

Flowers of large size, bell shaped, double, full and of brilliant and striking colors; borne in great profusion in August and September. Make beautiful ornamental hedges; double rose and double white. Price, 20c each.

CALYCANTHUS.

The well known "sweet-scented" Shrub. It bears in May a profusion of double purple blossoms, which have a strong, delicious pineapple fragrance. Very popular. Price, 20c each.

DEUTZIAS.

GRACILIS—A charming shrub. Flowers pure white, bell-shaped, delicately fringed and borne in such profusion as to cover the branches. Price, 20c.

CRENATA—Four feet in height. Flowers double, of a pure white, beautifully tinged with rose. Price, 20c.

CANDIOSSIMA—This elegant variety resembles *Deutzia Crenata*, except that the flowers are pure white in color. It excels all others in size of flower and bloom. Price, 20c each.

EXOCHORDIA GRANDIFLORA.

A vigorous-growing Shrub, forming a neat, compact bush ten to 12 feet high; can be trimmed into any desired shape. The flowers are borne in slender racemes of 8 to 10 florets each, on light and wiry branches that bend beneath their load of bloom. It is perfectly hardy; flowers pure white. Very useful for cut flowers. Price, 20c.

LILACS.

COMMON—(*Syringa Vulgaris*.) The common purple species and one of the best. Price, 20c each.

COMMON WHITE—(*S. Vulgaris Alba*.) Flowers pure white, very fragrant, beautiful. Price, 20c.

PHILADELPHUS, or Mock Orange.

CORONARIUS—A medium-sized shrub bearing an abundance of white, sweet-scented flowers last of May. Price, 20c.

SPIREAS.

Beautiful shrubs of the easiest culture. They are all hardy and showy flowers, usually in panicles, their prevailing colors being white, pink, crimson, etc. Price, 20c each.

BILLARDII—Strong-growing, pink flowered, late blooming.

VAN HOUTE—Strong grower, flowers pure white in clusters.

BLUE SPIRÆA.

HYDRANGEA PANICULATA GRANDIFLORA.

THE HARDY HYDRANGEA, ...PANICULATA GRANDIFLORA...

Suitable for lawns. The flowers are pure white, afterwards changing to pink, and are borne in immense pyramidal trusses nearly a foot long and nearly a foot in diameter. It blooms in midsummer, and remains in bloom two or three months. Attains a height of 3 to 4 feet and is perfectly hardy. Strong one-year-old plants, 20c each; strong two-year-old plants, 35c each.

SNOW BALL (*Viburnum Opulus*.)

A grand old shrub which we all remember in childhood, producing in June large, round balls of snow white bloom, which droop from the branches gracefully. Price, 20c each.

VIBURNUM PLICATUM (Japan Snowball.)

A new variety of Snowball from Japan, and one of the grandest shrubs. Growth upright and compact. Foliage olive-green through the Summer, but toward Fall it turns much darker and remains on the plants for some time after the first frosts. Flowers four to six inches across. Price, 25c each.

WEIGELIAS.

Shrubs that bloom in July. Flowers produced in such great profusion as to almost entirely hide the foliage.

CANDIDA—This is the very best of all the white-flowered Weigelias; a strong, upright erect grower; flowers are pure white and produced in great profusion. Price, 20c each.

VAN HOUTE—Deep crimson; very prolific. Price, 20c each.

ROSEA—Rose colored flowers in May and June. Price, 20c each.

ROSEA, NANA VARIEGATA—Leaves bountifully margined creamy white; flowers pink. It is a dwarf grower and admirably adapted to small lawns or gardens. Price, 20c each.

TWO GRAND HARDY SPIRÆAS

For either Outdoor or Pot Culture—Crimson and Blue.

New Crimson Spiræa, Anthony Waterer—This beautiful new crimson-flowered Spiræa was introduced last year for the first time. It outshines all the Spiræas in brilliancy of color—a bright crimson. It is a rare gem. It makes a low, compact bush 15 to 18 inches high, and is covered nearly the whole growing season with large umbels of deep crimson flowers, which measure nearly a foot across. When scarcely three inches high it begins to bloom and thereafter is seldom out of flower. As a pot plant or for growing in the open ground, nothing can equal it. Perfectly hardy. We offer strong plants 15c each.

Blue Spiræa, Caryopteris Mastacanthus—Blue Spiræa is a fitting name for this remarkable new hardy plant. It is a sturdy, upright grower, and is extremely floriferous, plants from small pots blooming profusely and continuing to do so throughout the season until they reach a height and width of three feet. The dense flower heads are of a rich lavender blue, a rare color among flowers. Price, strong blooming plants, 15c each.

PLEASE READ SCHEDULE OF RATES ON PAGE ONE BEFORE ORDERING.

SELECT FLOWER SEEDS.

the Seeds herein offered are grown for us by the most experienced Seedsmen of this Country and Europe, and are the best that money can buy. Every ounce of seed we send out is fresh. We buy the best, send out full sized packets and sell as cheaply as is consistent with honest goods. Most flower seeds germinate well in a fine, sandy loam, partially protected from the sun. Heat and moisture are the two essential points to start life in seeds.

Asters.

The Aster is a universal favorite. For an Autumn display it has no successful rival among the annuals. Given a deep, rich soil, mulching with coarse manure, produces elegant flowers. Ten inches apart is the proper distance to make a showy bed.

Giant Comet Asters—The plants grow about eighteen inches high on long, stiff stalks; bear in abundance their beautiful flowers. These flowers, with their long, twisted petals, strikingly resemble Japanese Chrysanthemums and are of very large size, larger, in fact, than those of any other Aster, so that, all in

all, they are ideal Asters for cut flowers.

New Giant Comet Aster, The Bride—For elegance of form and delicate coloring, The Bride has no equal among Asters. The flowers are first pure white, change to a lovely pink, and finally to a beautiful rose tint; a most charming variety for cut flowers. **Packet 10c.**

Giant Comet —Pure white.....	10c
“ “ Light blue.....	10c
“ “ Yellow.....	10c
“ “ Rose.....	10c

Giant Comet Asters, Mixed—Includes the above colors and also red and dark blue. **Packet 10c.**

One packet each of above six Giant Comet Asters for 50c.

New Branching Asters.

The new **Branching Aster** is quite different in several respects from any Aster known. The branching habit is accompanied with great vigor of growth and profusion of bloom. The flowers are of extraordinary size and exceedingly graceful, and are borne erect on very long stems excellent for cutting.

Blue Branching Aster	per packet, 5c
White Branching Aster	“ “ 5c
Shell Pink Branching Aster	“ “ 5c
Finest Mixed Branching Aster	“ “ 5c

Various Asters.

Snowball or Princess Aster—A most distinct and handsome sort, equally valuable for pot culture and cut flowers. It is a most profuse bloomer, a single plant often producing as many as 30 pure white flowers, resembling in appearance those of the Liliput Dahlias. **Packet 5c.**

Deep Scarlet Triumph Aster—This is undoubtedly the most beautiful and perfect of all dwarf Asters. Each plant forms an elegant bouquet of itself, seven or eight inches high. The flowers measure from two and one-half to three inches across, of faultless form. The color is rich, brilliant scarlet; each plant bears at least thirty or forty flowers of exquisite beauty. **Packet 5c.**

Queen of the Market—Plants of open spreading habit, producing quite large flowers very early in the season, being in full bloom two weeks before those of the Comet and taller growing types. The flowers are fairly double, borne on long stems. The colors are deep blue, white, pink, and deep rose. We offer seed in the finest mixture of the above colorings. **Per packet 5c.**

Improved Victoria Aster—A magnificent class, either for bedding or for cutting. The flowers are large, beautifully imbricated and perfect in form. **Mixed. Packet 5c.**

Washington—This splendid variety is the largest Aster grown, bearing flowers 5 to 6 inches in diameter, very double; mixed colors. **Packet 3c.**

Late Flowering Asters—These are the finest of late-flowering varieties. The flowers are large, very double, and borne on long stems; fine for cutting. **Packet 5c.**

Double-Ouiled Asters—These are great favorites on account of their free-blooming qualities, and the low price of the seed commends them to many who want a nice Aster for cutting. **Packet 3c.**

Excelsior Mixture of Tall Asters—This is a mixture of the most beautiful, striking and distinct colors of all the above tall growing Asters, selected from the cream of Truffauts, Victoria, Crown and other desirable sorts, and includes many kinds specially purchased for this mixture. This is the finest mixture of Tall Asters ever offered, and the most critical lover of this flower will be astonished at the wide range of colors and varieties given in this truly Excelsior strain. **Packet 10c.**

Perennial Mixed—(Starworts, or Michaelmas Daisies). Single flowering; hardy herbaceous plants, thriving in any garden soil. If sown early in the Spring they will flower the first season. **Packet 6c.**

Allegheny Vine.

Mountain Fringe or Adlumia Cirrhosa—This is a hardy climbing plant, native of the Allegheny Mountains; very attractive and picturesque; dainty, feathery, pale green foliage, flowers delicate rose-pink and white. **Packet 6c.**

Amaranthus.

Caudatus—(Love Lies Bleeding.) Blood-red, drooping. **Packet 3c.**

Tricolor—(Joseph's Coat.) Scarlet, green and yellow. Height, 2½ feet. **Packet 3c.**

Abutilon.

Pretty plants, useful for pots in Summer. They form handsome little bushes covered with bell-shaped flowers in the daintiest and also strongest colors, dotted and handsomely veined. Are of easy culture; blooms readily from seed the first Summer. **Mixed colors, packet 8c.**

Ageratum.

Very effective plants for bedding, remaining in bloom throughout the entire Summer. They grow in almost any soil and in any location.

New White—Flowers pure white. **Packet 3c.**

Golden Gem—Pure yellow. **Packet 3c.**

Mixed—One-quarter ounce, 15c; packet 3c.

Ampelopsis Veitchii.

Miniature Virginia Creeper, or Japanese Ivy—A hardy perennial species of Woodbine from Japan, with olive-green leaves which turn to scarlet in Autumn. Packet 3c.

Sweet Alyssum.

A general favorite, with delicate white flowers of exquisite fragrance; very free blooming; suitable for beds, borders and rock work; very useful for cut flowers during the Winter. One-quarter ounce, (enough for a row forty feet long) 10c; ounce, 25c; packet 3c.

Little Gem—Dwarf, spreading habit; pure white, very profuse. Packet 7c; ¼ ounce, 15c; ½ ounce, 25c; ounce, 40c.

Golden Saxatile—Hardy; golden-yellow bloom. Packet 5c.

Ambrosia.

A hardy annual with long spiral stems, bearing an abundance of small, round, greenish yellow buds and blossoms, which are exceedingly fragrant. It is as desirable as the Rose Geranium as a plant with fragrant foliage, and for making up into bouquets and other floral work. Its long, beautiful, fringed spirals of lovely green are unsurpassed. It is one of the easiest plants to grow, and seeds may be sown early in the open ground. Packet 3c.

Aquilegia—**Columbine.**

Popular hardy perennials that bloom very freely during Spring and early Summer.

Mixed Double—Best and finest colors. Packet 5c.

Artica—Red tipped with green. Packet 5c.

Arabis.

Among the earliest blooming plants, and very useful for rock work, edgings, etc. Hardy perennial; nine inches high.

Arabis Alpina—Pure white. Packet 5c.

Armeria Maritima.

Thrift or Sea Pink—These handsome plants are well adapted for ornamenting rock work and edging walks. May also be grown in pots. Hardy perennials; six inches high. Packet 3c.

AQUILEGIA.

**Antirrhinum—Snap Dragon.**

One of the most constant bloomers of all the hardy perennials, and it flowers very freely the first year from the seed. The flowers are produced on long spikes. Very popular in cut flower market.

Mixed Tall—Twenty kinds and colors. Packet 3c.

Fire King—Rose and orange. Packet 3c.

Dwarf Mixed—Finest Tom Thumb. Packet 3c.

Victoria—Scarlet and white. Packet 3c.

Aristolochia Siphon—Dutchman's Pipe.

A beautiful and rapid climber, with large, heart-shaped leaves and singular, siphon-shaped, rich, purplish-brown flowers. Very effective for verandas. Hardy perennial; fifteen to thirty feet high. Packet 3c.

Asparagus Verticillatus.

A beautiful climber, having feathery foliage and scarlet berries which are quite ornamental. Hardy perennial; about ten to fifteen feet high. Packet 5c.

**Double Balsams—Lady's Slipper.**

An old favorite garden flower, producing its gorgeous masses of beautiful brilliant-colored double flowers in the greatest profusion; of easy culture; succeeds in a good, rich soil; tender annuals.

Snowball—Large, double pure white, the very best camellia flowered. Packet 5c.

Pink—A superb sort, a clear, deep color. Packet 5c.

Scarlet—Almost dazzling in brilliancy. Packet 5c.

Light Lemon—A fine shade of light sulphur or lemon. Packet 5c.

White Tinted with Lilac—Fine, large flowers with broad petals. Packet 5c.

Fancy Spotted—Exceedingly showy. This strain shows rare and beautiful shades of coloring almost unknown in other flowers, and all spotted with pure white. Packet 5c.

Carnation-Striped—Many colors, finest mixed. Packet 5c.

Extra Choice Double Mixed—Packet 5c.

Collection of above 8 separate Double Balsams. 30c.

Balloon Vine—Love in a Puff.

A rapid-growing climber; thrives in light soil. One of the prettiest climbers. Packet 3c.

Tuberous Begonias.

Tuberous-rooted Begonias are among the foremost flowering plants for pots or for bedding. The flowers often exceed four inches in diameter, and outlive in color the most brilliant and dazzling Geranium.

Single—From prize-winning varieties, in finest mixture. Packet 8c.

Double—Flowers of elegant form and substance. All colors mixed. Packet 13c.

Cacti.

At once one of the most curious and popular class of plants grown. Many fine varieties can be grown from seed, with a little care and patience. Sow seed in shallow pans or saucers filled with clear, coarse sand, with good drainage. Cover with glass, keep moderately moist, but not wet. Pot seedlings into very small pots.

Mixed Sorts—Thirty to fifty kinds. Packet 10c.

Candytuft.

This good old annual has been the garden favorite for three hundred years. A fine edging plant, and good for cutting. Sow very early in open ground, and keep seed heads picked off for a constant succession of bloom.

All Colors Mixed—Many fine shades. Packet 5c.

Fragrant—White. Packet 5c.

Crimson—Fine. Packet 5c.

Perennial Candytuft.

Sempervirens—Extra fine for cemetery use, as the plants are a solid mass of white at just the time when flowers are most scarce. Packet 5c.

CANDYTUFT.

Calceolaria

Very handsome and showy plants for the greenhouse or house culture. The plants grow about eighteen inches high and during Spring and Summer are covered with a great many curious pocket-like flowers. Our seed is saved from the best European collection and will produce flowers of large size, and in an endless variety of colors. Directions on packet. Packet 13c.

Carnations.

Large beautiful and very fragrant flowers, as perfect in form as the Rose. Seeds sown in open ground in May or June will flower splendidly the next season. They are nearly everywhere hardy, but in very cold situations should be protected by straw or a few boughs.

German Extra Fine, Double Mixed—First quality. Packet 8c.

Guillaud Carnation—Far superior to any other Carnation seed ever offered; the flowers are of larger size, better substance, greater doubleness, and more varied markings and colorings, many having grounds and shadings of yellow, a color which is very rare in Carnations. The Guillaud Carnation will also, like the Margaret, bloom the first Summer, and if taken up in the Fall the plants will bloom during the Winter, yielding an abundance of the handsomest and most fragrant flowers. Packet 15c.

New Dwarf Double Carnation, Margaret—Most brilliant novelty of recent times. This beautiful new race of Carnations has attracted the admiration of all who have grown it. Its rapid development, flowering as it does four months after sowing the seed, its profusion of bloom, variety of beautiful colors and delicious perfume will insure its popularity in all gardens where cut flowers are in demand. Packet 6c.

New Giant Margaret Carnation—Like the Margaret Carnation, the seed of this new strain will bloom in about four months after sowing, and the plants will continue to flower all through the Summer. The flowers are of a very large size, measuring three inches or more in diameter; the colors include all the shades of white, pink, crimson and striped. Our seed is from the originator and can be relied upon to produce the largest flowers in an almost endless variety of colors. Packet 15c.

Cobaea Scandens.

Elegant, rapid-growing climbers, attaining a height of twenty to thirty feet. Can be grown in the garden in Summer, or in the greenhouse or conservatory in Winter. Their luxuriance renders them particularly desirable for covering arbors, walls, etc.; flowers large and bell-shaped. Mixed Colors, per packet 6c.

Crozy's Dwarf Cannas.

These new dwarf, ever-blooming, large-flowering French Cannas bloom freely the first year from seed. They are much less expensive and more beautiful for bedding even than the best Cannas. The roots can be kept in the cellar over Winter and each clump will give six to eight good roots for planting out the following Spring. The mixed seed we offer has been saved from the finest varieties of all colors. Packet 6c.

Cannas—All Varieties and Colors Mixed—including the old tall varieties. Packet 3c.

Canary Bird Creeper.

This handsome annual climber belongs to the Nasturtium family, and is one of the most beautiful of its class. The vines grow to a height of twenty feet and are thickly covered with flowers, which are of clear golden-yellow. Packet 5c; ounce 30c.

Castor Bean—Ricinus.

New Zanzibar Castor Bean—A new form of Ricinus, of short jointed, stout growth and extraordinary large leaves which are produced in such an abundance that the plant is a perfect pyramid of beautiful foliage. Seeds are of extraordinary size, beautifully mottled and speckled. White, pink, black, crimson, etc. The seeds are as beautiful to look at as are many flowers. Packet 7c; one-half ounce 25c.

Castor Beans, many sorts mixed, ounce 25c; packet 3c.

Celosia or Coxcomb.

Feathered Varieties in Finest Mixtures—The plants are of uniform size, while the feathery flower heads on numerous branches are of brilliant colors, scarlet and golden-yellow. Packet 5c.

Cristata Nana,

Dwarf Coxcomb.

Compact, low growing plants with showy combs. Seed saved from the best heads. Rich and brilliant colors. Mixed. Packet 5c.

CELOSIA

Centaurea.

Cyanus—(Bluet, Ragged Sailor, Corn Flower, Blue Bottle). A very old favorite garden annual, flowering freely in almost any situation; height two to three feet; they are largely used for cut flowers. Mixed colors. Packet 3c.

Cyanus Double—Produces double globular heads of flowers of large size and filled up to the center with florets; the mixture we offer contains many novel new colors, some prettily striped. Packet 6c.

New Centaurea, Margaret—This beautiful new annual is valuable both for cut and for decorative purposes. Flowers pure white and exquisitely fragrant. Packet 6c.

Centaurea Gymnocarpa—(Dusty Miller)—Fine for bedding, vases, hanging baskets and pots; also extensively used for margins; fine cut, silvery-gray foliage; one and one-half feet. Packet 3c.

Annual Chrysanthemums.

French Marguerites, or Painted Daisy—Showy and effective garden favorite, extensively grown for cut flowers. The

PAINTED DAISY, CHRYSANTHEMUM.

hardy annuals are summer-flowering border plants; good for pot culture and quite distinct from the Autumn-flowering varieties.

Atro-Coccineum—The Sultan—Large single flowers of a velvety crimson-maroon, with bright golden ring at center. Packet 3c.

Burrigeanum—Lord Beaconsfield—Single flowers of immense size; broad white petals with lemon-yellow shadings at base. Packet 3c.

Eclipse—Large single flowers; broad white petals fringed with deep orange-yellow and dark brown. Packet 3c.

Frutescens Grandiflorum—The popular White Paris Daisy. Packet 3c.

Double Coronarium, Mixed—Compact bushy growth eighteen inches in height. Flowers quite double, three-quarters to one inch in diameter, shading from white and light lemon-yellow to rich deep orange. Packet 5c.

Perennial Chrysanthemums.

Perennial Chrysanthemums cross fertilize with such wonderful variety that rarely two plants flower alike; all the colors, markings and shapes known in Chrysanthemums, and now and then an extremely valuable new variety may be expected. This seed is saved from a superb collection of the latest novelties, the great incurved Japanese, the closely petaled Chinese, the graceful Anemones, the distinct Pompons. It is not generally known that large, vigorous plants of Chrysanthemums for Autumn blooming can be raised from Spring-sown seed. The seed will germinate quickly, and the plants require only the culture given other flowers. Packet 13c.

Calliopsis.

The Calliopsis, or Coreopsis, is one of our brightest, cheeriest annuals, and as easy to grow as any weed. Sow in open ground quite early, and thin to six inches apart. Plants grow rapidly and are soon a mass of bloom. The myriads of gay flowers, poised on long foot-stalks above the foliage, make a mass or bed of these a dazzling sight. The flowers are particularly fine for bouquets, and should be cut freely, as by this means the period of blooming is prolonged.

Dwarf Compact—Mixed colors; fine low growing plants, producing thousands of blossoms in wavy masses. Packet 3c.

New Double—This new double form of the old Coreopsis is a most desirable flower for garden culture, as it grows freely and blooms continually in any soil or situation. The flowers possess all the rich and varied colors of single form, and are always greatly admired, being such a novelty. All colors mixed. Packet 6c.

Coleus.

Plants with richly colored foliage of maroon, green, crimson, yellow, etc. For groups on lawns and ribboning they are indispensable, and also valuable for pot culture. Although perennials, they attain perfection from seed the first season.

Fine Hybrids, Mixed—Packet 10c.

Large-leaved Fringed Coleus—Extremely large leaves, the edges of which are deeply cut and fringed. The colors are especially fine, embracing combinations of markings entirely new. Packet 18c.

Clematis.

Large Flowering—Beautiful climber with lovely flowers in blue, white, purple, etc. Hardy, can remain in permanent situation. Mixed, 10c.

Cineraria.

A wondrously beautiful greenhouse plant, and not at all hard to grow. Seeds germinate quickly and easily, and young plants grow off without any trouble. Keep in a shady place over Summer, and remove to house in Fall. Use insecticides to keep free from aphids, and as flower buds show, give good light. A beautiful plant, the large, luxuriant leaves surmounted in late Winter and Spring by immense quantities of large Aster-like flowers of the most brilliant colors. Nothing could be more effective in the window.

Grandiflora, Mixed—Large flowering prize varieties. Packet 15c.

Cosmos.

White Pearl—Snow-white. Packet 6c.

Pink—Packet 6c.

Mixed Colors—Large-flowering. Packet 3c.

Dwarf Yellow Cosmos—This forms a spreading branched dwarf plant, about one foot high; the flowers about 1½ inches across, are star-shaped and of rich golden-yellow; a remarkably free bloomer, a perfect mass of bloom until killed by frost. Packet 6c.

New California Hybrids—Some of the flowers in this new strain measure five inches across. Some flowers are as round as a cart-wheel, with broadly overlapping petals. Some have petals as smooth and flat and waxy as a Camellia; others are pleated and frilled at the edges, others toothed and fringed. Some have only five petals, forming a perfect star. But the great charm of these new Cosmos is the wonderful diversity of colors, shades and markings entirely unique in Cosmos. Packet 10c.

Cyclamen.

(Illustrated on page 46.)

There are few handsomer plants than the Cyclamen. The heart-shaped foliage is beautifully shaded and marked, and the charming flowers, borne on long foot-stalks above the crown of foliage, show exquisite shades of white, crimson, blush and pink, most flowers showing two colors. A good specimen will have from twenty-five to fifty flowers in full bloom at one time, and the plants remain in bloom for months together.

Persicum—Extra fine strain, all colors mixed. Packet 10c.

Giganteum—Grand large flowering, mixed. Packet 20c.

Dahlias.

(From seed.) But few people know that Dahlias can be raised from seed and will bloom the first year. The seed we offer, if sown early, will bloom profusely all the Autumn.

Choice Double Mixed—Many colors. Packet 6c.

Cactus Dahlia, Mixed Colors—Double flowers of distinct and remarkable appearance, the petals being quilled and curved, loosely and gracefully arranged in large double oval heads of bloom; the seed that we offer will produce many beautiful varieties, including several colors; worthy of extended cultivation. Packet 6c.

Single, Large-Flowered, Mixed—Packet 3c.

**Daisy.**

Bellis Perennis—A favorite Spring blooming plant. Sow the seed early in hot-bed or house, and when large enough transplant to a rich, cool, partially shaded situation. Half hardy perennial.

Double Red, Longfellow—Extra large sized flower; color deep, dark rose. Packet 7c.

Snowball—Universally large, very double, pure white flowers, borne on long stems. Excellent for cutting. Packet 7c.

Double Mixed—Choice. Packet 6c.

Delphinium.

Perennial Larkspur—One of the choicest perennials known and increases in beauty each year. Tall, stately growing, with immense spikes of the most brilliant flowers in all shades of lavender, mauve, pale, medium and deep dark blues. Sow seed in Autumn or very early Spring, and plants will bloom the first Summer. Very hardy. Give half shade. Mixed colors; all sorts. Packet 5c.

Dianthus, or Pinks.

These beautiful free flowering half hardy plants furnish an abundance of bright and varied colored flowers all through the Summer and Fall until severe frost.

Chinensis fl. pl. (Double China Pink)—This species is a biennial of dwarf habit; flowers the first year, but the bloom is stronger the second. The colors are very rich, and in large beds you can hardly find two alike. Packet 3c.

Imperialis fl. pl. (Double Imperial Pink)—Double variegated, mixed colors. Packet 5c.

Laciniatus fl. pl.—Magnificent, large, perfectly double and deeply fringed flowers; finest mixed. Packet 5c.

**Hardy Dianthus, or Pinks.**

Highly valued for the great beauty and fragrance of their flowers. These make splendid bushy plants from 1 to 2 feet high, unrivaled for permanent beds and borders.

Plumarius, Double Mixed (Double Pheasant's-eye Pink)—Double fringed flowers; fragrant, and of white, crimson or purple shades, spotted and variegated, nine to twelve inches high. Price 10c.

Plumarius, Single Mixed (Feathered Pheasant's-eye Pink)—Large, single, fragrant flowers of beautiful colors and finely fringed. Price 5c.

Double Cyclops Pinks—This magnificent new strain of Pinks produces an entirely new series of colors of unapproachable beauty, exquisite combinations of colors, the predominating shades being delicate rose, flesh pink, copper color, salmon, wine red, white, crimson, etc., the beauty being further enlivened by a large, eye-like zone of velvety blood-red; clove-like perfume. Price 10c.

Everlasting Flowers.

These odd flowers never fade, but if cut in bud and blossom, dried they will last and retain their rich and brilliant color for many years. They should be cut when in full bloom and dried slowly in the shade, with their heads hanging downward to keep the stem straight. Mixen, per packet, 6c.

Edelweiss, Gnaphalium Leontopodium.

Famous and true Edelweiss of the Alps. Flowers of a downy texture, pure white, star shaped; easily raised from the seed. Packet 6c.

Forget-Me-Not or Myosotis.

Pretty little clusters of fine delicate flowers. They succeed best in a damp shady situation, but will thrive well in any garden soil.

Myosotis Alpestris—Blue. Packet 3c;

Alba—Pure white. Packet 3c.

Forget-Me-Not—Mixed. Packet 3c.

PLEASE READ SCHEDULE OF CLUB RATES ON PAGE ONE BEFORE SENDING ORDER.

Fuchsia.

(Illustrated on page 38.)

Fuchsias are as easily grown from seed as cuttings, and from seed many new varieties are obtained. They will flower freely the first season in open ground, while the plants can be taken in the house in the Winter, where they flower still more freely. Finest single and double varieties, mixed. Packet 15c.

Grasses—Ornamental.

The Ornamental Grasses are valuable for decorative purposes when dried and arranged in connection with the Everlasting Flowers for Winter bouquets, etc. Some are curious-looking plants, others exceedingly graceful; some neat and compact, others stately and majestic. The more slender and graceful varieties are very decorative. Mixed varieties. Packet 6c.

Four O'Clocks.

(Mirabilis, or Marvel of Peru.)

Large growing shrub-like plant, with funnel-shaped flowers of many colors. Named from the curious habit of expanding in the afternoon.

Four O'Clock, Mixed, including variegated leaved sorts. Packet 3c.

New Dwarf Sorts—These are fine plants, growing about 12 inches high, each forming a bush covered with flowers. All colors mixed. Packet 5c.

Gaillardia.

Grandiflora Superba—Splendid new perennial varieties with very large flowers, dark-crimson centers, marked with rings of many brilliant colors. Packet 6c.

Gloxinia.

Most charming greenhouse plants of dwarf habit. Their flowers are produced in greatest profusion, and of the most exquisite and gorgeous colors, many of which are magnificently spotted, mottled and blended. Under the commonest culture they bloom continuously for months. One foot. Large flowering, choice mixed. Packet 13c.

Geraniums from Seed.

Zonale Varieties—Several from some of the finest collections and many choice and even new varieties may be expected. Packet 10c.

Double Mixed—This seed will produce a large percentage of double flowers of extra fine colors. Packet 25c.

Mixed Pelargonium—(Lady Washington.) Saved from the finest fancy and spotted large flowering sorts. Packet 20c.

Apple Scented—This fragrant favorite variety can only be grown from seed to form fine plants. Sow in light soil, and keep moist until they germinate. Packet 10c.

Gilia.

Free-blooming annuals, fine for beds. Will bloom in any situation; looks well on lawn in beds; are good for rockeries, and can be planted at any season. Mixed colors. Packet 3c.

Helianthus—**Sunflower.**

The Helianthus is the well-known old Sunflower, with coarse, tall plants, from four to eight feet in height, and bright yellow flowers. Best double and single varieties mixed. Packet 3c.

Mammoth Russian—Enormous flowers. Packet 3c.

GILIA.

Heliotrope.

(Illustrated on page 47.)

It is but little known that seed sown in February and March will produce large flowering plants the first Summer. Our mixture contains seed from many named sorts and will produce fine plants with proper treatment. Culture directions on package. Mixed varieties, very choice. Packet 7c.

New Heliotrope, Lamoine's Giant Hybrids—Should we devote this entire page to an illustration it would fail to give an adequate idea of the grand size and rare beauty of the flower-heads of this wonderful novelty. Their fragrance is delicious. The colors are from pure white through all shades of violet and blue to deep indigo. Even before it comes into bloom the foliage is most noticeable; its large and glossy leaves frequently measure from five to seven inches and are borne on strong erect stems, growing about two feet in height. Packet 15c.

Hardy Hibiscus.

Crimson Eye—This grand hardy perennial Hibiscus comes true from seed. It is a robust grower with dark red stems and foliage. The flowers are immense in size, often measuring 20 inches in circumference. The color is of the purest white, with a large spot of deep velvety crimson in the center of each flower. A well developed plant will produce several hundred of these flowers in a season. Will succeed anywhere, and is perfectly hardy, blooming the first year from seed sown in the open ground. Packet 6c.

Hollyhocks.

The flowers are as double as a Rose and embrace all shades of red, pink, yellow, crimson, white, etc. We offer seeds from an unsurpassed collection. Mixed colors. Packet 6c.

Humulus, or Japanese Hop.

A new Hop from Japan, with finely cut foliage, remaining a beautiful green all Summer unaffected by heat or drought; very rapid grower; will cover an immense space in a very short time if given plenty of liquid manure. Annual climber. Packet 6c.

Impatiens Sultani—Zanzibar Balsam.

(Illustrated on page 48.)

Produces abundance of rosy carmine flowers; is one of the most distinct and beautiful plants for window culture. Packet 10c.

Job's Tears—Coix Lachryma.

Curious ornamental grass with broad, corn-like leaves and seeds of a light slate color. Valuable for the formation of Winter bouquets, in connection with everlasting flowers. Strings of handsome beads are made from the seeds. Hardy annual. Three feet high. Packet 5c.

**Lobelia.**

A most elegant and useful genus of plants of easy culture and well adapted for bedding, edgings, pot or rockeries.

Queen of Whites—Pure white flowers; half hardy annual. Packet 3c.

Crystal Palace—A variety with large blue flowers, half hardy annual. Packet 3c.

Gracilis—The flowers are bright blue with white center; fine for baskets, vases, etc., trailing gracefully and blooming profusely; half hardy annual; 6 inches high. Packet 3c.

Fine Mixed—A number of the choicest and best varieties are to be found in this mixture. Packet 3c.

Cardinalis—Cardinal flower. A native species of very different habit from the above, and growing about two feet high, with spikes of intense brilliant scarlet flowers. Hardy perennial. Packet 6c.

Lantana.

(Illustrated on page 49.)

Fine mixed, rapid growing, constant blooming perennial plant for pot culture in Winter or garden decoration in Summer; cluster of orange, white, pink, etc. Packet 6c.

Lavender.

Lavendula Spica—Well-known, sweet-scented, hardy perennial; should be extensively grown in the mixed border; three feet. Packet 3c.

Lemon Verbena.

The delightfully fragrant foliage of this favorite plant makes it very desirable for cutting; it is easily grown from seed. Packet 6c.

PLEASE READ SCHEDULE OF CLUB RATES ON PAGE ONE BEFORE SENDING ORDER.

Larkspur.

An old-fashioned, but none the less valuable annual with large, compact spikes of showy flowers, in shades of white, pink, red, blue, etc. Sow seed very early in open ground, or even in late Autumn.

Double Dwarf Mixed—Packet 3c.

Double Stock Flowered—A tall branching variety, with long spikes of flowers. Mixed. Packet 3c.

**Marigolds.**

El Dorado—Immense flowers 10 to 14 inches around; exceedingly double; quilled like a Dahlia; primrose, lemon, orange and golden shades; three feet. Packet 5c.

Large African—Tall, double, orange, brown and yellow, mixed; two feet. Packet 5c.

Double French Mixed—Yellow, brown and crimson, beautifully striped; one foot. Packet 3c.

Mignonette.

Large Flowering—The common Sweet Mignonette. Packet 3c; ounce 15c.

Mignonette, Mixed—Including many varieties. Packet 5c; one-half ounce 25c.

The Moon Flower.

The vines are literally covered with thousands of the immense white flowers, many of them measuring over seven inches across. Beginning to flower early in August, the vines are nightly covered with pure white flowers, emitting a rich, Jasmine odor. Planted in rich ground, in a sunny situation, the vines attain a height of 25 feet in a season. Packet 5c.

**MIGNONETTE.****Giant Imperial Japanese Morning Glories.**

These grand new Morning Glories from Japan are remarkable for the large size and exquisite new colors of the flower, with magnificent foliage, often beautifully blotched. Of strong, robust growth, the vines grow quickly to a height of 12 to 20 feet. They are of all shades of red, from the most delicate pink to the most brilliant crimson and maroon, and innumerable shades of blue, from pale lavender to richest indigo and royal purple; also white, yellow, gray, slate, copper color, brown, bronze, almost black, and many other odd shades not found in any other flower. Many varieties have a distinct marginal band of a different color from the rest of the flower, and some are as elegantly spotted with pink, crimson, blue, brown, etc., as the finest Gloxinias. Packet 10c; ounce 25c.

Tall Morning Glories.

Seed of the well-known Morning Glory is so cheap, the flowers so bright, and the vines of such rapid growth that it should be planted largely to cover trellises and unsightly out-houses.

Striped—Flowers variously striped and blotched with red, blue and rose. Packet 3c; ounce 10c.

Fine Mixed—A great variety of colors of the popular old-fashioned Morning Glory. Packet 3c; ounce 10c.

Perennial Pea.

Latifolius—(Hardy or Everlasting Pea.) Hardy climbers, growing 6 to 8 feet high when trained on a trellis: the flowers are borne in large clusters. One of the hardiest and most easily cultivated of plants. The long, leathery roots penetrate to a great depth, rendering these plants peculiarly adapted to rough places, to scramble over rocks and bushes.

White—Packet 6c. **Red**—Packet 3c. **Mixed**—Packet 3c.

NASTURTIUMS.**New Climbing Nasturtiums, Mme. Gunther's Hybrids.**

For richness and variety of colors these new hybrids have no equals among Nasturtiums. It would be impossible to describe all the different colors, but some of the most striking are as follows: White, shaded carmine on the edges, with deep maroon throat; bright carmine, bright salmon with deep maroon throat, golden yellow, shaded brown on the edges; yellow, shaded and mottled with carmine; white, with red blotches; shrimp pink, with deep maroon throat, shrimp pink, self color; rose, bright yellow, orange, etc., etc. The foliage is mostly dark, and contrasts very effectively with the rich colors. They are climbers and free and continuous bloomers. Large packet 10c, two packets for 15c; ounce 20c; 1/4 pound 60c; pound \$2 postpaid.

Tom Thumb, Dwarf or Bedding Varieties.

The improved varieties of the Dwarf Nasturtium are among the most popular and beautiful of our garden plants. Their neat, compact growth, rich-colored flowers and free-blooming and long-lasting qualities, together with their adaptability to almost any soil or situation, make them unsurpassed for garden decoration.

Crystal Palace Gem—Rich sulphur-yellow, spotted with carmine. Packet 3c; ounce 10c.

Deep Scarlet—Flowers of a very bright and vivid scarlet. Packet 3c; ounce 10c.

Empress of India—Dwarf, compact growth, with large purplish-green leaves. Flowers of a dark, rich salmon-scarlet. Packet 3c; ounce 10c.

Pearl—Creamy white. Packet 3c; ounce 10c.

Ruby King—Flowers of a bright, ruby-red with a salmon tint. Packet 3c; ounce 10c.

Dwarf Nasturtium, Mixed—Many colors. Pound \$1.25; 1/4 pound 35c; ounce 10c; packet 3c, postpaid.

Tall, or Climbing Nasturtiums.

Beautiful and luxuriant climbers for trellises and arbor; of easiest culture, bearing gorgeous flowers in profusion until killed by frost.

Dark Crimson—Deep velvety red, brown and brownish crimson. Packet 3c; ounce 10c.

Flammeeum—Very rich, deep salmon, scarlet, overlaid and marbled with velvety brown; rich and glowing. Packet 3c; ounce 10c.

Pearl—Creamy-white; very fine. Packet 3c; ounce 10c.

Rose—A fine shade, very attractive. Packet 3c; ounce 10c.

Striped—Petals bright orange-yellow with small, rich brown blotch at the base. Packet 3c; ounce 10c.

Tall Nasturtium, Mixed—Many colors. Pound 80c; 1/4 pound 25c; ounce 10c; packet 3c, postpaid.

One packet each of the above twelve kinds of Nasturtiums for 30c.

The Hemisphere Nasturtium.

This distinct variety (*Tropaeolum Hemisphaericum*) should be allowed a clear space in which to develop, so as to show its peculiar habit of growth. Of spreading, rounded form, each plant resembles a giant round ball (or orange) cut in half and set on the flat part. The leaves are of large size, while the flowers are of a rich lemon-yellow, with throat blotches of deep crimson. Packet 5c; ounce 25c.

"Special" Mixture of Dwarf Nasturtiums.

This mixture contains eighteen different varieties of Dwarf or "Tom Thumb" Nasturtiums, and no better annual exists; for filling beds or borders with a continuous supply of flowers they are unexcelled. Their handsome foliage shows a variety of green shades, including both light and very dark blue-green leaves with distinct veins, as well as the old well-known tints; and the flowers are also greatly improved in coloring and in marking. Both this mixture and the "special" mixture of Tall Nasturtiums include varieties having blooms of a velvety texture new to the species, and some showing odd colors heretofore unknown among flowers. Price, large packet, 10c; two packets for 15c; ounce 20c; 2 ounces, 35c; 1/4 pound, 60c; pound, \$2.00, postpaid.

"Special" Mixture of Tall Nasturtiums.

This, like our International Pansy Mixture, is composed of seeds from flowers distinct colors in proportions that will produce the best results. It contains all varieties of Tall or Climbing Nasturtiums, including the beautiful new Madam Gunther hybrids, the Canary Bird Flower, and the richly colored and always satisfactory Lobbs Nasturtiums. It is as complete as it can be made, and it is not possible to overpraise it, for the mixture cannot be surpassed. Price, per large packet 10c; 2 packets for 15c; ounce 20c; 2 ounces 35c; 1/4 pound 60c; pound \$2.00, postpaid.

Oenothera.

Large, saucer-shaped blooms of the purest white or softest, richest shades of yellow, and deliciously fragrant. The swollen buds expand at dusk with a sudden "snap" that always delights the children and interests the adults. Packet 3c.

Oxalis.

(Illustrated on page 56.)

Exceedingly free-blooming little plants, with lively foliage and entirely covered with bright flowers from June to September. Very useful for edgings. Choice mixed. Packet 3c.

Petunias.

(Illustrated on page 51.)

For out-door decoration or house culture few plants are equal to this class. They commence flowering early and continue a mass of bloom throughout the whole season, until killed by frost; easily cultivated, requiring rich soil and a sunny situation. Hardy annuals; 1½ feet.

Single Large Flowering Petunias.

Giants of California—Gigantic flowers (often five inches in diameter), of every conceivable shade of crimson, pink, lavender, pure white, etc. One of the chief points of excellence is the deep throat and diversity of veinings in the throat. Many of the flowers have a clear yellow throat, while others have a pure black one, so deep that it seems to show no veinings. Packet 15c.

Blotched and Striped—Flowers with star-shaped blotches of symmetrical form; fine for bedding and window boxes. Packet 3c.

Finest Mixed—A choice strain, including many of the large flowering varieties. Packet 5c.

Good Mixed—Many colors. Packet 3c.

Double Striped and Blotched—Finest varieties. Sure to produce a good percentage of double-flowering plants. Packet 15c.

Phlox Drummondii.

There can be no stronger proof of the value grown. For beds and massing nothing can surpass these beautiful annuals. They produce immense trusses of large brilliant flowers of numberless hues throughout the Summer. 1½ feet high. Mixed colors. Packet 3c.

Large Flowering Phlox—An improved strain with extra large, perfectly round flowers, with petals over-lapping each other. Extra large and fine. Brilliant scarlet, pure white, bright pink. Packet 3c.

Phlox Drummondii Grandiflora—Not only is our strain notable for variety and brilliancy of colors, but also for the perfection and size of the flowers; many of the single flowers are so large they will very nearly cover a fifty-cent piece. When our customers see the brilliancy and pleasing variety of colors produced from this seed, they will thank us for recommending a liberal planting. Packet 5c.

Star-Shaped Phlox.

Star of Quedlinburgh—Of dwarf habit, bearing pretty star-shaped flowers, varying from violet blue to deep rose and blood red, margined with white. Choice mixed. Packet 5c.

Hardy Phlox.

Phlox Decussata—These rank among the finest herbaceous perennials for beds or borders. Mixture of the finest colors. Packet 6c.

PRIMROSES.

(Illustrated on page 51.)

Primula—Fringed Chinese Primrose.

This charming and beautiful flowering plant is indispensable for Winter or Spring decoration in the home or conservatory. It is one of our most important of Winter blooming pot plants.

Alba Magnifica—The finest pure white, with bright yellow eye, beautifully fringed. Packet 10c.

Chiswick Red—Large brilliant scarlet. The brightest of all. Packet 10c.

Striped—White striped with rose. Packet 10c.

Choicest Mixed—This mixture contains nothing but the finest sorts and cannot fail to give entire satisfaction. Packet 8c.

Hardy Primroses.

Veris—(English Cowslip) Flowers of different colors, yellow, brown and yellow edged, etc.; very fragrant; six inches. Packet 3c.

Vulgaris—The common yellow English Primrose; flowers fragrant and of a light canary-yellow color. Packet 6c.

Auricula—(Primula Auricula) A well-known favorite of great beauty, half-hardy perennial; six inches. Mixed. Packet 6c.

Primula Obconica.

Primula Obconica is as near an ever-blooming plant as is possible to obtain. It has been known to flower for over twelve months without a break. Packet 10c.

HARDY PRIMROSES.

Primula Forbesi—The Baby Primrose.

Blooms in three months from seed. This is unquestionably one of the most profitable plants to grow for cut flowers. It begins to bloom in three months after sowing and continues to produce flowers for ten months in succession. The flowers are very graceful, not quite half an inch across, and are of a most pleasing rose color with a yellow eye. They are borne on erect stems, 10 to 12 inches high, in tiers, and remain fresh for over a week after being cut, new buds opening every day. The plant is a vigorous grower, thriving in the shade or sunshine, even in a cool house. Packet 15c.

GIANT PANSIES.

(Illustrated on page 52.)

Giant Trimardeau—Largest of all. The blossoms are simply enormous, perfect in form, and run through all the various colors, from the lightest shade to the darkest purple. Packet 10c.

Coal Black—A jet black of truly giant size. Packet 10c.

Beaconsfield—This is a great favorite on account of the rich combination of purple and lavender, shading to white towards the top. Packet 10c.

Light Blue—Lovely shade of sky-blue. Packet 10c.

Striped—Beautifully striped and blotched, of various colors. Packet 10c.

Violet Blue—Of immense size, and of rich, velvety texture. Packet 10c.

White—Extra large, pure white. Packet 10c.

Yellow—Golden-yellow with large black eye; flower of large size and very showy. Packet 10c.

Giant Peacock—A striking variety; the upper petals being a beautiful ultra-marine blue, resembling in shade the peacock feather, while the lateral and lower petals are of a deep claret, with white margin. Large flowers. Packet 10c.

Mixture of Scarlet and Red Pansies.

This is a mixture of special selections of Pansies with red and scarlet flowers. It is partly made up of such varieties as Meteor, Red Ridinghood, Cardinal, Fiery Faces and also from some special selections we had made for this mixture by several Pansy specialists. A bed of these Pansies presents a striking and beautiful effect, and will please every lover of this favorite flower. Packet 10c.

Any three packets for 25c.

Bedding Pansies.

A selection for bedding purposes, large flowers of good substance:

Black, Gold Margined, Purple, Wallflower Brown, Cardinal, Lilac, Silveredge, White, Fawn Color, Mahogany, Violet, Yellow.

Packet 3; any four packets 10c; or the whole collection for 25c.

Fine Mixed Bedding Pansies—Packet 5c.

English, Extra Choice Mixed—From a splendid English collection of the largest flowering varieties. Packet 5c.

POPPIES.

PLEASE READ SCHEDULE OF CLUB RATES ON PAGE ONE BEFORE SENDING ORDER.

International Mixture of Pansy Seed.

The result of our observations of the various strains produced, and of the favorites in our market, prompted us to prepare our International Mixture. It contains, besides all the leading kinds of commerce, seeds of the Giant, Bugnot, Cassier, and Trimardeau, with flowers measuring, when well grown, three inches in diameter, and such beautiful colors as gold-bronze, silver-edged, marbled, mahogany spotted, claret red, and many others. Our International Mixture will produce for you, as it has for others, a Pansy bed which shall be the wonder of the neighborhood and the joy of the owner. Packet 10c.

Portulaca.

There is scarcely any flower in cultivation that makes such a dazzling display of beauty as a bed of many-hued brilliant-colored Portulacas. They thrive best in a rather rich, light loam or sandy soil and an exposed sunny situation. Half hardy annual.

Double Mixed—All colors. Packet 5c.

Single Mixed—All colors. Packet 3c.

Poppies.

(Illustrated on page 70.)

Snowdrift—Flowers as pure as the driven snow, large, double and full, yet soft and loose, like a great ball of snow. A mass of it in bloom is a grand sight. Its habit of growth is stout and compact, not attaining the height of most other large Poppies, which makes its enormous blossoms show to better advantage. Packet 5c.

Fairy Blush—The flowers have the effect of a large, white, feathery ball, overcast with a rosy shade. Packet 5c.

Shirley—A lovely single Poppy, with petals that seem stamped out of the most lustrous silk, and of the softest, most delicate colors or of the most brilliant hues, each flower widely margined with some other shade. No one can help admiring these beauties. Packet 5c.

Carnation Flowered—Brilliant, large, showy, double flowers of various colors. Packet 3c.

Pæony Flowered—Splendid large double flowers, all colors mixed. Packet 3c.

Nudicaule, or Iceland Poppies—Perennials, but bloom first year. Very handsome and graceful, and particularly desirable because they furnish us with a color hitherto lacking in these flowers. The yellow and orange shades are particularly fine. Packet 5c.

Scabiosa.

This is one of the very best bouquet flowers of our entire list, and is also fine for masses or clumps in the flower garden.

Each plant bears a profusion of beautiful flowers, rich, velvety, glowing, and unlike any other flower, while the long, wiry stems fit them for use in bouquets and vases.

Mixed Colors—(Mourning Bride.) Packet 3c.

Double Mixed Colors—Dwarf habit; fine colors. Packet 5c.

Snowball—The plant is a strong grower, and the flowers are very large, perfectly double, and as white as snow. They are produced very freely. Packet 5c.

New Double Blood-Red—A very striking color. Packet 5c.

Special Poppy Mixture.

Comprises not only all the Double and Single Poppies described, but also a number of other sorts, specially purchased for this mixture, including some entirely new ones. Will make a grand display. Packet 10c.

Salvia.

The Salvia is now a standard bedding plant, and well does it deserve its honor. It stands heat and drought remarkably well, and its colors are very showy and intense.

Splendens—Large, scarlet; exceedingly showy and useful for cutting and for ornamental beds. Packet 5c.

Sweet William—Dianthus Barbatus.

For display in the garden, the Sweet William is unsurpassed. The seed can be planted very early in the Spring, in open ground, and will blossom in Autumn.

Harlequin—An attractive new variety of this old garden favorite, with heads of flowers of extra large size, often four or five inches across, each head composed of different colored florets, dark crimson, white pink, flesh, and striped. Packet 5c.

Fine Mixed—Packet 3c.

Mixed Double—A great variety of colors. Packet 6c.

SWEET PEAS.

Everyone who has a yard ought to grow quantities of this sweetest of all flowers, that is not only a beautiful low-growing vine for garden and decoration, but one of the most useful of all in furnishing material for vases, bouquets, and all cut flower work. Plant quantities of these lovely flowers and cut them with a lavish hand. Easy to grow anywhere if sown early, very early. For the largest and finest blossoms dig a trench six inches deep, put in two inches of rotten manure, a little earth, and sow the seeds over this three inches apart in the row, covering an inch and a half deep. Do this as early as the ground can possibly be worked in the Spring, and as the plants grow, fill up the trench around them with rich earth. Such planting will produce enormous quantities of flowers of the largest size.

Twenty-One of the Grandest Named Sweet Peas.

All large-flowering. One packet each of the following 21 varieties for 85c. Single packet 5c; one ounce 10c.

Alice Eckford—Rich, deep cream, tinted with cherry standards, white wings.

America—Crimson-scarlet, irregularly striped.

Blanch Burpee—Pure white, enormous size, three on a stem, finest of its color.

Countess of Cadogan—Bright shining violet, wings sky blue.

Emily Lynch—Deep rose pink shaded with buff.

Fashion—Rich carmine.

Golden Gleam—Deep primrose yellow.

Gray Friar—Purple shadings on a white ground.

Lady Grisel Hamilton—A beautiful shining pale lavender.

Little Dorrit—Pink standards, white wings.

Lovely—Soft shell-pink.

Mrs. Jos. Chamberlain—A clear silvery white, brightly striped with soft rosy-pink.

Navy Blue—A glowing violet purple.

Othello—A beautiful chocolate red.

Ovid—Bright rosy pink, deeper colored margin.

Ramona—Creamy white, splashed with pink.

Sensation—Remarkable for its mass of bloom and the silky texture of its flower.

The Bride—Large pure white flowers.

Waverly—Standards rosy claret, pale blue wings shaded with rose.

New Dwarf Sweet Pea, "Cupid"—It makes a compact dwarf plant not over five or six inches high, covering a circumference of about eighteen inches. It hugs the ground with no tendency to either climb or trail. Snow-white flowers. Packet 5c.

New Dwarf Sweet Pea, "Cupid," Mixed—Packet 5c.

Our Grand Large-Flowering Mixed Sweet Peas.

The finest mixture possible, as only the large-flowered or "Grandiflora" type (Eckford's) is used. More than 100 different colors. They are perfectly magnificent. Packet 3c; ounce 10c; one-fourth pound 25c; pound 80c.

PLEASE READ SCHEDULE OF CLUB RATES ON PAGE ONE BEFORE SENDING ORDER.

Ten-Weeks Stocks

To our mind we do not catalogue a finer flower than the Ten-Weeks Stock. It has every merit of a perfect flower—a compact habit, many and long spikes of closely set, large double flowers, each as double as a rose, waxy of texture, exceedingly sweet and varying in color from snow-white to dark maroon brown, and through all intermediate shades of red, blue and yellow. It is a grand bedder and a fine pot plant, blooming the Winter through. It develops in its greatest perfection in the cold atmosphere of our Northern States. In the South and West a cool situation should be chosen, sheltered from the mid-day sun. This plant requires rich, mellow soil, and must never be allowed to suffer for water.

Early Ten-Weeks Stocks—Twelve of the finest colors mixed. Packet 8c.

Early Ten-Weeks Stocks—Pure white, very sweet. Packet 5c.

Early Ten-Weeks Stocks—Rich crimson. Packet 5c.

Early Ten-Weeks Stocks—Clear blue. Packet 5c.

Giant Perfection—A splendid race, growing two and a half feet high with extra large spikes of perfectly double flowers of great substance and beautiful coloring in a varied range of shades. Packet 5c.

Early Ten-Weeks Stocks—Yellow; new and fine. Packet 5c.

One packet each of two above six varieties for 25c.

Verbena

(Illustrated on page 53.)

For garden beds or massing, the Verbena is unrivaled; flowers of the most brilliant colors, blooming continually from Spring until late in the Autumn. Although perennials, these form luxuriant plants and bloom profusely the first season.

Verbena White—(Sea Foam.) Large and sweet-scented. Packet 5c.

Defiance—Scarlet. Packet 5c.

Italian Striped—Packet 5c.

Lutea—(Primrose) Straw-yellow. Packet 5c.

Shades of Blue, Mixed—Packet 5c.

Extra Choice Mixed—Packet 5c.

Mammoth Verbenas—The individual florets on properly grown plants over one inch across—or larger than a 25c silver piece. They bloom freely, are vigorous in growth, and contain all of the beautiful new colors and shades. Mammoth mixed colors. Packet 10c.

Valeriana—Hardy Heliotrope

This is a beautiful border plant two or three feet in height, with scarlet, white and red flowers mixed. Packet 3c.

Violet

(Illustrated on page 53.)

A fine collection of many fine varieties and colors—blue, lavender, white. Many of the finest scented varieties are included. Mixed sorts. Packet 6c.

Wild Flower Garden

Each packet contains a great variety of pretty flowers of easy growth. The mixture will be found to be both interesting and useful. Interesting because new flowers open daily, "and you know not what a day may bring forth." Ounce 25c; ¼ pound 75c; pound \$2.50; packet 10c.

Special Mixture of Flower Seeds

Flowers for Bouquets—This mixture contains seeds producing flowers suitable for cutting for vases and bouquets, nearly all having long stems, and will furnish a constant supply of cut flowers throughout the entire season. Packet 10c.

Mixture of Climbers—A packet of seeds containing over 20 beautiful annual climbers, useful for covering out-houses, trellises, etc. Packet 10c.

Zinnias

Improved Striped—A good strain, representing all the leading colors, all striped. This is really the finest strain of Striped or Zebra Zinnias in cultivation. Packet 5c.

Improved Mixed Colors—Saved only from select flowers, perfect in colors. Packet 5c.

Mammoth Flowering—Extra large, perfectly formed, double flowers. Very fine. Mixed colors. Packet, 5c.

Other Standard Flower Seeds

In this list we name, with prices, other standard Flower Seeds, which from lack of space, were omitted from the preceding descriptive list. It is needless to say that the seed of each is the best it is possible to procure.

THE BEST SEEDS THAT GROW.

Abronia Umbellata—Very pretty trailing plants. Packet 3c.

Adonis Aestivus—Bright scarlet flowers. Packet 3c.

Anemone (Windflower)—Producing large flowers early in the Spring. Fine for bouquets. Mixed colors. Packet 6c.

Brachycome Iberidifolia (Swan River Daisy)—Packet 3c.

Browallia—Bright blue and pure white mixed. Packet 3c.

Bryanopsis—An ornamental climber of the gourd family, bearing green fruit, which changes in color as the season advances to bright scarlet, striped white. Packet 3c.

Calendula, Pot. variegated—Very beautiful annuals, resembling Double Asters; of rich colors and rapid growth. Fine mixed. Packet 3c.

Campanula (Canterbury Bells)—Single mixed. Packet 3c.

Campanula, Double Varieties, Mixed—Packet 6c.

Centrosema Grandiflora—Beautiful climber. Packet 3c.

Cleome Pungens (Spider Plant)—Packet 3c.

Cyperus, or **Umbrella Plant**—Grows finely in water with rich soil or mud, throwing up long stalks with narrow green leaves. Easily raised from seed. Packet 6c.

Cypress Vine—Everybody is acquainted with the Cypress Vine, its finely cut foliage and brilliant flowers. Packet 3c.

Commelina Coelestis—(Blue Day Flower.) Packet 3c.

Datura—Mixed varieties. Packet 3c.

Dolichos (Hyacinth Bean) **Lablab Mixed**—A beautiful, quick-growing climber, with blue and white flowers in clusters. Annual. Ten feet. Packet 3c.

Digitalis (Foxglove)—Fine mixed. Long racemes of beautifully spotted flowers. Packet 3c.

Eschscholtzia (California Poppy)—All colors, mixed. Packet 3c.

Euphorbia Marginata (Snow-on-the-Mountain)—Packet 3c.

Ferns, Mixed—Spores of many varieties. Packet 13c.

Feverfew—Double white Bachelor's Button. Packet 6c.

Freesia Refracta Alba—Very easily grown bulbs which can readily be produced from seed. The flowers are pure white with yellow throat, exquisitely fragrant. Packet 6c.

Gentiana Acaulis—The Blue Gentian flowers rich blue; 9 inches. A charming hardy perennial which blossoms early in May. Excellent for edgings, rock work, etc. Packet 6c.

Godetia—Exceedingly handsome and showy annuals, of dwarf, compact growth, about one foot high, bearing freely large flowers three or four inches across, of exquisite colors and shades that glisten in the sunlight like satin. Finest mixed. Packet 3c.

Gourds, Ornamental—Mixed. Many sorts in finest mixtures. Packet 3c.

Golden Rod—America's National Flower. The favorite wild yellow beauty; hardy perennial, two to three feet. Packet 3c.

Grevillea Robusta (Silk Oak)—Very beautiful and graceful foliage; highly valued as a decorative plant for the table, and when large, for tropical lawn effects, tender perennial, three to five feet. Packet 6c.

Gypsophila Paniculata (Baby's Breath)—Miniature white.

Packet 3c.

Honesty (Lunaria)—Curious, silvery seed pouches. Pkt. 3c.

Ice Plant (Mesembryanthemum Chrystallinum)—Pkt. 3c.

Ionopsidium, **Acaule** (Diamond Flower)—Packet 3c.

Iris Kämpferi (Japan Iris)—Mixed colors. Packet 8c.

Lily of the Valley (Convallaria)—Packet 6c.

Linaria Cymbalaria (Kenilworth Ivy)—Packet 6c.

Linum Grandiflorum Rubrum (Crimson Flax)—Packet 3c.

Lychnis, **Chalcedonica** (Burning Star)—Grand, hardy perennials; intensely bright scarlet. Packet 3c.

Maurandya—Finest mixed; blue, white and mauve. Pkt. 3c.

Mimosa Pudica ("Sensitive Plant")—Curious annual; the leaves instantly close up when touched. A neat plant for either pot or garden culture; two feet. Packet 3c.

Mimulus—The beautiful Monkey Flower. Packet 3c.

Mimulus Tigrinus—Fine, spotted varieties. Packet 3c.

Mimulus Moschatus—The well-known musk plant. Packet 3c.

Momordica, **Balsamina** (Balsam Apple)—Packet 3c.

Momordica, **Charantia** (Balsam Pear)—Very beautiful. Packet 3c.

Nicotiana, **Affinis**—Fragrant white flowers. Packet 3c.

Nigella, **Damascena** (Dwarf Double)—Of compact, neat habit of growth. Packet 3c.

Paeony—Double flowers of rose, crimson and white. Packet 8c.

Passiflora, **Cærulea** (Passion Flower)—Packet 6c.

Penstemon, Mixed—All varieties. Packet 6c.

Rocket, **Sweet**, **Mixed**—White and purple. Packet 3c.

Saponaria, **Bouncing Bet**—Mixed. Charming annual of neat dwarf habit; free flowering and excellent for beds. Six inches. Packet 3c.

Salpiglossis—Painted tube tongue. Packet 3c.

Schizanthus (Butterfly flower)—Mixed, all colors. Pkt. 3c.

Smilax—Charming tender perennial climber for greenhouse or window gardens. The foliage and stems are of a pleasing light green, graceful; excellent for decoration. Packet 6c.

Solanum, **Capicastrum** (Jerusalem Cherry)—A miniature tree-like plant, suitable for either garden decoration or pot culture; round orange-scarlet fruits in Autumn and Winter. One to two feet. Packet 6c.

Sweet Sultan (Centauria Suaeolens)—Yellow. Packet 3c.

Thunbergia (Black-eyed Susan) Mixed. Packet 3c.

Vinca (The Popular Madagascar Periwinkle)—Mixed. Packet 3c.

Wallflower—Exquisitely fragrant long spikes of single or double flowers. Single, large flowering, mixed, packet 3c; double, large flowering, mixed, packet 6c.

Wild Cucumber, **Echinocystis Lobata**—This is the quickest growing climber in our list. It will grow 30 feet in one season. It is thickly dotted over with pretty, white, fragrant flowers, followed by an abundance of ornamental and prickly seed pods. Packet 5c.

STANDARD VEGETABLE SEEDS

The Seeds offered on this page include all the leading varieties and those worthy of special notice. They are in every sense good, reliable and valuable. We guarantee our seeds to be strictly true to name, pure, of high excellence, and to grow, if properly treated, to the extent that should any prove otherwise we will refill the order without charge or send any other seeds that may be selected to the amount paid for same.

Sent Postpaid at Prices Named. If ordered sent by Express deduct 8c per Pint or Pound.

SPECIAL 50c COLLECTIONS OF VEGETABLE SEEDS.

Eighteen Packets of Choice Vegetable Seed.

One packet each of Cabbage, Early Drumhead; Carrot, Long Orange; Celery, White Plume; Cucumber, Early Cluster; Beets, Eclipse; Lettuce, Hanson's; Parsnip, Long Sugar; Tomato, Stone; Onion, Prize Taker; Muskmelon, Rocky Ford; Watermelon, Ice Cream; Spinach, Thick-Leaved; Squash, Early White Bush; Pumpkin, Large Cashaw; Turnip, Early White; Pepper, Ruby King; Radish, Lady Finger; Salsify, Vegetable Oyster.

Any eight packets of the above named varieties of Vegetable Seed for 25c.

VELVET LAWN GRASS MIXTURE.

Nothing adds more to the attractiveness of a home than a well kept, close, velvety lawn. Our lawn grass seed is the very best quality mixture of the finest varieties of natural grasses, embracing such as are of neat growth, hardy, and best adapted to produce a permanent and fine turf. The quantity of seed required per acre is from three to four bushels. Our Velvet Lawn Mixture is a compound of grasses that ripens successively, thereby always presenting a green and cheerful appearance. Lawns sown with only one or two grasses turn brown under our hot sun, and remain in that condition until the cool months of Autumn revive them. Our mixture can be relied upon to produce the very best results. Weight per bushel, 14 pounds. Quart, 30c., postpaid. By express, \$1.00 per peck; \$3.00 per bushel (14 pounds.)

KEEP IN MIND OUR CLUB RATES. SEE FIRST PAGE.

Choice and Rare Fruits.

a limited list of varieties which are perfectly adapted to all parts of the country, and will make a very rapid growth and bear quickly.

If sent by mail, postage is paid by us; if by express or freight, charges are to be paid by purchaser, but larger stock will be sent. All fruits must be sent by express, unless otherwise stated.

Special Notice—As our Nursery is a separate and distinct department from our Greenhouses, it is necessary that all Fruit Orders be shipped direct from the Nursery, and we therefore ask customers to kindly keep fruit orders separate from the Plant and Seed orders.

Shipping—Apples and other large trees or plants cannot be shipped until Spring opens, usually about March 15; after that date orders will be filled within 10 days of receipt. Grape Vines and other small Fruits can be sent when desired. The prices on fruits are placed very low, and we cannot allow them to be included in Club Rates, nor can they be taken as premiums. Price per 100 will be given on application.

MISSING LINK APPLE. A wonderful Keeper.

Description. A vigorous grower, exceeding any Apple known to horticulturists for rapid growth. Of symmetrical form, never needing to be pruned while shaping the head; branches heavily shouldered, making the tree absolutely wind-and-storm-proof. Fruit large, oblong, flattened at ends, red and green when picked, green turning to rich golden-yellow as the fruit comes into season for use. Stem long, thus enabling the fruit to sway with the wind and to adhere firmly until picking time. Calyx large, basin open, deep-furrowed; flesh yellowish-marbled, tender, juicy, improving with age, and highly aromatic. Season for use, March to September. **Keeps twelve months in any cellar.** Its extraordinary keeping qualities are a surprise to every one who sees it. The best new apple.

Price for all grades: Each \$1, 6 trees \$5, 12 trees \$9. Small trees by mail postpaid.

Bismarck. (Reduced.)

MISSING LINK APPLE. (Reduced.)

BISMARCK APPLE.

Bears fruit on two year grafts. Finest quality, finest color, dwarf and extremely prolific—most suitable Apple for hot climate, yet the hardest known. Wherever grown it has proven a most astonishing revelation, not only in high quality, but also in hardness and especially in earliness of fruiting. The tree is of stocky short growth and when laden with handsome fruit at one or two years old, is very desirable as a pot plant for table or green-house decoration. Fruit is large, brilliant color and very handsome. Flesh tender, pleasant subacid, of distinct and most delicious flavor, unequalled as a desert apple and very superior for cooking and will keep in an ordinary room till March. Price, by express, first class 40 cents each, \$4 per dozen; medium, 30 cents each, \$3 per dozen; mail size, postage paid, 25 cents each.

Baldwin—Large, roundish, dark red, sub-acid, good; productive, popular. Mid-winter.

Ben Davis—(New York Pippin.) Large, nearly all red.

Hubbardston Nonesuch—Large, roundish, yellow striped and splashed with red, very rich, sweet.

King—Large, yellow striped and splashed with brilliant red; tender, excellent quality.

Northern Spy—Large, greenish-yellow, striped red, rich, good keeper, abundant bearer.

Rhode Island Greening—Large, yellowish-green; tender, rich, very good; productive.

Rome Beauty—Large, pale-yellow, mostly covered with bright red; tender, juicy, good.

Roxbury Russet—(Boston Russet.) Largest of all russets; sub-acid, extra quality, productive, profitable.

Stark—Grown in Ohio; valuable as to long-keeping qualities; fruit large; skin greenish-yellow, striped with red.

Talman's Sweet—Medium size; pale yellow; very firm, rich and very sweet.

Winesap—Dark red; excellent bearer.

Wealthy—Hardy and very productive; skin smooth, shaded with red in the sun.

Wagener—Large; deep red in sun; flesh firm; productive.

York Imperial—Medium to large, white, heavily shaded with dark crimson; firm, crisp, juicy, sub-acid, good quality.

Crab Apples.

Hylsop—Large, deep crimson; popular on account of being large and beautiful.

Siberian—Nearly as large as the above; fine gold and amber color.

Transcendent—Immensely productive, bearing a good crop in fourth year; one of the best.

Best Summer Apples.

Early Harvest—Medium size, straw color; tender and sub-acid. July and August.

Red Astrachan—Large; red, juicy; a good bearer and beautiful. August.

Sweet Bough—Large; pale greenish yellow; tender and sweet; good bearer.

Yellow Transparent—Earliest ripening apple known; medium size, light transparent; flesh juicy, pleasant.

Best Fall Apples.

Duchess of Oldenburg—Medium, yellow striped with red, rich; very good.

Fall Pippin—Large, golden-yellow, rich, creamy.

Maiden's Blush—Large, waxen-yellow, rich, crisp, excellent.

Rambo—Medium, yellowish with red, and somewhat dotted; mild, tender and productive.

Red Bietigheimer—Large, bright red all over; rich, crisp sub-acid, excellent, productive.

Best Winter Apples.

Arkansas Black—Very productive, dark red, quality one of the best.

Remember Fruit must not be included in Club Rates.

.....NEW JAPAN PLUMS.....

Chalco.

Described by the originator, Mr. Burbank, as a large variety, flattened like a tomato. Color deep reddish purple; flesh very sweet, rather firm and exceedingly fragrant. The fruit is almost as stemless as the peach, and completely surrounds the older branches as thick as they can stick, like kernels on a large ear of corn. One of the best varieties for shipping, as it ripens up well, if picked green, and keeps nearly, if not quite, a month.

Apple.

A recent introduction of Mr. Burbank, and remarkable for its long keeping and shipping qualities. Tree is a fine luxuriant grower, with a peculiar brown bark. Fruit striped and mottled like the Imperial Gage until nearly ripe, when

CHALCO.

it turns to a deep purplish red. Quality rich and high flavored; flesh sweet, firm and pale red with streaks of pink. Nearly freestone, and will keep a month after picking. Ripens soon after Burbank.

America.

Originated by Mr. Burbank, and pronounced as one of his best. The fruit of this variety is somewhat larger than the average of the Japan varieties. Is much superior in size and quality to any of the native American sorts, and far more desirable for home or family use. Fruit is large to very large, glossy coral-red, flesh light yellow, firm, best of quality. Is a splendid keeper and shipper. Comes into bearing at an early age, and one of the most desirable of the Japan sorts. Ripens about two weeks sooner than Burbank.

APPLE PLUM.

Price on the above three varieties: First-class, 40 cents each; \$4.00 per dozen; medium, 30 cents each, \$3.00 per dozen; second-class, by mail postpaid, 25 cents each, \$2.50 per dozen.

GENERAL LIST OFPLUMS....

By Express or Freight
Only; too Large for
Mailing.

AMERICA PLUM.

Abundance—The fruit is very large, showy and beautiful, amber-colored, turning to rich, bright cherry, with decided white bloom, highly perfumed; flesh light yellow, exceedingly juicy and tender, and of delicious sweetness.

Burbank—Tree is universally vigorous, has strong branches, and begins to bear, usually, when two years old. The skin of the fruit is thick and almost curculio-proof. An admirable shipping variety.

Bradshaw—Fruit very large, dark, violet-red; flesh yellowish-green.

Bavay's Green Gage—(Reine Claude Bavay.) Fruit large, roundish, oval; skin greenish, marked with red in the sun.

Coe's Golden Drop—Large and handsome, light yellow, firm, rich, sweet.

Guilt—Very large; deep purple, covered with thick bloom; flesh yellow, sweet and pleasant.

German Prune—A large, long, oval variety, much esteemed for drying; color dark purple.

Imperial Gage—Fruit large, oval; skin pale green; flesh juicy, sweet, rich and excellent.

Italian Prune—Large, juicy; abundant bearer; tree very hardy; profitable.

Lombard—Medium, violet-red; juicy, sweet and good.

Moore's Arctic—Remarkable for hardness and freedom from Curculio; a great bearer; dark purple; flavor very fine.

Niagara—Very large, reddish-purple, entirely covered with green bloom.

Shipper's Pride—Large blue Plum, very hardy, productive.

BURBANK PLUM.

Pond's Seedling—Abundant bearer; light red, changing to violet.

Prince Englebert—Large, oblong oval; deep purple and covered with a deep blue bloom; flesh yellowish-green, juicy, sugary.

Red June—A vigorous, hardy, upright, spreading tree, as productive as Abundance. Fruit medium to large, deep vermilion-red, handsome bloom, very showy; flesh light lemon-yellow, slightly sub-acid, of good and pleasant quality.

Shropshire Damson—A Plum of fine quality; larger than the common Damson.

Wickson—A sturdy, upright grower, productive almost to a fault. Fruit remarkably handsome, deep maroon-red, covered with white bloom; stone small; flesh fine texture, firm, sugary and delicious. Excellent keeper and shipper; will keep two weeks.

Willard—Japanese; it is highly praised by leading horticulturists as one of the best of this class. Tree is a good grower, immensely productive; much earlier than Abundance, and of good quality.

Wild Goose—Fruit large, clear, bright vinous-red; firm, juicy and sweet.

Washington—Very large, yellow-red; flesh firm, very juicy and excellent.

PEARS

ROSSNEY.

Rossney.

A new and excellent Pear, raised from seed at Salt Lake City, Utah. In size medium to large; very fine grained, flesh melting, juicy, very sweet. Ripens two weeks after Bartlett; it is an excellent keeper and shipper, with tree much stronger than Keiffer. Specimens of this new variety were received by us from the originator last year, and we were very much impressed with its beautiful and attractive appearance, excellent quality and size; in general appearance it somewhat resembles Bartlett, but is more round. It is very seldom you can find a single variety combining so many rare qualities as this does, and we have great pleasure in offering it as the best Pear on the market at the present time. Price, first-class 50c each; second-class, 40c each; mailing size, postpaid, 40c each.

Koonce Pear.
Tree is a very vigorous grower, free from blight, hardy and productive; fruit medium to large; skin yellow, with a very handsome blush; does not rot at the core, like many of the other early sorts. Ripens two weeks earlier than Harvest Belle. For fruit growers, both in the North and South, this should prove very valuable. Its vigorous growth, with heavy foliage, should enable it to endure a hot climate, while its late blooming and hardiness of bud will insure for it abundant crops, despite frosts. It is so hardy that it will stand the rigor of Northern winters, and being so early in season, will come into the market and bring the highest price. Price, first-class 40 cents each, \$4 per dozen; medium, 30 cents each, \$3 per dozen; small size, by mail, postpaid, 25 cents each.

Vermont Beauty Pear.

It is very hardy. The growth is vigorous, the leaves free from blight; is an annual and abundant bearer. In quality the fruit approaches nearer that most delicious Pear, the Seckel, than any other Pear on the market. It is full-medium size, yellow, covered on the sunny side with bright crimson red; flesh melting, rich, juicy, aromatic. Ripening with and after Seckel, though much larger in size and more attractive in appearance, it cannot fail to prove a general favorite and very valuable. Price, first-class, 40c each; \$4 per dozen; medium, 30c each, \$3 per dozen; small, by mail, 25c each, \$2.50 per dozen.

VERMONT BEAUTY.

Extra...	.30	3.00

NOTE—Varieties followed by (d) can be supplied in Dwarfs as well as Standards. Prices are as above. By express or freight only; too large for mailing.

Summer.

Bartlett (d)—Large, clear yellow; juicy, buttery, excellent; thrifty, young, heavy and regular bearer.

Clapp's Favorite (d)—Large, delicious; good grower; productive.

Lawson (d)—(Comet.) Crimson on a bright yellow ground; crisp, juicy, pleasant; a good keeper and shipper. The largest early Pear; profitable and reliable.

Wilder (d)—Medium size, yellow; one of the best early varieties.

Autumn.

Duchess d'Angouleme (d)—Extremely large, dull-greenish yellow; juicy, buttery, very good.

Flemish Beauty (d)—Large obovate; pale yellow, much russeted; rich, melting; vigorous, productive.

Howell (d)—Rather large; obtuse pyriform; pale yellow, with red cheek; quality good to very good; reliable.

Idaho—Very large; roundish obovate; greenish yellow, with russet spots; flesh melting, juicy, flavor rich, sprightly, vinous.

Kieffer—Large, showy, rich, golden yellow, dotted thickly, shaded red; quality fair to good, juicy, firm. Price 5c additional to above prices.

Louise Bonne de Jersey (d)—Rather large; greenish yellow, with a bright red cheek; juicy, buttery and melting, very productive and a fine grower.

Seckel (d)—Small, yellowish russet, with cinnamon-red cheek; flesh very fine-grained; sugary, rich, juicy.

Tyson—Medium size; bright yellow, cheek shaded with reddish crown; buttery; very sweet and delicious.

Winter.

Beurre d'Anjou (d)—Large, russet yellow, with red cheek; fine-grained, buttery, melting, superb, rich, productive.

Lawrence (d)—Medium, pyriform; light yellow; buttery, sugary, excellent, rich, aromatic, fine flavor.

Sheldon—Medium size; yellow on greenish russet; richly shaded cheek; flesh a little coarse, melting, juicy; very productive.

Cher- riesOF.... Special Merit.

DIKEMAN CHERRIES

GENERAL LIST

PRICES.

Heavy, first-class, 5 to 7 feet.....	\$.40	\$4.00
Light, first-class, 5 to 6 feet.....	.55	3.50
Second-class, 4 to 5 feet.....	.30	3.00

(By Express.)

Black Tartarian—Standard black sort.
 Belle Magnifique—Large, bright red; flesh tender, juicy;
 July.
 Coe's Transparent—Amber, juicy; June.
 Dyehouse—Early and sure bearer; ripens before Early
 Richmond; better and more productive.

Dikeman.

This is a black Cherry of the Bigarreau type, and ripens at a time when Sweet Cherries are very scarce, hence commands a good market price. It is unexcelled as a producer; fruit very firm, shipping and keeping so remarkably well that these qualities will make it a favorite among growers. In color, sweetness and size we know of nothing to compare with it. The original tree is said to have produced from 1 to 12 bushels of fruit last season. The fruit was on exhibitioⁿ at the New York State Fair in 1897, attracting the attention and admiration of all. Price, first-class, 75c; medium, 50c; second-class, 35c.

Plymouth Rock.

A variety of recent introduction, claimed to be the best light or amber-colored colored Cherry in existence, much superior to Coe's Transparent or Yellow Spanish in quality and size of fruit. Habit vigorous and productive; will hang on the tree when ripe longer than any known variety, and for some unknown reason its fruit is never molested by birds. Quality high, rich, juicy and tender, with a small pit; very desirable for home or market; profitable. First-class, 40c, \$4 per dozen; medium, 30c, \$3 per dozen; second-class, 25c, \$2.50 per dozen.

Murdoch's Bigarreau.

Fruit of the largest size, from $\frac{3}{4}$ to $1\frac{1}{4}$ inches in diameter; roundish, heart-shaped; flesh juicy, sweet, exceedingly firm, bearing carriage best of any Cherry we know, and less subject to rot than most varieties, frequently hanging on the tree, in favorable weather, until dry. Skin yellowish, over-spread with crimson and becoming almost fully black when ripe. Season about ten days later than Napoleon Bigarreau; wonderfully productive. First-class, 40c, \$4 per dozen; medium, 30c, \$3 per dozen; second-class, 25c, \$2.50 per dozen.

OF CHERRIES.

Early Richmond—Dark red, melting, juicy. One of the most valuable; June.

English Morello—Blackish red, rich, juicy, acid; August.

Gov. Wood—Light red, juicy; June.

May Duke—Dark red, rich; June.

Montmorency—Large, red, acid; June.

Napoleon—Pale yellow or red, very firm, juicy, sweet; June.

Olivet—Deep red, tender, sub-acid; June.

Ostheim—Hardy, large, dark red, juicy and pleasant.

Windsor—Flesh is remarkably firm and of the finest quality; very large, nearly black, sells at highest prices in market; late.

Yellow Spanish—Pale yellow and red, firm, juicy, productive. June.

PEACHES.

Matthew's Beauty.

A large yellow Peach, supposed to be a cross between Elberta and Smock, that promises to be a great acquisition for all sections. Fruit is of the largest size, in shape resembling the Elberta, but a little longer; skin a beautiful golden yellow; flesh firm, of excellent flavor, freestone; one of the most promising of our recent introductions. Ripens about two or three weeks after Elberta, at a season when Peaches of this class bring high prices in the market. Price: First-class, 25c each, \$2.50 per dozen; \$12 per hundred; medium, 20c each, \$2 per dozen, \$9 per hundred; small, mailing size, 20c each, postpaid.

Admiral Dewey.

Another triumph in the production of very early peaches, and we believe there is no known variety of very early peaches that can compare with it in all the qualities that go to make a very desirable early market variety.

The introduction of this early peach will mark as great an advance in early varieties as did the advent of the Triumph; and, while that valuable variety is proving even more than was claimed for it and is still gaining in favor, the Admiral Dewey possesses many important points of superiority over that fine variety.

The Admirable Dewey is a perfect freestone peach. It ripens with the Triumph. The flesh is of uniform color and texture to the pit. Has better form and a brighter color on the surface. It is equally hardy and productive. The tree is strong symmetrical grown, and as near perfection as we can obtain in a single variety. Price, one-year trees, by express, 25c; \$2.50 per dozen, mail size, postpaid, 20c each.

Lorentz.

This is one of the iron-clad varieties, and has never failed a crop yet. Fruit is usually large, season late. It is a freestone of the best quality and bears enormously; will fetch double the price of any peach on the market. First-class, 25c each, \$2.50 per dozen; medium, 20c each, \$2 per dozen; mail size, postpaid, 15 cents.

Prices of Standard Varieties.

Quinces.

Price, first-class, 2 years, 25c each; \$2.50 per dozen; second-class, 2 years, 20c each, \$2 per dozen. By express only.

Meech's Prolific—Good grower, productive, bears young, fruit large, yellow, showy; good for cooking.

Orange—Large, roundish, bright golden-yellow; cooks tender, and is of excellent flavor; very productive; the most popular and extensively cultivated variety. October.

Champion—Originated in Connecticut. A prolific and constant bearer; fruit larger than the Orange, more oval, as good, and a longer keeper. October and November.

Strawberries.

STAR.

Star—This berry is as near perfect as possible, somewhat resembling the Gandy, but not quite so dark in color. It is a beautiful, glossy crimson, and colors all over at the same time, being an ideal berry in this respect. All the berries average large from the first to last, with no small or ill-shaped berries throughout the entire season. In quality it is of the best. Price, 50c per dozen; \$1.50 per hundred, postpaid.

General List of Strawberries.

The blossoms of those marked with (p) are destitute of stamens and are termed pistillate, and unless a row of perfect flowering variety is planted at intervals

not exceeding about a rod, they will produce imperfect fruit; and but little of it; but when properly fertilized, as a rule they are more prolific than those with perfect flowers. Price, 25c per dozen; 75c per hundred, postage paid.

Beder Wood—The berry is round, of regular form, bright scarlet and of good quality; early.

Bubach No. 5 (p)—Combines many excellent qualities, uniform size, fine form and color, continues long in bearing.

Brandywine—One of the best berries ever introduced; large, firm and solid.

Clyde (Per.)—Nearly as large as the Bubach, nearly or quite a week earlier, and very much firmer. It is a strong staminate. The plant is very vigorous. Season of ripening, second early.

Gandy—Berries large, firm and uniform shape; one of the best late.

Haverland (p)—Large and productive; requires rich soil for best results.

Lovett's Early—Season of ripening medium, an excellent all-round berry; very prolific.

Warfield No. 2 (p)—Medium size; dark red; one of the best for market. Season medium.

Raspberries.

Price, 50c per dozen; \$1 per hundred, except where noted. Add 40c per hundred if wanted by mail. By the dozen postage paid.

Cuthbert—Large, crimson, firm; vigorous, productive.

Golden Queen—The best yellow; identical with Cuthbert in all but color.

Gregg (Cap.)—Large, black, firm, fine flavor; productive.

Kansas (Cap.)—Large, black, firm, fine quality; an improvement upon Gregg.

Shaffer's Colossal—Large dull purple, rather soft, rich and luscious; productive.

Loudon—Begins to ripen with Cuthbert and continues longer; berries larger, firmer, and brighter color; cling well to the stem and never crumble. It will remain on bushes longer after ripe than any other berry, and is the best of shippers. Price, 50c per dozen; \$1.50 per hundred.

Currants.

If wanted by mail, add 40c per hundred for postage—by the dozen postage paid.

Fay's Prolific, Cherry, Versailles, Victoria, Red Dutch, White Grape—the most popular varieties. Price, 50c per dozen; \$3.00 per hundred.

Red Cross—Red Cross clusters are long and well-necked berries, double the size of the Victoria and far superior in quality over Cherry or Victoria. Nothing will compare in quality with Red Cross but White Dutch, which is too small. It is later than Cherry. Red Cross yields two or three times as much fruit as Cherry. We recommend it with confidence. Price, 75c per dozen.

Blackberries.

If wanted by mail, add 40c per hundred for postage. By the dozen, postage paid.

Rathbun (New)—Extra large in size, with a soft, sweet and luscious flavor; hardy and productive. Price, \$1 per dozen; \$4.00 per hundred.

Eldorado—One of the hardiest known; of extra fine quality, large in size. Berries are jet black, sweet and melting, and very nearly coreless; the best Blackberry ever introduced. Price, 50c per dozen; \$2.50 per hundred.

Erie—Very productive, fruit large, round in form, getting very popular. Price, 50c per dozen; \$1.50 per hundred.

Taylor's Prolific—Berries large and of fine flavor, hardy and productive. One of the best varieties. Price, 50c per dozen; \$1.50 per hundred.

RATHBUN BLACKBERRY. Price, 50c per dozen; \$1.50 per hundred.

Wilson Junior—Not very hardy for the North, otherwise very popular; productive, large and good quality. Price, 50c per dozen; \$1.50 per hundred.

Gooseberries.

BY EXPRESS ONLY.

Keepsake—The most improved English variety; earlier than Industry. Price, 20c each; \$2 per dozen.

Industry—The popular English variety; excellent quality; very large. Price, 15c each \$1.50 per dozen.

Red Jacket—Best new American sort; does not mildew; excellent quality. Price, 15c each; \$1.25 per dozen.

Downing—Very popular; large; pale green. Price, 10c each; \$1 per dozen.

Houghton—Well-known red variety. 10c each; \$1 per doz.

Grapes.

McPike—This grand new variety is a seedling of Worden, and partakes of all good qualities of these Grapes to a marked degree. Perfectly hardy, with a leaf unprecedented; earlier than Concord; bunches large, even and compact, berries even in size, ripens uniformly, and has generally the appearance of Worden. The berries are of mammoth size, being three inches in circumference and of superb quality; by far the best Grape grown. Price, one-year-old, 35c; two-year-old, 50c.

Campbell's Early—The special merits claimed for this Grape are a strong, vigorous, hardy vine; thick, mildew resisting foliage, abundant bearer, clusters very large, shouldered, compact and handsome. Season very early. Will hang upon the vine sound and perfect for six weeks. A good keeper and shipper. Berries large, nearly round, often an inch or more in diameter; black, with light purple bloom; skin thin, but very tenacious, bearing handling and shipping admirably. Price, one-year-old, by mail, 20c; two-year-old, 30c.

Alice—This variety is specially valuable for its long-keeping qualities; it has kept in an ordinary cellar, without cold storage or special care, all Winter. It is a pale-red Grape the size of Catawba, fruit of fine flavor, high quality, pulp meaty and tender, with few seeds, and small; skin tough and a good shipper; therefore a good market variety; ripens with Concord. Price, one-year-old, by mail, 25c each; 2 years, 40c.

General List of Grapes.

Price, one-year-old, 15c each; twelve for \$1. By mail postpaid.

Agawam—(Rogers 15.) Large red with thick skin, sweet and sprightly; ripens early.

Brighton—Extra quality, free grower and productive. One of the best reds.

Catawba—Berries large, round; when fully ripe of a copper color; rich, musky flavor.

Concord—Succeeds everywhere. Black, a vigorous grower; very popular.

Delaware—Light red, sweet and delicious; desirable for its fine quality.

Empire State—A fine white; healthy strong grower; good flavor.

Green Mountain—(Winchell.) New white, productive, delicious quality, beautiful bunches, very desirable.

Lady—Bunch rather small, berry medium, skin thin, sweet and good.

Moore's Early—Bunch large, berry large, with heavy blue bloom; vine hardy.

Moore's Diamond—Bunch and berry large, greenish white; vigorous and productive.

Niagara—Berries large, round, light green, sweet; very productive.

Pocklington—Cluster and berry large, white-amber color, sweet, vigorous and productive.

Worden—Large bunch and berry, similar to Concord, but two weeks earlier.

...DESIRABLE... FRUIT ...NOVELTIES...

BUFFALO BERRY.

The fruit resembles small currants, but is of richer taste, and literally covers the twigs and branches. If not gathered it will remain on the plants through the Winter. Esteemed for pies, tarts, preserves, jellies, etc. The plants are very hardy and easily cultivated, and bear abundant fruit every year. As the male and female blossoms are borne on different plants, they should be planted in clusters of three or more for best results. Price, 10c each; \$1 per dozen, postpaid.

JAPANESE GOLDEN MAYBERRY.

A Raspberry which ripens its fruit before Strawberries. This is a decided and valuable novelty. The earliest Raspberry ever known. The berries are of a golden straw color, as large as Cuthbert, and ripen here in April. The bushes are distinct from all others, growing like trees, six to eight feet high, with spreading tops and all along the branches large white, bell-shaped blossoms are pendant, followed by great, sweet, glossy, golden, semi-translucent berries. Price 10c each; 75c per dozen by mail, postpaid.

DWARF ROCKY MOUNTAIN CHERRY.

Originally grew wild in the mountains, but has been much improved by cultivation. It is remarkably hardy, a sure annual bearer of very easy culture, bearing when two years old. Fruit of good size, good flavor, and can be eaten fresh; is also excellent for canning, and is more easily pitted than any other Cherry. Price, one-year-old, 10c each; \$1 per dozen; two-year-old, 15c each; \$1.50 per dozen, by mail, postpaid.

THE LOGAN BERRY.

A hybrid between the Raspberry and Blackberry. The fruit is as large as the largest Blackberry, and is produced in immense clusters. The color is a clear, dark red. It partakes of the flavor of both the Blackberry and the Raspberry—mild, pleasant, vinous flavor, delicious and peculiar to this berry alone. Seeds small, soft and few. Berries very firm, and carry well. Strong grower; enormous bearer. Fruit ripens early, just after Strawberries. Price 20c each; \$2 per dozen, by mail, postpaid.

ELEAGNUS LONGIPES.

This new and valuable fruit begins to bear at two years old, and the fruit is very highly prized by all who have fruited it, for its peculiar piquancy, making a very delicious sauce, considered much superior to the cranberry. Price 10c each; \$1 per dozen, postpaid.

RUBUS-SORBIFOLIUS. (Strawberry-Raspberry.)

It is a Japan variety of the Raspberry or Blackberry family, but little known in this country. It is of strong, robust, upright spreading habit, similar to the Raspberry, except that it dies to the ground every Fall and the fruit is produced on the young growth made the next year, by

which we should think it would be well adapted to the cold climates. Fruit large, handsome, luscious, resembling in size and form the Strawberry; red in color, and of sprightly sub-acid pleasant flavor; excellent for sauce or jams, or very good as a dessert fruit, ripening with the Raspberry. Price, 25c per dozen, postpaid.

JAPANESE WINEBERRY.

This interesting plant belongs to the Raspberry family. The fruit is borne in large clusters, and each berry is at first tightly enveloped by the large calyx, forming a sort of burr. For jelly making, canning and preserving, it is without an equal. Price, 10c each; 50c dozen, by mail, postpaid.

LUCRETIA DEWBERRY.

One of the low-growing, trailing Blackberries. In size and quality it equals any of the tall-growing sorts. The plant is perfectly hardy, healthy and remarkably productive, with large showy flowers. The fruit, which ripens early, is often 1 to 1½ inches long, by 1 inch in diameter; soft, sweet and luscious throughout, with no hard core; ripe before late Raspberries are gone. Price, 50c per dozen, by mail, postpaid.

IMPROVED DWARF JUNE BERRY.

A good substitute for the large or Swamp Huckleberry. The fruit is borne in clusters, and is reddish-purple in color, changing to a bluish-black. In flavor it is a mild, rich, sub-acid; excellent as a dessert fruit or canned. Price, 10c each; 75c per dozen, by mail, postpaid.

LOGAN BERRY.
